

Novilla N-F12007-K-BR

Novilla King Size Bed Frame User Manual

MODEL: N-F12007-K-BR

Introduction

This manual provides instructions for the assembly, operation, and maintenance of your Novilla King Size Bed Frame. This bed frame features an adjustable headboard, a platform design that eliminates the need for a box spring, linen fabric upholstery, and wooden slat support. Please read these instructions carefully before assembly and retain for future reference.

Safety Information

- Always follow the assembly instructions carefully to prevent injury.
- Do not exceed the maximum weight limit of 1200 lbs.
- Be cautious of potential pinch points during assembly.
- Ensure all velcro is securely attached to minimize noise and ensure stability.
- Keep small parts and packaging materials away from children.

Package Contents

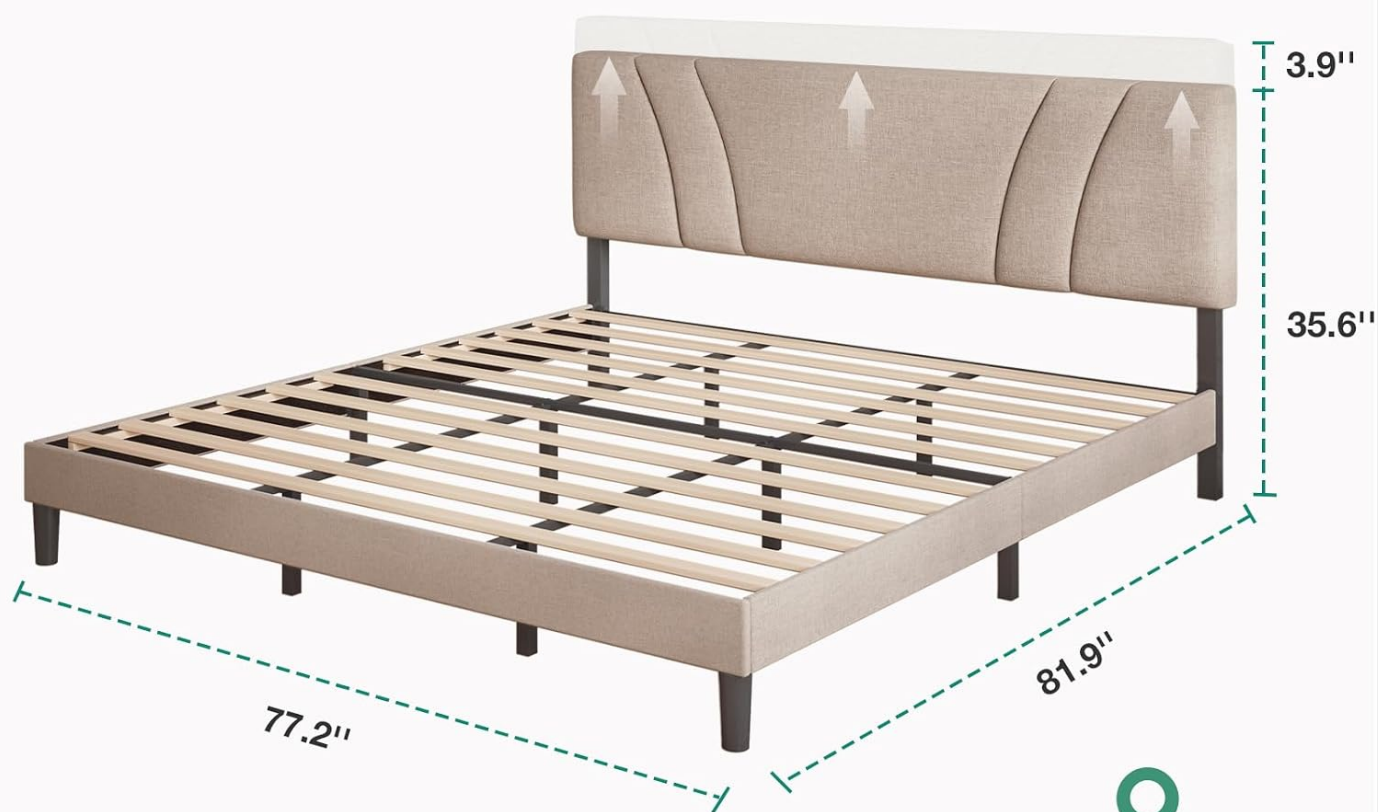

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or defective, please contact customer service.

