ANZZI AMZ3053RWD

ANZZI Walk-In Bathtub AMZ3053RWD Instruction Manual

Model: AMZ3053RWD | Brand: ANZZI

PRODUCT OVERVIEW

The ANZZI Walk-In Bathtub AMZ3053RWD is designed for accessibility and therapeutic bathing. This acrylic bathtub features a right-side door, whirlpool and air jets, chromatherapy lighting, a fast drain system, and a quick-fill faucet. Safety features include a grab bar, ADA compliant seat, and a slip-resistant base. An integrated heater helps maintain water temperature for extended comfort.

Key Features:

- Wide door with watertight seal for easy entry and reduced strain.
- Nine hydro jets and four targeted back jets for deep massage.
- Twenty-six air jets for full-body aero massage therapy.
- Powered fast drain system removes water in approximately one minute.
- Quick fill faucet with handheld sprayer and 60-inch hose reach.
- Integrated chromatherapy lighting for a calming bath atmosphere.
- Built-in heater to maintain water warmth.
- Slip-resistant floor, grab bar, and low threshold for enhanced safety.
- Glossy white acrylic construction with chrome accents.

SETUP AND INSTALLATION

Proper installation is crucial for the safe and efficient operation of your ANZZI Walk-In Bathtub. It is recommended that

installation be performed by a licensed professional.

Pre-Installation Checks:

- **Inspect the Tub:** Before permanent installation, thoroughly inspect the tub, drain, and jets for any damage or leaks. Fill the tub with water and test all functions.
- **Measure On-Site:** Always measure the tub on-site before building any surrounding structures to ensure proper fit.
- **Electrical Requirements:** This bathtub requires dedicated electrical wiring for its features (jets, heater, chromatherapy). Consult a licensed electrician to ensure your home's electrical system can support the tub and that all connections are made according to local codes, including GFCI protection.
- **Plumbing Connections:** Ensure all water supply lines and drain connections are properly sealed to prevent leaks.
- **Leveling:** The tub must be installed on a level surface to ensure proper drainage and door seal integrity.

3053

WALK-IN BATHTUB

OVERALL SIZE (IN): 52.375 L x 29.875 W x 39 H

INTERIOR WIDTH (IN): 23.75

IMPORTANT! TEST THE TUB'S DRAIN AND JETS (if any) BEFORE PERMANENT INSTALLATION!

- Please measure tub on-site before building tub surrounding!
- Thoroughly read user installation guide and manual before starting installation.
- Measurements are subject to a +/- .5" variance and subject to change without notice.

OPERATING INSTRUCTIONS

Entry and Filling:

1. **Open the Door:** Carefully open the walk-in door.
2. **Enter the Tub:** Use the integrated grab bar for support while stepping over the low threshold and into the tub.
3. **Close the Door:** Ensure the door is securely closed and latched to create a watertight seal.
4. **Fill the Tub:** Use the quick-fill faucet to fill the tub to your desired level. The faucet includes a handheld sprayer with a 60-inch reach for convenience.

