MAINTENANCE AND CARE

Fabric Upholstery Care

- For general cleaning, vacuum the fabric regularly using an appropriate nozzle to remove dust and debris.
- For spills or stains, clean with a dry shampoo and a damp sponge, or use a mild upholstery cleaner. Test any cleaning product on an inconspicuous area first.
- Do not use harsh chemicals or abrasive cleaners.

Solid Oak Wood Legs Care

- Clean wood surfaces with a mild cleaner and a soft cloth, always wiping in the direction of the wood grain.
- Immediately dry the wood after cleaning to prevent water accumulation, which can damage the finish.
- For items with an oil finish, re-oiling may be necessary periodically to maintain the wood's condition and appearance.
