WHAT'S IN THE BOX

Please check the contents of your package. If any items are missing or damaged, contact customer support.

- SGIN Laptop
- Power Adapter

SETUP GUIDE

1. Initial Charging

Before first use, connect the power adapter to the laptop and a power outlet. Allow the laptop to charge for at least 3 hours. The charging indicator light will typically show the charging status.

Image: The SGIN Laptop illustrating its durable 53200mWh battery, capable of up to 8 hours of work.

2. Powering On

Press and hold the power button located on the keyboard until the screen illuminates.

3. Operating System Setup

Follow the on-screen instructions to complete the initial setup of the Windows operating system. This includes selecting your language, region, connecting to Wi-Fi, and creating a user account.

For Wi-Fi connection, navigate to the network settings and select your desired network. Enter the password if prompted. The laptop supports Dual Band WiFi (802.11n) and Bluetooth 4.2.

OPERATING YOUR SGIN LAPTOP

Keyboard and Touchpad

The SGIN Laptop features a full-size keyboard with a numeric keypad and a large, sensitive touchpad for precise control.

Ports and Connections

Your laptop is equipped with various ports for connectivity:

- USB Ports: For connecting external devices like mice, keyboards, or USB drives.
- Mini HDMI: For connecting to external displays or projectors.
- Audio Jack: For headphones or external speakers.
- TF Card Slot: Supports up to 512GB TF card expansion for additional storage.

Display

The 15.6-inch IPS FHD display (1920 x 1080 pixels) provides clear and vibrant visuals.

MAINTENANCE AND CARE

Cleaning Your Laptop

Use a soft, lint-free cloth to clean the screen and exterior. For stubborn marks, slightly dampen the cloth with water or a screen cleaner. Avoid harsh chemicals.

Cooling System

The SGIN Laptop features an efficient cooling system to dissipate heat and ensure smooth operation. Ensure the

vents are not obstructed.

Battery Care

To prolong battery life, avoid extreme temperatures and fully discharging the battery frequently. It is recommended to keep the battery charged between 20% and 80% for optimal longevity.

TROUBLESHOOTING

Laptop does not power on.

Ensure the power adapter is securely connected and the laptop has been charged. Try pressing and holding the power button for 10-15 seconds.

No Wi-Fi connection.

Check if Wi-Fi is enabled in Windows settings. Restart your router and the laptop. Ensure you are entering the correct Wi-Fi password.

Screen is blank or flickering.

Restart the laptop. If connected to an external monitor, disconnect it to see if the issue persists on the laptop screen. Adjust display settings in Windows.

Slow performance.

Close unnecessary applications. Check for background processes using Task Manager. Ensure sufficient free space on the SSD. Consider running a disk cleanup.
