SETUP INSTRUCTIONS

The BattleCave Arena is designed for easy assembly and customization. Follow these steps to set up your arena:

1. **Unpack Components:** Carefully remove all pieces from the packaging. Verify that all 71 pieces are present using the included parts list (refer to Figure 1).

2. **Assemble Wall Sections:** The arena walls are composed of multiple rock-textured panels. Connect these panels by aligning the tabs and slots, then gently pressing them together until they click into place. The walls are designed to be easily snapped together and taken apart for various configurations.
3. **Construct Cubes/Traps:** The playset includes cube-shaped structures that serve as traps or enclosures. Assemble these by connecting the frame pieces and then inserting the decorative panels. Some panels may feature hinged or spinning elements.
4. **Integrate Traps and Accessories:** Position the rolling orb trap and snapping claw trap within your arena layout. The battle orb can be placed in the designated launcher.
5. **Place Figures:** Introduce the Lava Bull and Shadow Hound figures into the arena.
