**Advil 60000000203473**

# Advil Targeted Relief Pain Relieving Cream User Manual

Model: 60000000203473

## PRODUCT OVERVIEW

---

Advil Targeted Relief Pain Relieving Cream is designed to provide fast-acting relief for various types of pain. Its innovative formula targets, penetrates, blocks, and relieves pain, offering deep penetrating relief directly where it hurts. This cream provides a cooling and warming sensation upon application and is formulated to not leave the skin feeling dry or greasy.

This product is suitable for minor arthritis pain, joint pain, lower back pain, and muscle pain. It is available without a prescription and is HSA and FSA eligible.

## USAGE INSTRUCTIONS

---

### How to Use

1. Clean and dry the affected area thoroughly before application.
2. Remove the cap from the tube.
3. Gently squeeze the tube to dispense a small amount of cream.
4. Massage the cream into the skin over the painful area until absorbed.
5. The cream starts to soothe on contact.
6. For adults and children 12 years and older, apply to the affected area not more than 3 to 4 times daily.
7. Children under 12 years of age: consult a doctor.
8. Wash hands thoroughly after applying the cream.

### Removing the Safety Seal

1. Pull off the clear cover from the applicator cap.
2. Twist off the applicator cap from the tube.
3. Locate the star-shaped indent on the side of the applicator cap.
4. Match the indent to the top of the white nozzle and twist to remove the safety seal.

5. Twist the applicator cap back onto the tube.
6. Pinch and pull the yellow sides upward until you hear a click to release the cream.
7. Squeeze the tube to release cream and apply to skin.
8. Clean the applicator with a towel or absorbent paper after use.
