> VRTYVEYBB HEPA Filter Instruction Manual for Lubluelu 202 and VaLife VL732 Cordless Vacuum Cleaners

## VRTYVEYBB 1279390637

# VRTYVEYBB HEPA Filter Instruction Manual

For Lubluelu 202 and VaLife VL732 Cordless Vacuum Cleaners

Model: 1279390637

## 1. INTRODUCTION

This manual provides essential instructions for the proper installation, operation, and maintenance of your VRTYVEYBB HEPA filter. This filter is designed for use with Lubluelu 202 and VaLife VL732 cordless vacuum cleaners, ensuring efficient air filtration and optimal vacuum performance.

Image 1.1: Two VRTYVEYBB HEPA filters, ready for installation.

The HEPA filter captures fine dust particles, allergens, and other airborne irritants, contributing to a cleaner

home environment. Regular maintenance of the filter is crucial for maintaining its effectiveness and extending the lifespan of your vacuum cleaner.

## 2. SETUP AND INSTALLATION

Follow these steps to correctly install the HEPA filter into your compatible cordless vacuum cleaner.

1. **Power Off:** Ensure your vacuum cleaner is turned off and unplugged from any charging source before beginning installation.
2. **Locate Filter Compartment:** Refer to your vacuum cleaner's original manual to locate the dust cup and filter compartment. This is typically found at the top or front of the main vacuum body.
3. **Remove Old Filter:** Open the dust cup and carefully remove the existing filter. Dispose of the old filter responsibly.
4. **Insert New Filter:** Place the new VRTYVEYBB HEPA filter into the designated slot within the dust cup. Ensure it is seated firmly and correctly. The filter should fit snugly without excessive force.
5. **Close Dust Cup:** Reattach the dust cup to the vacuum cleaner, ensuring it clicks securely into place.

Image 2.1: The HEPA filters are designed for easy integration into your vacuum cleaner's dust cup.

## 3. OPERATING GUIDELINES

Once the HEPA filter is installed, your vacuum cleaner is ready for use. For optimal performance:

- Ensure the dust cup is properly closed and sealed after filter installation.
- Operate the vacuum cleaner according to its manufacturer's instructions.
- Monitor suction power; a noticeable decrease may indicate a clogged filter requiring cleaning or replacement.

## 4. MAINTENANCE

---

The VRTYVEYBB HEPA filter is reusable and can be cleaned to maintain its efficiency. Regular cleaning is recommended every 2-4 weeks, depending on usage, and replacement every 3-6 months for best performance.

### Cleaning Instructions:

1. **Remove Filter:** Turn off and unplug the vacuum. Remove the dust cup and carefully extract the HEPA filter.
2. **Tap Out Debris:** Gently tap the filter against a trash can to dislodge loose dust and debris.
3. **Rinse (Optional):** If heavily soiled, rinse the filter under cool, running water. Do not use hot water or detergents.
4. **Dry Completely:** Allow the filter to air dry completely for at least 24 hours before reinstallation. Do not use a dryer or direct heat, as this can damage the filter material. Ensure it is absolutely dry to prevent mold growth and damage to the vacuum.
5. **Reinstall:** Once dry, reinstall the filter into the dust cup and reattach it to the vacuum cleaner.

Image 4.1: Regular inspection of the filter for debris and wear is recommended.

## 5. TROUBLESHOOTING

If you experience issues with your vacuum cleaner after installing the new filter, consider the following:

- **Reduced Suction:**
  - Check if the filter is clogged. Clean it as per maintenance instructions.
  - Ensure the filter is fully dry before reinstallation.
  - Verify the dust cup is securely attached and sealed.
- **Filter Not Fitting:**
  - Confirm that your vacuum model is either Lubluelu 202 or VacLife VL732.
  - Ensure the filter is oriented correctly during insertion.
- **Unusual Odor:**
  - The filter may not have been completely dry before reinstallation, leading to mold or mildew. Clean and dry thoroughly, or replace if odor persists.

## 6. SPECIFICATIONS

Feature	Detail
Brand	VRTYVEYBB
Model Number	1279390637
Compatible Devices	Lubluelu 202, VacLife VL732 Cordless Vacuum Cleaners
Material	HEPA
Reusability	Reusable (Washable)
Number of Pieces	2
Product Dimensions	3.94 x 3.54 x 1.97 inches (approximate)

Image 6.1: Detailed dimensions of the HEPA filter for compatibility verification.

## 7. SAFETY INFORMATION

- Always ensure the vacuum cleaner is powered off and unplugged before handling the filter.
- Do not attempt to modify the filter.
- Keep filters out of reach of children.
- Only use the filter with the specified compatible vacuum cleaner models.
- Ensure the filter is completely dry before reinstallation to prevent damage to the vacuum and potential health hazards.

## 8. WARRANTY AND SUPPORT

---

For information regarding product warranty or technical support, please refer to the documentation provided with your original vacuum cleaner or contact the manufacturer of the VRTYVEYBB HEPA filter directly through their official channels. Keep your purchase receipt for any warranty claims.