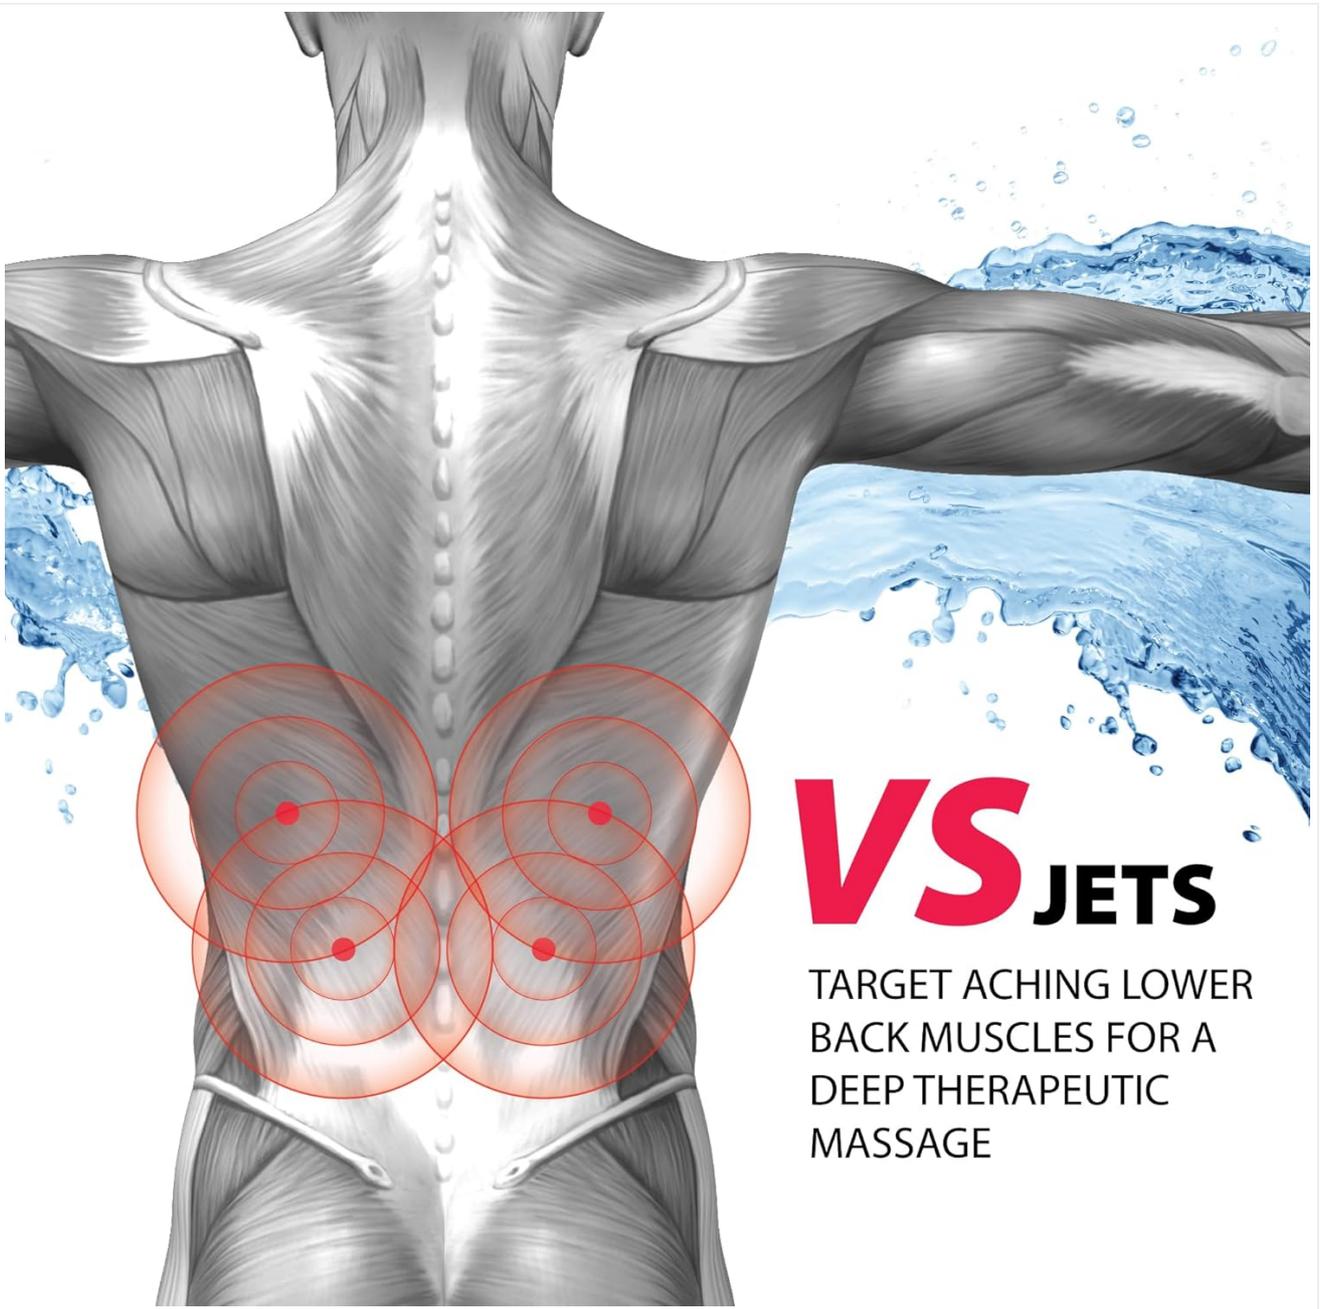

FAST FILL 4-PIECE FAUCET SET

Image: The 4-piece quick-fill faucet set for the ANZZI Walk-In Bathtub, highlighting the 5.7 GPM flow rate and 60-inch pull-out sprayer.

Therapeutic Features:

- **Hydro Jets:** Activate the nine hydro jets and four targeted back jets for a deep tissue massage. The V-shaped jet pattern specifically targets lower back muscles.
- **Air Jets:** Engage the twenty-six air jets for a relaxing total body aero massage.
- **Chromatherapy:** Turn on the integrated chromatherapy lighting to create a soothing and calming colored bath environment.
- **Heater:** The built-in heater helps maintain the water temperature, allowing for longer, more comfortable soaks without the water cooling down.

Draining and Exit:

1. **Drain the Tub:** Activate the powered fast drain system. Water will be removed in approximately one minute.
2. **Wait for Drainage:** Ensure the tub is completely drained before attempting to open the door.
3. **Open the Door:** Once drained, open the walk-in door.
4. **Exit the Tub:** Use the grab bar for support when exiting.

MAINTENANCE AND CARE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your ANZZI Walk-In Bathtub.

- **General Cleaning:** Clean the acrylic surface with a soft cloth and a non-abrasive, mild bathroom cleaner. Avoid harsh chemicals or abrasive pads that can scratch the surface.
- **Jet Cleaning:** Periodically run the jets with a specialized jet cleaner or a mixture of white vinegar and water to prevent buildup and maintain hygiene. Follow the cleaner's instructions for proper dilution and use.