- Headboard (Adjustable)
- Side Rails (Linen Fabric Upholstered)
- Footboard (Linen Fabric Upholstered)
- Center Support Beam(s)
- Wooden Slats (with Velcro for attachment)
- Support Legs (12 iron support legs)
- Hardware Pack (bolts, washers, nuts, Allen wrench)
- Assembly Instructions Manual

Setup and Assembly Instructions

Assembly is designed to be straightforward and can typically be completed in approximately 20 minutes with two individuals. Follow the included step-by-step instructions and diagrams carefully.

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface to prevent scratches. Identify each part using the provided parts list in your instruction manual.
2. **Attach Headboard Legs:** Secure the support legs to the headboard using the designated hardware. Ensure they are firmly tightened.
3. **Connect Side Rails:** Attach the side rails to the headboard and footboard using the provided bolts. Do not fully tighten all bolts until the frame is fully assembled.
4. **Install Center Support:** Place the center support beam(s) into the designated slots or brackets on the side rails. Attach any additional support legs to the center beam(s).
5. **Position Wooden Slats:** Unroll or place the wooden slats across the frame. The slats are designed with velcro for easy and secure attachment to the frame, reducing movement and noise. Press firmly to ensure the velcro adheres properly.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws.
7. **Place Mattress:** The bed frame does not require a box spring. Place your mattress directly onto the wooden slats.

KING SIZE

Operating Instructions

Adjustable Headboard

The headboard height can be adjusted to accommodate mattresses ranging from 8 to 14 inches in thickness. To adjust, loosen the bolts connecting the headboard to its support legs, slide the headboard to the desired height (between 35.6 inches and 39.5 inches), and then securely tighten the bolts.

ADJUSTABLE HEADBOARD

Suitable for mattresses 8-14 inches thick

No Box Spring Required

This platform bed frame is designed with robust wooden slats that provide direct support for your mattress, eliminating the need for a traditional box spring. Simply place your mattress directly on the slats.

Image: Close-up of the non-slip design on the wooden slats, which helps keep the mattress securely in place.

Maintenance

- **Cleaning Fabric:** For the linen fabric upholstered headboard and side rails, gently vacuum with an upholstery attachment to remove dust. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner following the product instructions, testing on an inconspicuous area first.
- **Cleaning Metal Frame:** Wipe the metal components with a soft, damp cloth. Avoid abrasive cleaners that may damage the finish.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent noise.

Troubleshooting

Bed Frame is Squeaking or Noisy

- **Check Connections:** Ensure all bolts and screws are fully tightened. Loose connections are a common cause of noise.
- **Verify Slats:** Confirm that all wooden slats are properly seated and the velcro strips are securely attached to the frame. The bed frame is equipped with cushioned silent pads on the central support tube and velcro on the slats to minimize noise.
- **Inspect Legs:** Ensure all 12 support legs are firmly in contact with the floor and are not loose.

Image: Detail highlighting the noise-free design elements, such as cushioned silent pads on the central support tube.

Mattress Slides on Frame

- **Non-Slip Design:** The bed frame includes a non-slip design on the slats. Ensure the mattress is placed correctly on these strips.
- **Mattress Compatibility:** While designed for various mattresses, some mattress materials may be more prone to sliding. Consider using a non-slip mattress pad if sliding persists.

Specifications

Brand	Novilla
Model Number	N-F12007-K-BR
Size	King
Product Dimensions	81.9"L x 77.2"W x 39.5"H
Adjustable Headboard Height	35.6 inches to 39.5 inches
Compatible Mattress Thickness	8-14 inches
Material	Metal, Wood, Linen Fabric
