## 6. Maintenance

Proper care will extend the life and appearance of your bistro set.

- **Cleaning:** Clean the frames and wicker with mild soap and warm water. Use a soft cloth and rinse thoroughly. Avoid abrasive materials, bleach, or harsh solvents, as these can damage the finish.
- **Cushion Care:** The polyester fabric is water-repellent. For spills, blot immediately with a clean cloth. For deeper cleaning, remove cushion covers if possible and follow care instructions on the label.
- **Storage:** Store the set in a dry, sheltered place when not in use, especially during off-season or prolonged periods of rain, snow, or extreme temperatures. This will protect the galvanized steel and PE rattan from unnecessary wear.
- **Weather Resistance:** The PE rattan is UV-resistant and water-resistant for long-term outdoor use. The galvanized steel pipes are rust-resistant and fade-resistant.

## 7. Troubleshooting

If you encounter any issues with your bistro set, please refer to the following common solutions:

- **Wobbly Chair/Table:** Ensure all screws are fully tightened. Check if the adjustable foot pads on the table are properly leveled on uneven ground.
- **Stiff Swivel/Rocking:** Ensure the swivel mechanism is clean and free of debris. A small amount of silicone-based lubricant can be applied to moving parts if necessary (avoid oil-based lubricants).
- **Cushion Slippage:** Verify that the cushion straps are securely fastened to the chair frame.
