

ULTRALOCK U-Bolt

ULTRALOCK U-Bolt WiFi Smart Lock with Door Handle Set User Manual

Model: U-Bolt

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your ULTRALOCK U-Bolt WiFi Smart Lock with Door Handle Set. Please read this manual thoroughly before installation and use to ensure proper functionality and safety. The ULTRALOCK U-Bolt WiFi Smart Lock offers multiple keyless entry options and remote access capabilities for enhanced home security and convenience.

Image: The ULTRALOQ U-Bolt WiFi Smart Lock and accompanying door handle set installed on a white door, showcasing its modern black finish and integrated keypad.

SETUP AND INSTALLATION

Proper installation is crucial for the optimal performance of your ULTRALOQ U-Bolt WiFi Smart Lock. Follow these steps carefully.

1. Pre-Installation Checks

- **Door Thickness:** Ensure your door thickness is between 1 3/8 inches (35mm) and 1 3/4 inches (44mm). For thicker doors up to 2 1/4 inches (57mm), a thick door kit may be required.
- **Backset:** Verify the backset is either 2 3/8 inches (60mm) or 2 3/4 inches (70mm).
- **Bore Hole:** The cross bore hole should be 2 1/8 inches (54mm) in diameter.

Fits Most Standard Doors

Maximum thickness 2-1/4"(57mm), thick door kit is requested.

