Garvee Portable Air Conditioner006

Garvee 15,000 BTU Portable Air Conditioner User Manual

Model: Portable Air Conditioner006

PRODUCT OVERVIEW

The Garvee 15,000 BTU Portable Air Conditioner is a versatile 3-in-1 unit designed to provide cooling, dehumidification, and fan functions for spaces up to 800 square feet. Its portable design with casters allows for easy movement between rooms, and the included installation kit simplifies window setup. The unit features a low noise level for undisturbed operation and can be controlled via a digital display or remote control.

SAFETY INFORMATION

Please read all instructions carefully before using the appliance. Keep this manual for future reference.

- Ensure the unit is placed on a flat, stable surface.
- Do not block air inlets or outlets.
- Only use the appliance with a properly grounded electrical outlet.
- Do not operate the unit with a damaged power cord or plug.
- Keep children and pets away from the unit during operation.
- Unplug the unit before cleaning or performing any maintenance.

SETUP AND INSTALLATION

The Garvee portable air conditioner is designed for easy setup. Follow these steps to install the unit in a room with a hanging or sliding window.

Included Components:

- Portable Air Conditioner Unit
- Exhaust Hose
- Window Adapter Kit (includes window slider kit and hose connector)
- Remote Control

Installation Steps:

1. **Position the Unit:** Place the portable air conditioner on a flat surface near a window. The unit has four casters for easy movement.

2. **Prepare the Window Kit:** Assemble the window slider kit to fit your window opening. The kit is adjustable for windows between 26.5 inches (Min) and 48.5 inches (Max).
3. **Attach Exhaust Hose:** Connect one end of the exhaust hose to the back of the air conditioner unit and the other end to the window adapter. Ensure connections are secure to prevent air leakage.
4. **Install Window Adapter:** Insert the window adapter into the prepared window opening and close the window securely against it.
5. **Plug In:** Plug the power cord into a standard 110-volt grounded electrical outlet.

Easy and Quick to Install

Include Window Kit

OPERATING INSTRUCTIONS

The Garvee portable air conditioner offers multiple modes and easy controls for optimal comfort.

Control Panel and Remote Control:

The unit can be operated using the digital LED control panel on top of the unit or the compact remote control. The remote control allows for convenient operation from up to 20 feet away.

LED Control Panel

20 Ft. Remote Control

Precisely Control Your Comfort From
Up To 20 Feet Away From The Comfort Of Your Couch

Image: Illustrates the 20-foot remote control range, showing a couple comfortably operating the unit from their couch.

Operating Modes:

- **Cooling Mode (AC):** Provides powerful cooling for rooms up to 800 sq. ft. Set your desired temperature for optimal comfort.
- **Fan Mode:** Circulates air without cooling, ideal for general air circulation. Adjustable fan speeds (High, Mid, Low).
- **Dehumidifier Mode (Dry):** Removes excess moisture from the air, helping to reduce humidity levels in the room.

Image: Explains the three modes: Cooling Mode (Air Conditioning), Fan Mode (Dry Mode), and Dehumidifier (removes moisture from the air), with corresponding icons.

Additional Features:

- **Sleep Mode:** Operates at a lower noise level (≤ 50 decibels) for quiet nighttime use.
- **24-Hour Timer:** Allows you to program the unit to turn on or off automatically.

- **Automatic Water Evaporation:** Reduces the need for manual drainage.
- **Auto Swing:** The air outlet louvers automatically swing to distribute air evenly throughout the room.
- **Follow Me Function:** (Refer to control panel image) This feature likely uses a sensor in the remote to adjust temperature based on the remote's location.

MAINTENANCE

Regular maintenance ensures the longevity and efficient operation of your Garvee portable air conditioner.

Filter Cleaning:

The unit features a slide-out washable filter. It is recommended to clean the air filter every two weeks or more frequently

depending on usage and air quality.

1. Unplug the air conditioner from the power outlet.
2. Locate and slide out the air filter.
3. Wash the filter under running water (warm, soapy water if heavily soiled).
4. Allow the filter to air dry completely before reinserting it into the unit.

General Cleaning:

- Wipe the exterior of the unit with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Ensure the unit is completely dry before plugging it back in.

TROUBLESHOOTING

If you encounter issues with your Garvee portable air conditioner, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|----------------------------------|---|--|
| Unit does not turn on. | No power, power cord unplugged, circuit breaker tripped. | Check power connection, ensure outlet is functional, reset circuit breaker. |
| Unit is not cooling effectively. | Air filter dirty, exhaust hose not properly installed, room size too large, windows/doors open. | Clean air filter, ensure exhaust hose is sealed, close windows/doors, verify room size is within 800 sq. ft. capacity. |
| Unit is noisy. | Unit not on a level surface, fan obstruction. | Ensure unit is on a flat surface, check for obstructions in fan area. Note: Normal operating noise is ≤50 decibels. |
| Water leakage. | Drain plug not secured, unit tilted. | Ensure drain plug is tightly closed. Position unit on a level surface. |

If the problem persists after attempting these solutions, please contact Garvee customer support for assistance.
