Lamshaw Magnetic USB Charging Cable for IOWODO Smart Watch

User Manual: Magnetic USB Charging Cable for IOWODO Smart Watches

Brand: Lamshaw | Model: Magnetic USB Charging Cable

INTRODUCTION

Thank you for choosing the Lamshaw Magnetic USB Charging Cable. This product is specifically designed to provide a reliable and convenient charging solution for your IOWODO R30 Pro and R50 1.85" HD Smart Watches. This manual will guide you through the proper use and care of your new charging cable.

PRODUCT OVERVIEW

Package Contents

- Magnetic USB Charging Cable (2 units, Black)
- *Note: Smartwatch not included.*

Key Features

- **Compatibility:** Specifically designed for IOWODO R30 Pro 1.85" HD Smart Watch and R50 models.
- **Magnetic Connection:** Ensures a secure and stable connection for efficient charging.
- **Portability:** Easy to carry and store, ideal for home, office, car, or travel use.
- **Durable Construction:** Features ABS+PC materials, pure copper probes for rapid and stable conduction, and a flexible PVC cable.
- **Safety Protections:** Built-in over-current, over-voltage, over-charging, and high-temperature protection.

Pure Copper Probe

Rapid and stable conduction

ABS+PC

Durable

Flexible PVC Cable

Easy to roll ,convenient for storage

3.3 feet / 1 M

Combination of easy-to-use with USB connector

Image: Close-up of the USB connector and magnetic pogo pins, illustrating the durable and flexible cable design and the gold-plated pogo pins for reliable connection.

SETUP

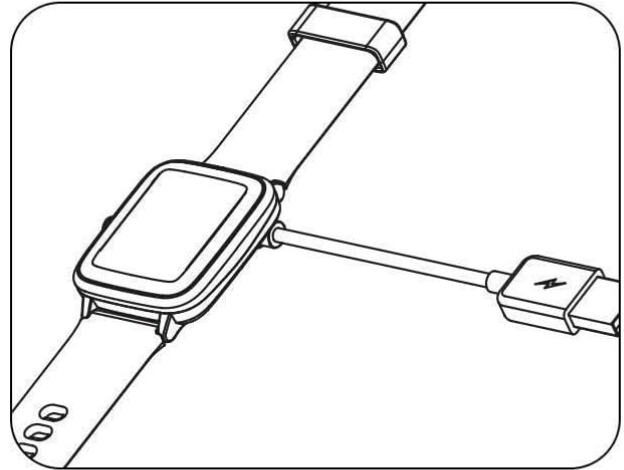

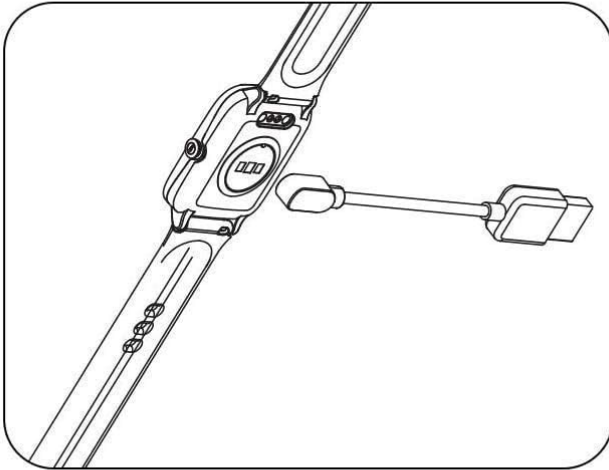

Connecting the Charger

1. Insert the USB-A end of the charging cable into a compatible USB power source (e.g., computer USB port, laptop, wall charger, or power bank).
2. Align the magnetic charging pins of the cable with the charging contacts on the back of your IOWODO Smart Watch. The magnets will automatically attract the cable to the correct position.
3. Ensure the connection is secure and the smartwatch charging indicator appears on the screen.

Magnetic Charging Interface

If the charging magnets repel, the device will not charge.

You can charge correctly if the magnets attract whilst charging,

While charging

Image: Visual guide demonstrating the correct way to connect the magnetic charger to the smartwatch, emphasizing that the magnets should attract for proper charging.

OPERATING INSTRUCTIONS

Charging Your Smartwatch

Once connected, your smartwatch will begin charging. The charging status is typically displayed on the smartwatch screen. Ensure the cable is not bent or strained during charging.

Power bank

Wall charger

Computer

Laptop

Image: Various compatible charging methods for the smartwatch, including power bank, wall charger, computer, and laptop.

Charging Time

For optimal charging speed, use a 1A output current power source. A full charge typically takes approximately 2.5 hours.

ORIGINAL HIGH-SPEED CHARGING

Image: Illustration of the charging process, indicating that a full charge takes approximately 2.5 hours with a 1A output current.

MAINTENANCE AND CARE

Cleaning

To clean the charging cable, gently wipe it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials that could damage the cable or its connectors. Ensure the magnetic contacts are free of dust and debris for optimal connection.

Storage

Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. The flexible PVC cable is designed for easy rolling and convenient storage, helping to prevent tangles and damage.

Image: The charging cable's durability is demonstrated by its ability to withstand over 20,000 bending tests, ensuring long-term reliability.

TROUBLESHOOTING

Common Issues and Solutions

- **Smartwatch not charging:**
 - Ensure the magnetic contacts on both the cable and the smartwatch are clean and free of debris.
 - Verify that the magnetic connection is secure and the magnets are attracting, not repelling. Refer to the 'Magnetic Charging Interface' image in the Setup section.
 - Try connecting the USB end to a different power source (e.g., another USB port, a different wall adapter).
- **Slow charging:**
 - Ensure your power source provides at least 1A output current. Lower current sources may result in slower charging.
 - Avoid charging through unpowered USB hubs.
- **Cable or smartwatch overheating during charging:**
 - The cable has built-in high-temperature protection. If overheating occurs, disconnect the charger immediately.
 - Ensure the smartwatch is placed in a well-ventilated area during charging.
 - If the issue persists, discontinue use and contact customer support.
