RecPro RP-STLG-RH-SV

RecPro Lagun Standard RV Leg Table System (Model RP-STLG-RH-SV) Instruction Manual

Brand: RecPro | Model: RP-STLG-RH-SV

1. PRODUCT OVERVIEW

The RecPro Lagun Standard RV Leg Table System is designed to provide a versatile and space-saving table solution for recreational vehicles, boats, and other compact living spaces. This system eliminates the need for bulky floor-mounted legs, offering increased legroom and flexible table positioning. Its robust construction ensures stability, supporting a maximum weight of 50 pounds.

Key Features:

- 360-Degree Swivel:** The leg system swivels at two points, allowing for a full 360-degree rotation to achieve the perfect table angle and position.
- Increased Legroom:** By eliminating floor mounts, the system provides significantly more legroom beneath your table.
- Easy-to-Use Rotating Handles:** Handles lock securely into position, preventing accidental movement and ensuring ease of use. The main handle is positioned on the right-hand side of the system.
- Quick Disassembly:** Designed for easy and fast disassembly, making storage convenient when the table is not in use or during travel.

2. PACKAGE CONTENTS

Please ensure all components are present before beginning installation:

- Leg table system
- Standard bracket

Our Story

RecPro is based in Elkhart City, IN, the heart of the RV industry, and started with a line of luxury RV furniture. We quickly expanded our offerings to provide customers with whatever their home on wheels may need to function in style.

In business for over a decade, RecPro can be counted on for quality aftermarket RV parts. Whether you're overhauling an old-school trailer or simply looking to upgrade your current setup, RecPro has you covered.

3. INSTALLATION GUIDE

Follow these steps for proper installation of your RecPro Lagun Table System. Ensure you have appropriate tools and a sturdy mounting surface.

- 1. Assemble the Main Arm:** Attach the rotating handles to the main horizontal arm of the table system. Ensure they are securely fastened but allow for rotation when unlocked.
- 2. Attach Table Plate:** Secure your desired table top to the table plate using appropriate screws (not included, as table tops vary).
- 3. Mount Wall Bracket:** Choose a sturdy vertical surface in your RV for the wall bracket. Use the provided long bolts and nuts to securely fasten the bracket. Ensure it is level and can support the table's weight.
- 4. Connect Leg to Wall Bracket:** Slide the vertical leg into the wall bracket. Use the lower rotating handle on the leg to lock it into the desired height.
- 5. Connect Arm to Leg:** Slide the horizontal arm (with the table plate attached) onto the top of the vertical leg. Use the upper rotating handle to secure the arm in place.
- 6. Adjust and Test:** Once assembled, test all swivel and height adjustments to ensure smooth operation and stability.

Video: This video demonstrates the step-by-step assembly of the removable table leg system, showing how to connect various components and prepare it for mounting.

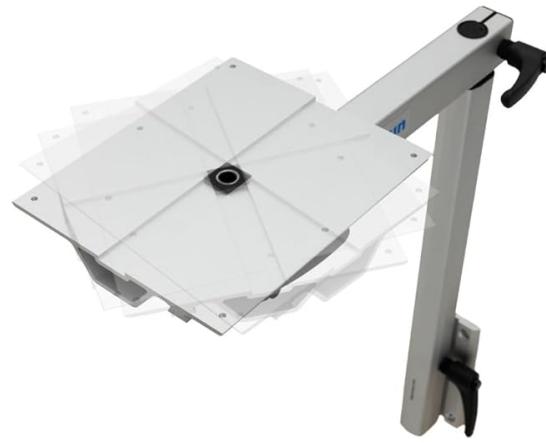

4. OPERATING INSTRUCTIONS

The RecPro Lagun Table System offers multiple adjustment points for optimal table positioning:

- **Height Adjustment:** Loosen the lower rotating handle on the vertical leg to slide the leg up or down, then tighten to secure at the desired height.
- **360-Degree Table Rotation:** Loosen the upper rotating handle on the horizontal arm to rotate the table top a full 360 degrees. Tighten the handle to lock the table in place.
- **Arm Swivel:** The horizontal arm can also swivel independently from the vertical leg, allowing for further fine-tuning of the table's position. Loosen the handle at the pivot point to adjust, then tighten.
- **Table Swing:** The entire arm and table assembly can swing back and forth, providing flexibility for entry/exit or repositioning.

5. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your RecPro Lagun Table System, follow these simple care and maintenance guidelines:

- **Cleaning:** Wipe down all metal surfaces with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish.
- **Fastener Check:** Periodically inspect all screws and handles to ensure they are tight. Re-tighten as necessary to maintain stability.
- **Lubrication:** If any moving parts become stiff, apply a small amount of silicone-based lubricant to the pivot points and sliding mechanisms.

- **Storage:** When not in use for extended periods or during travel, consider disassembling the table system for compact storage to prevent potential damage.

6. TROUBLESHOOTING

If you encounter any issues with your table system, refer to the following common troubleshooting tips:

- **Table Wobbles:** Ensure all mounting screws for the wall bracket are securely tightened. Check that the rotating handles on the leg and arm are fully locked. The stability of the table also depends on the rigidity of the surface it is mounted to.
- **Difficulty Adjusting Height/Swivel:** Loosen the rotating handles completely before attempting to adjust. If movement is still stiff, apply a silicone lubricant to the sliding and pivot mechanisms.
- **Handles Not Locking:** Ensure the handles are properly aligned and fully engaged. If a handle feels loose, it may need to be adjusted or replaced.

If these steps do not resolve the issue, please contact RecPro customer support for further assistance.

7. PRODUCT SPECIFICATIONS

Specification	Detail
ASIN	B0CTMZBS4P
Item Model Number	RP-STLG-RH-SV
Brand	RecPro
Color	Silver
Form Factor	Floor-standing, Collapsible
Compatible Devices	Table
Mounting Type	Tabletop
Manufacturer	RecPro
Date First Available	January 31, 2024

8. WARRANTY AND SUPPORT

For warranty information, product support, or to purchase replacement parts, please visit the official RecPro website or contact their customer service department. Keep your purchase receipt as proof of purchase for any warranty claims.