Left-Handed Door

Right-Handed Door

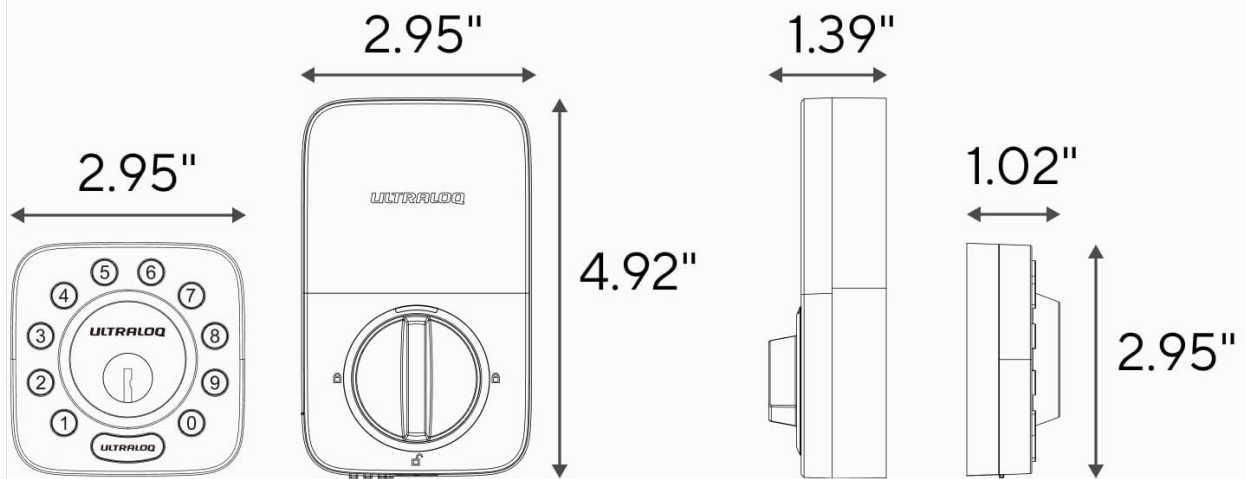

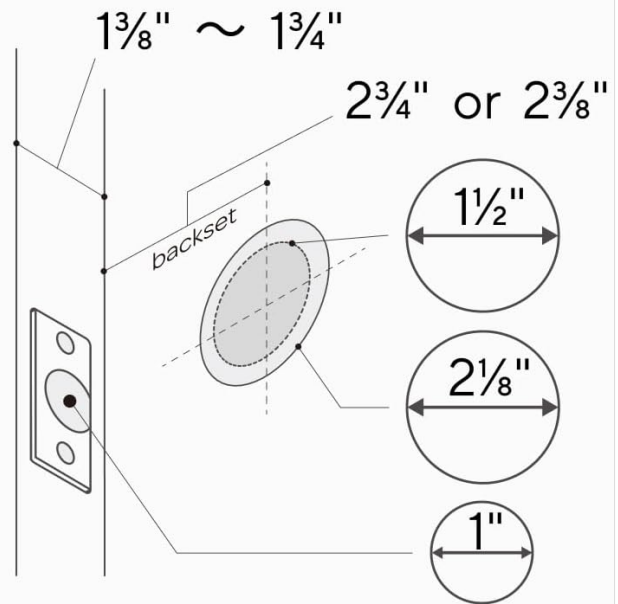

Image: A technical diagram illustrating the required door dimensions, including thickness, backset, and bore hole sizes, for compatibility with the ULTRALOQ U-Bolt smart lock.

2. Installing the Deadbolt and Handle

1. Install the deadbolt latch into the door edge.
2. Mount the exterior keypad assembly, ensuring the cable passes through the door.
3. Install the interior assembly, connecting the cable and securing it with screws.
4. Install the door handle set according to the provided template, ensuring proper alignment.

