Brilliant G40432/06

Brilliant Alvero Solar Outdoor Floor Lamp

Model: G40432/06

Brand: Brilliant

INTRODUCTION

Thank you for choosing the Brilliant Alvero Solar Outdoor Floor Lamp. This manual provides essential information for the safe and efficient use of your new solar lamp. Please read it thoroughly before installation and retain it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions carefully before installation and use.
- Ensure the lamp is installed in a location that receives direct sunlight for optimal charging.
- Do not attempt to disassemble or modify the lamp. This may void the warranty and pose a safety risk.
- Keep away from open flames or extreme heat sources.
- This product is designed for outdoor use (IP44 rated). Do not submerge in water.
- Clean only with a soft, damp cloth. Do not use abrasive cleaners.

PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Brilliant Alvero Solar Outdoor Floor Lamp
- Mounting hardware (screws, anchors)
- Instruction Manual

SETUP AND INSTALLATION

1. **Choose a Location:** Select an outdoor location where the solar panel on top of the lamp can receive at least 6-8 hours of direct sunlight daily. Avoid shaded areas from trees, buildings, or other obstructions.
2. **Mounting:**
 - Position the lamp base on the desired surface.
 - Mark the drilling points through the holes in the base.
 - Drill pilot holes if necessary and insert wall anchors (if mounting on masonry).
 - Secure the lamp base using the provided screws.
3. **Initial Charge:** Allow the lamp to charge for at least 24-48 hours in direct sunlight before its first use to ensure the internal battery is fully charged.

OPERATING INSTRUCTIONS

The Brilliant Alvero Solar Outdoor Floor Lamp is designed for automatic operation.

- **Automatic Dusk-to-Dawn:** The lamp features a light sensor that automatically turns the light on at dusk and off at dawn, provided there is sufficient charge.
- **Motion Sensor Functionality:** The integrated motion detector activates the light to full brightness when movement is detected within its range. After a period of no motion, the light will dim or turn off to conserve energy.
- **Solar Charging:** During the day, the solar panel converts sunlight into electricity, charging the internal battery. Ensure the solar panel is clean and unobstructed for efficient charging.

MAINTENANCE

- **Cleaning:** Regularly wipe the solar panel and the lamp's surface with a soft, damp cloth to remove dust, dirt, and debris. This ensures optimal charging and light output. Do not use harsh chemicals or abrasive materials.
- **Solar Panel Care:** Ensure the solar panel is free from snow, leaves, or other obstructions, especially during winter months, to maximize charging efficiency.
- **Battery:** The lamp contains a non-replaceable internal rechargeable battery. Do not attempt to open the unit to replace the battery.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on at night.	Insufficient solar charge.	Ensure the solar panel is in direct sunlight for 6-8 hours daily. Clean the solar panel.
Light duration is short.	Partial charge or cold weather.	Allow more charging time. Solar performance can be reduced in colder temperatures.
Motion sensor not detecting.	Sensor obstructed or out of range.	Clear any obstructions from the sensor. Ensure movement is within the sensor's detection range.

SPECIFICATIONS

Model Number:	G40432/06
Brand:	Brilliant
Power:	4 Watts
Light Source Type:	LED
Voltage:	12 Volts (DC)
Material:	Metal, Plastic
Ingress Protection (IP) Rating:	IP44
Item Weight:	1 Gram
