## savvies Pinhui D16

# savvies Screen Protector for Pinhui D16 (64GB)

Instruction Manual

## INTRODUCTION

---

This manual provides detailed instructions for the proper installation, use, and maintenance of your savvies SU75 UltraClear Screen Protector compatible with the Pinhui D16 (64GB) device. Please read these instructions carefully before proceeding with the installation to ensure optimal results and protection for your device's screen.

## SETUP INSTRUCTIONS

---

### Preparation

Before applying the screen protector, ensure you are in a dust-free environment, such as a bathroom after a hot shower. Thoroughly clean the screen of your Pinhui D16 (64GB) device using a microfiber cloth to remove any dust, fingerprints, or smudges. A clean screen is crucial for a bubble-free application.

## Application Steps

Follow these steps carefully for a smooth application:

1. **Step 1: Clean the Display.** Before assembly, locate a dust-free area. Carefully remove any dust or dirt from the display using a cleaning cloth.
2. **Step 2: Position the Protector.** Remove approximately half of the thin cover film from the screen protector. Align the screen protector precisely with your device's screen. Ensure the screen protector is centered on the display.

- Step 3: Apply and Smooth.** Cover a credit card or similar flat object with a soft cloth. Slowly slide the covered card over the screen protector from one side to the other, pressing gently. Simultaneously, pull off the rest of the cover film from the screen protector.
- Step 4: Remove Bubbles.** Brush out any remaining air bubbles with your covered credit card. Minor bubbles will typically disappear by themselves within 2-3 days.

SMART PROTECTION

## Instructions

## Anbringungsanleitung

**1** Before assembling, locate a dust free area (e.g. bathroom) and carefully remove any dust or dirt from the display.

**1** Nutze zur optimalen Montage einen staubarmen Ort (z. B. Badezimmer) und reinige das Display gründlich von Staub und Verschmutzungen.

**2** Remove half of the thin cover film of the screen protector and align the screen protector on one side with your screen. Make sure that the screen protector will be centered on the middle of the screen.

**2** Löse das Trägermaterial zur Hälfte unterhalb der Displayschutzfolie ab und setze diese an einer Seite des Displays an. Die Displayschutzfolie sollte in aufgezogenem Zustand mittig ausgerichtet sein.

**3** Cover a credit card with a soft cloth and carefully slide over the screen protector from one side to the other on your screen. Pull off the rest of the cover film at the same time.

**3** Streiche die Displayschutzfolie leicht mittels einer, mit weichem Tuch umwickelten, Kreditkarte von einer Seite zur anderen auf das Display. Ziehe dabei gleichzeitig den Rest des Trägermaterial ab.

**4** Brush out any remaining air bubbles with your credit card. Small air bubbles will disappear by themselves within 2-3 days - Done!

**4** Streiche eventuell vorhandene Lufteinschlüsse mit Hilfe der Kreditkarte seitlich heraus. Kleine Luftblasen verschwinden innerhalb von 2-3 Tagen von selbst - Fertig!

## OPERATING INSTRUCTIONS

---

Once correctly installed, the savvies screen protector functions passively, providing continuous protection without requiring active operation.

### Touch Sensitivity

The savvies SU75 UltraClear screen protectors are optimized for touch screens, ensuring that your device's touch sensitivity remains unaffected. You should experience no degradation in responsiveness or accuracy.

### Clarity

The ultra-thin, 99% highly transparent HD surface of the protection film allows for a sharp and genuine presentation of content and colors on the screen. The screen protector is almost invisible once applied, maintaining the original visual quality of your Pinhui D16 (64GB).

## MAINTENANCE

---

### Cleaning

To clean your screen protector, gently wipe it with a soft, lint-free cloth, such as a microfiber cloth. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials, as these can damage the protector's surface.

### Removal

If you need to remove or reposition the screen protector, gently lift one corner with your fingernail or a thin, non-abrasive object. Slowly peel the protector off the screen. The special silicone adhesive layer allows for residue-free removal.

## TROUBLESHOOTING

---

### Common Issues and Solutions

- **Bubbles:** Small bubbles often disappear within 2-3 days as the adhesive settles. For larger bubbles, gently lift the nearest edge of the protector and reapply, using a credit card wrapped in a cloth to push the air out towards the edge.
- **Dust Particles:** If dust is trapped under the protector, carefully lift the nearest edge and use a piece of tape to gently dab and remove the dust particle from both the screen and the adhesive side of the protector. Then reapply.

- **Misalignment:** If the protector is significantly misaligned, carefully remove it as described in the 'Removal' section and reapply, paying close attention to alignment during Step 2 of the application process.

## PRODUCT SPECIFICATIONS

---

Feature	Description
Compatibility	Pinhui D16 (64GB)
Pack Quantity	6x Screen Protectors
Material	SU75 UltraClear Protection Film
Transparency	99% High Transparency (HD-Clear)
Adhesive	Special Silicone Adhesive Layer (Bubble-free, Residue-free)
Protection	Against dirt, abrasion, and light scratches
Touch Sensitivity	Optimized for touch screens
Manufacturing	Made in Germany with high-precision laser machinery
Product Dimensions	7.09 x 3.94 x 0.5 inches (packaging)