Fits on all Standard Doors

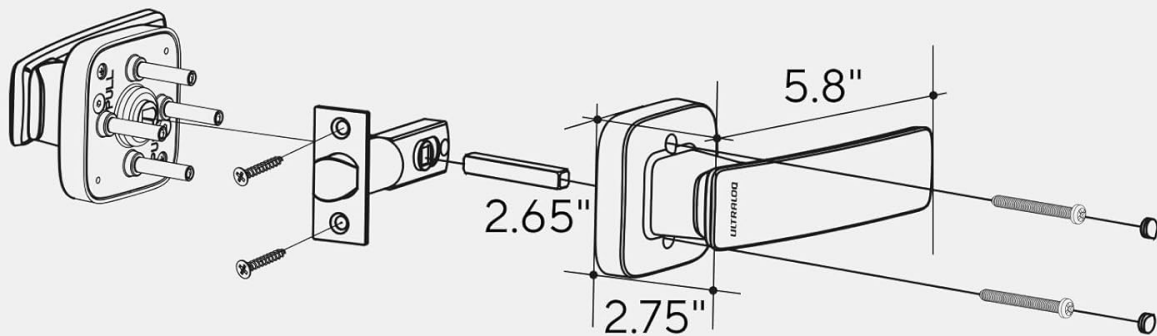

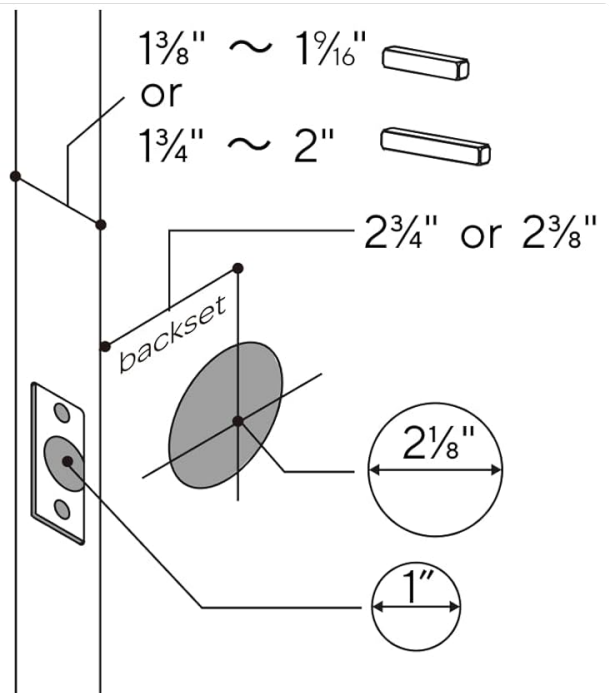

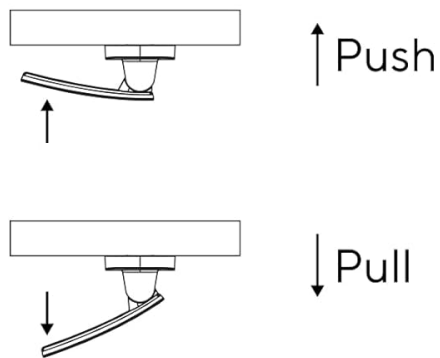

Image: An exploded view diagram detailing the components and assembly process for installing the ULTRALOCK door handle set, including measurements for standard door fitting.

3. Adjusting Handle Direction

The direction of the door handle can be adjusted to suit your door's orientation (left-handed or right-handed). Refer to the specific instructions in the included quick start guide for detailed steps on how to reverse the handle if necessary.

Install it any way you Like

The direction of the handle can be adjusted as you wish

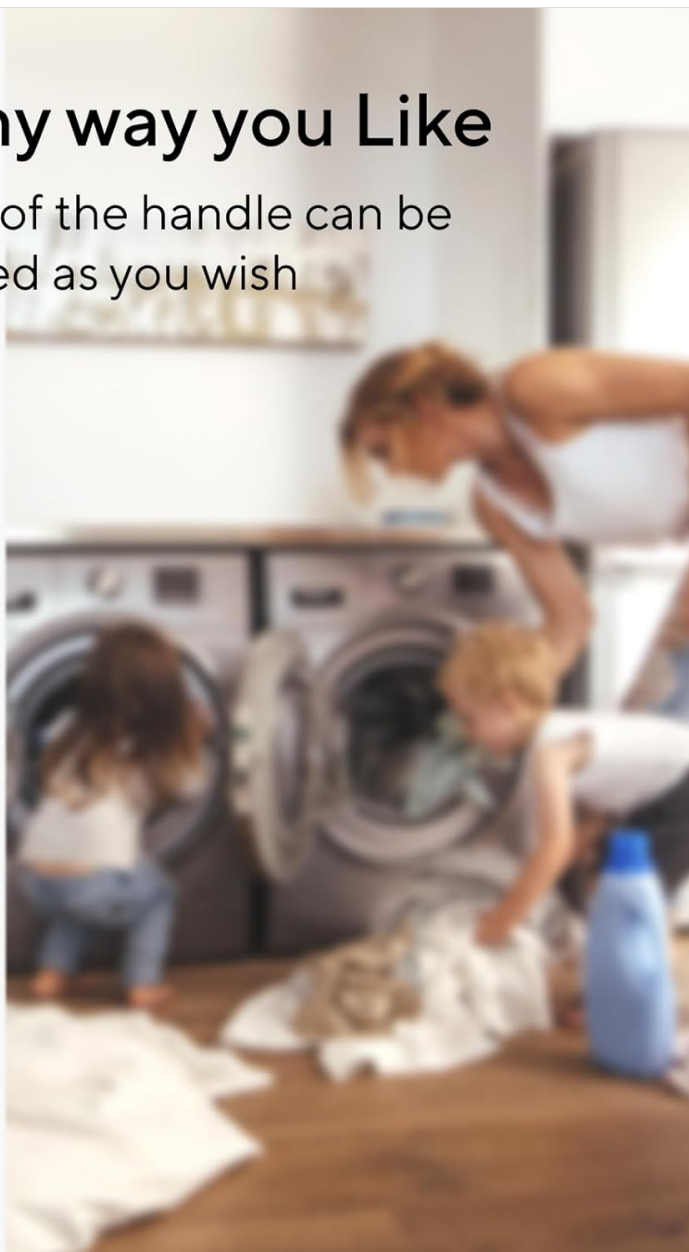

Image: A visual representation of the door handle, indicating that its orientation can be adjusted to accommodate different door opening directions.