- **Door Seal:** Inspect the door seal regularly for any signs of wear or damage. Keep the seal clean to ensure a watertight closure.
- **Chrome Fixtures:** Clean chrome fixtures with a soft cloth and a mild, non-abrasive cleaner designed for chrome.
- **Drain Maintenance:** Clear the drain of any hair or debris regularly to ensure the fast drain system operates efficiently.

TROUBLESHOOTING

This section addresses common issues you might encounter with your walk-in bathtub.

Problem	Possible Cause	Solution
Water not draining quickly.	Drain obstruction (hair, debris).	Clear the drain of any blockages. Ensure the drain mechanism is fully open.
Jets not functioning.	Power supply issue, low water level, airlock in pump.	Check electrical connections and GFCI. Ensure water level is above jets. Consult a professional if an airlock is suspected.
Water temperature not maintained.	Heater malfunction, insufficient initial hot water supply.	Ensure your hot water tank is adequately sized. If the heater is not functioning, contact support.
Door leaking.	Door not fully latched, damaged seal, debris on seal.	Ensure the door is completely closed and latched. Clean the door seal. Inspect the seal for damage and contact support if replacement is needed.
Electrical tripping (GFCI).	Electrical fault, water ingress into electrical components.	Immediately discontinue use. This indicates a serious electrical hazard. Contact a licensed electrician and ANZZI customer support. Do not attempt to reset the GFCI repeatedly without addressing the underlying issue.

SPECIFICATIONS

Feature	Detail
