AeroGarden Harvest Lite Indoor Hydroponic Garden Instruction Manual

Model: 901201-8200-01

1. INTRODUCTION

The AeroGarden Harvest Lite is a compact, soil-free indoor hydroponic garden designed for growing herbs, vegetables, or flowers year-round. Its efficient LED grow light and automated reminders simplify the gardening process, making it suitable for various indoor spaces.

Figure 1.1: The AeroGarden Harvest Lite in Cream, showcasing a variety of fresh herbs thriving under the LED grow light. This image highlights the compact design and the vibrant growth achievable with the system.

This manual provides essential information for setting up, operating, and maintaining your AeroGarden Harvest Lite to ensure optimal plant growth and a successful indoor gardening experience.

2. SETUP

Assembling your AeroGarden Harvest Lite is a straightforward process. Follow these steps to get your garden ready for planting.

1. **Connect the lamp to the adjustable arm:** Align the lamp with the top of the adjustable arm and gently push until it clicks into place.
2. **Connect the arm to the bowl:** Insert the base of the adjustable arm into the designated slot on the main water bowl.
3. **Place the grow deck on top of the bowl:** Ensure the grow deck sits securely over the water bowl, covering the reservoir.
4. **Insert the water cover:** Place the small cover over the water fill port on the grow deck.

Easy to Assemble

1
Connect lamp to adjustable arm.

2
Connect arm to bowl.

3
Place grow deck on top of bowl.

4
Insert water cover.

See product instructions for more information.

Figure 2.1: A visual representation of the four simple steps required to assemble the AeroGarden Harvest Lite. This includes connecting the lamp, arm, grow deck, and water cover.

Once assembled, place your AeroGarden Harvest Lite on a stable, flat surface in your desired location.

3. OPERATING INSTRUCTIONS

3.1 Planting

The AeroGarden Harvest Lite allows you to grow up to 6 plants simultaneously. Seed pod kits are sold separately.

1. **Insert grow pods:** Place your chosen seed pods into the openings on the grow deck.
2. **Add seeds (if using your own):** If using "Grow Anything" pods, insert your seeds into the grow sponge within the pod.
3. **Cover pods (if provided):** Some seed pods may come with clear plastic domes to aid germination. Place these over the pods.

21 Day Germination Guarantee*

***We are so confident in the quality of our products that we will send out a replacement seed pod if one fails to germinate after 21 days.**

3.2 Watering

Your AeroGarden Harvest Lite features a simple indicator light that reminds you when to add water. Keep the water reservoir filled to the appropriate level for healthy plant growth.

Easy to Clean In Between Harvests

Figure 3.2: The red leaf icon on the front of the AeroGarden Harvest Lite illuminates to signal that it's time to refill the water reservoir, ensuring plants receive adequate hydration.

When the indicator light illuminates, carefully pour fresh water into the water fill port until the light turns off or the water level reaches the 'Max' line.

Video 3.1: This video demonstrates the process of adding water to the AeroGarden Harvest Lite. It shows the water being poured into the reservoir and the red indicator light turning off once the optimal level is reached.

3.3 Plant Food

Your plants require liquid plant food for optimal growth. The garden will remind you when it's time to add nutrients. Follow the instructions provided with your AeroGarden liquid plant food for the correct dosage and frequency. Typically, plant food is added every two weeks.

Video 3.2: This video segment illustrates how to add liquid plant food to the AeroGarden Harvest Lite. It shows measuring the plant food and pouring it into the reservoir, ensuring plants receive essential nutrients.

3.4 Lighting

The AeroGarden Harvest Lite features an energy-efficient, full-spectrum LED grow light with a built-in automatic

timer. This ensures your plants receive the perfect amount of light for flourishing growth.

- The light automatically turns on and off on a preset schedule (e.g., 15 hours on, 9 hours off).
- The lamp is adjustable in height, allowing you to raise it as your plants grow, up to 12 inches.

Year-Long Harvests in 3 Simple Steps

1

Adjust lamp for grow height.*

2

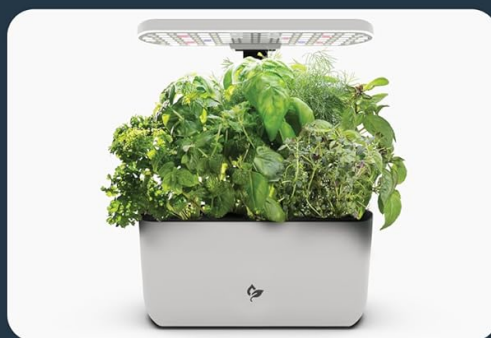

Add water and plant food.

3

Insert grow pods and add seeds.

Enjoy a **delicious harvest** in just weeks!

*Up to 12" for herbs, lettuces, tomatoes, and more.

Figure 3.4: The full-spectrum LED grow light of the AeroGarden Harvest Lite provides optimal illumination for crisp, homegrown lettuce, simulating natural sunlight.

4. MAINTENANCE

Regular cleaning of your AeroGarden Harvest Lite is important to prevent algae buildup and ensure a healthy growing environment for your plants.

Easy to Assemble

1 Connect lamp to adjustable arm.

2 Connect arm to bowl.

3 Place grow deck on top of bowl.

4 Insert water cover.

See product instructions for more information.

Figure 4.1: The base and grow deck of the AeroGarden Harvest Lite are shown disassembled and placed in a dishwasher, illustrating the ease of cleaning between harvests.

The water bowl and grow deck are dishwasher safe, making cleaning simple and convenient. It is recommended to clean the unit thoroughly between each planting cycle.

5. TROUBLESHOOTING

- **Plants not growing:** Ensure the water level is adequate and plant food has been added as directed. Check that the grow light is functioning on its timer.
- **Algae growth:** This can occur if the water reservoir is exposed to too much light. Ensure all grow deck openings are covered by pods or blanking covers. Clean the reservoir regularly.
- **Pump noise:** A slight hum from the pump is normal. If the noise becomes excessive, check for any obstructions in the pump or ensure the water level is not too low.

6. SPECIFICATIONS

- **Product Dimensions:** 11.89 x 7.84 x 7.4 inches
- **Item Weight:** 3.79 pounds
- **Manufacturer:** Scotts Miracle-Gro

- **Item Model Number:** 901201-8200-01
- **Grow Capacity:** Up to 6 plants
- **Grow Height:** Up to 12 inches
- **Light Type:** Energy-efficient, full-spectrum LED (15W)

7. WARRANTY & SUPPORT

For warranty information and customer support, please refer to the documentation included with your product or visit the official AeroGarden website. Keep your proof of purchase for any warranty claims.