4. App Download and Initial Pairing

Download the ULTRALOCK app from your smartphone's app store. Follow the in-app instructions to create an account and pair your U-Bolt WiFi Smart Lock. This will enable remote control and advanced features.

OPERATING THE SMART LOCK

The ULTRALOCK U-Bolt WiFi Smart Lock offers multiple convenient ways to access your home.

1. Keyless Entry Methods

- **Keypad:** Enter your personalized code on the anti-peep keypad.
- **Smartphone App:** Use the ULTRALOCK app to lock or unlock your door remotely from anywhere with built-in WiFi.
- **Auto Unlock/Lock:** The lock can automatically unlock when you approach with your smartphone and lock when the door closes (requires door sensor).

- **Voice Control:** Integrate with Amazon Alexa or Google Assistant for voice commands (e.g., "Alexa, Unlock the front door.").
- **Apple Watch:** Compatible with Apple Watch for convenient unlocking.
- **Mechanical Key:** A traditional key is provided for backup access.

Image: A composite image demonstrating various methods to unlock the ULTRALOCK smart lock, including using the smartphone app, an Apple Watch, the integrated keypad, and a traditional mechanical key.

Works Friendly with your come and go

Hands full ? just simply bump the handle with your elbow, or pull the lever with your finger.

Image: A person carrying groceries and talking on the phone, using their elbow to push down the door handle, illustrating the convenience of the push/pull handle design for hands-free operation.

2. Remote Control and Monitoring

The built-in WiFi allows you to control and monitor your lock from anywhere.

- **Share eKeys/Codes:** Grant temporary or permanent access to guests or family members.
- **Manage Users:** Add or remove users and their access permissions.
- **Log Record:** View a history of who entered and when.
- **Smart Notifications:** Receive instant alerts for door activity, such as unlocking events or if the door is left open.

Built-in WiFi, Control from **Anywhere**

Real-time Monitoring & Alerts

Check door activity and status.
Door left open alerts.

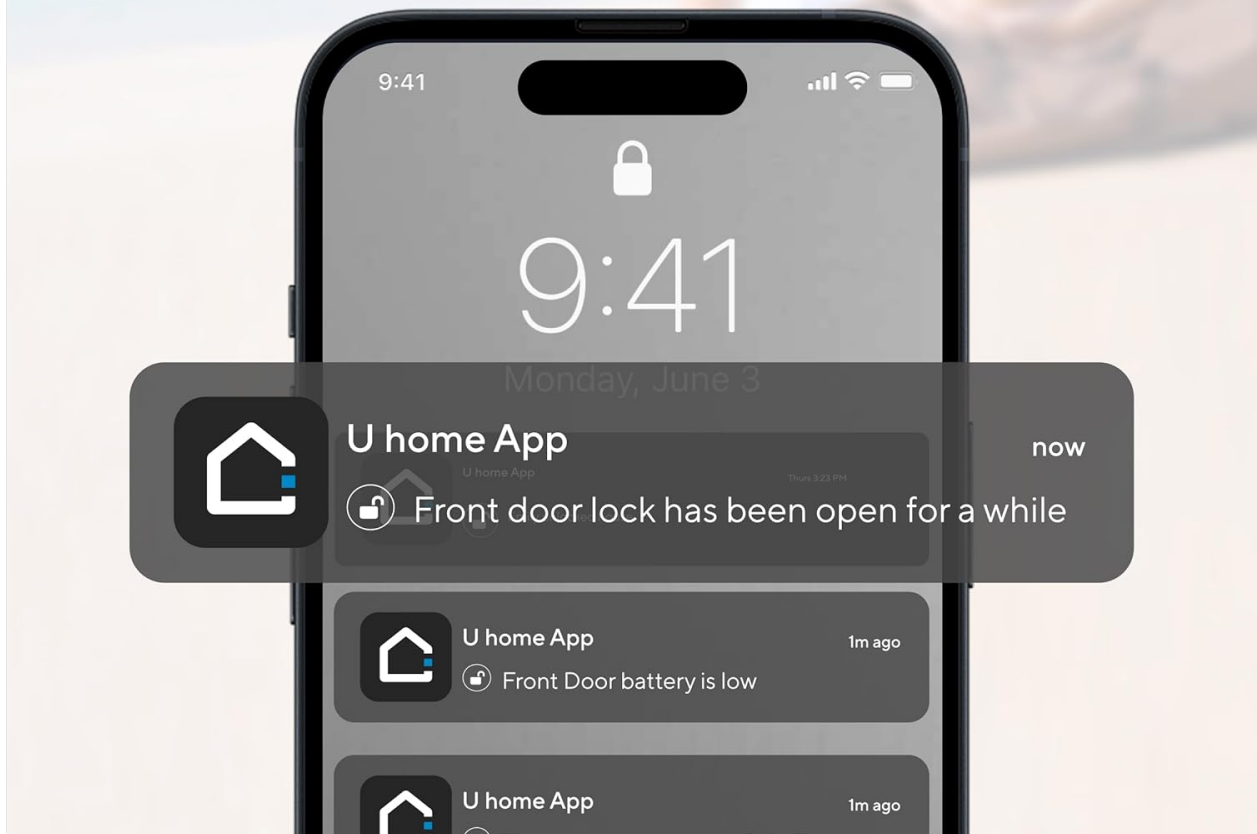

Image: A smartphone screen displaying real-time notifications from the U home App, including alerts for the front door lock being open for a while and low battery status, demonstrating continuous monitoring capabilities.

Automations & Voice Control

 Auto light on after unlocking door lock.

 “Alexa, Unlock the front door.”

*Matched automation devices required.

Image: An illustration showcasing the ULTRALQ smart lock's compatibility with various smart home platforms and voice assistants, including U home, Amazon Alexa, Hey Google, SmartThings, and IFTTT, enabling automations and voice control.

MAINTENANCE

Regular maintenance ensures the longevity and reliable operation of your smart lock.

1. Battery Replacement

The ULTRALQ U-Bolt WiFi Smart Lock is powered by AA batteries. When the battery level is low, you will receive notifications via the app and the lock will indicate a low battery status. Replace all batteries with new, high-quality alkaline AA batteries simultaneously. Do not mix old and new batteries or different battery types.

2. Cleaning

Clean the exterior of the lock with a soft, damp cloth. Avoid using abrasive cleaners, solvents, or chemical sprays, as these can damage the finish and electronic components.

3. Firmware Updates

Periodically check the ULTRALOCK app for available firmware updates. Updates often include performance improvements, bug fixes, and new features. Ensure your lock is connected to WiFi and has sufficient battery life before initiating an update.

TROUBLESHOOTING

If you encounter issues with your ULTRALOCK U-Bolt WiFi Smart Lock, refer to the following common problems and solutions.

- **Connectivity Issues:** If the lock frequently disconnects from WiFi, ensure your router is within range and the 2.4GHz network is stable. Restarting your router or the lock (by removing and reinserting batteries) may help.
- **Door Sensor Finickiness:** If the auto-lock/unlock feature or door status alerts are inconsistent, check that the door sensor is properly aligned and securely mounted. Ensure there are no obstructions interfering with its operation.
- **Slow Unlocking:** If the deadbolt is slow to retract, check for any physical obstructions in the door frame or strike plate. Ensure the deadbolt operates smoothly manually. Low battery power can also affect motor speed.
- **False App Alerts:** If you receive incorrect alerts (e.g., door open when closed), verify the door sensor's installation and calibration within the app.
- **Keypad Unresponsive:** Check battery levels. If batteries are new, try a factory reset (refer to the quick start guide for specific steps).

For persistent issues, consult the ULTRALOCK app's help section or contact customer support.

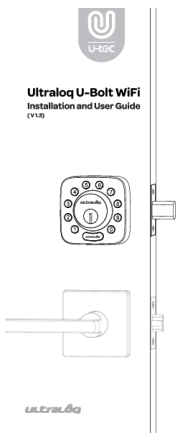

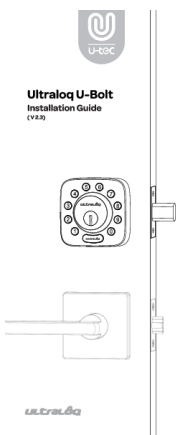

SPECIFICATIONS

Feature	Detail
Brand	ULTRALOCK
Model Name	ULTRALOCK U-Bolt WiFi Smart Door Lock with Handle Set
Item Model Number	U-Bolt
Lock Type	Keypad
Special Feature	Keyless
Material	Zinc
Color	Black
Connectivity Protocol	Wi-Fi (2.4GHz only)
Controller Type	Amazon Alexa, Google Assistant
Control Method	Voice
Recommended Uses	Residential front door security, keyless access, smart home integration
Included Components	ULTRALOCK U-Bolt WiFi Smart Door Lock, Door Handle Set

WARRANTY AND SUPPORT

ULTRALOG products typically come with a manufacturer's warranty. Please refer to the warranty card included with your product or visit the official ULTRALOG website for detailed warranty information and terms. For technical assistance, troubleshooting, or customer service, please contact ULTRALOG support directly through their website or the ULTRALOG app.

Ultraloq U-Bolt Pro Smart Deadbolt Warranty

Limited Warranty Coverage

Ultraloq U-Bolt Pro smart deadbolt comes with a lifetime mechanical and finish warranty along with a 18-month electronic to the original purchaser of the product against defects in material and workmanship from the date of delivery following the original retail purchase (the "Warranty Period").

Upon return of a defective product to U-tec Group, U-tec may repair or replace the product with a new or refurbished product at U-tec's sole discretion. If the Product or a component imported within it is no longer available, U-tec may, at U-tec's sole discretion, replace the Product with a similar product of similar function. Any Product that has either been repaired or replaced under this Limited Warranty will be covered by the terms of this Limited Warranty for the longer of (a) ninety (90) days from the date of delivery of the repaired Product or replacement Product, or (b) the remaining Warranty Period.

What does this limited warranty not cover?

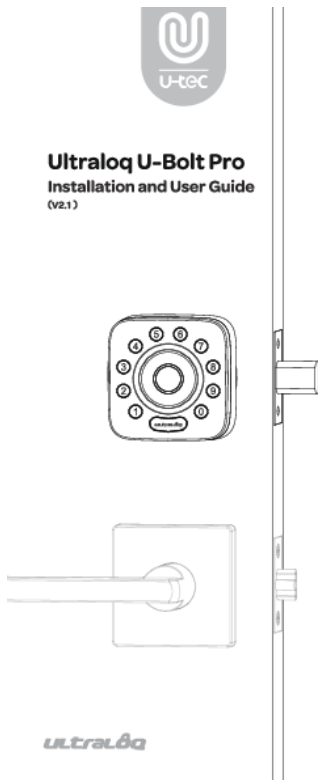

This Limited Warranty does not cover the following (collectively "Excluded Products"): Products marked as "sample" or "not for sale"; or sold "AS IS"; or Products that have been subject to: (a) modifications, alterations, tampering, or improper maintenance or repairs; (b) handling, storage, installation, testing, or use not in accordance with the User's Guide, Placement Guidelines, or other instructions provided by U-tec; (c) scratches, abrasions, deterioration due to the use of paints, solvents or other chemicals; (d) abuse or misuse of the Product; or (e) Acts of God, including but not limited to lightning, flood, tornado, earthquake, or hurricane. The Limited Warranty does not cover consumable parts, including batteries, unless damage is due to defects in materials or workmanship of the Product, or software (even if packaged or sold with the product). U-tec recommends that you use only authorized service providers for maintenance or repair. Unauthorized use of the Product or software can impair the Product's performance and may invalidate this Limited Warranty.
