

Merax Upholstered Daybed with 2 Storage Drawers, Full Size

Merax Upholstered Daybed with Storage Drawers - Full Size

Model: Upholstered Daybed with 2 Storage Drawers, Full Size

Brand: Merax

1. IMPORTANT SAFETY INSTRUCTIONS

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- **Fire Hazard:** Keep the daybed away from open flames or high heat sources to prevent fire.
- **Entrapment Risk:** Supervise children and pets to avoid entrapment risks around the daybed and its components, especially during assembly and when drawers are open.
- **Weight Capacity:** Do not exceed the maximum weight capacity of **400 LBS** for the bed.
- **Assembly:** Assembly requires two people. Do not use power tools for assembly as this may damage the components.
- **Mattress Thickness:** Recommended mattress thickness for the bed is 6-8 inches. For the trundle (if applicable, though this model has drawers), 4-6 inches. Using a thicker mattress may obscure the upholstered backrest and side panels.
- **Regular Checks:** Periodically check all connections and fasteners to ensure they remain tight and secure.

2. PRODUCT OVERVIEW

4. SETUP AND ASSEMBLY INSTRUCTIONS

Before you begin, ensure all parts and hardware are present. Lay out all components on a soft, clean surface to prevent scratches. Two people are recommended for assembly. Do not use power tools.

Components Checklist:

- Headboard/Backrest panels
- Side panels
- Front panel with drawer guides
- Bed slats and support legs
- 2 Storage Drawers (components for assembly)
- Hardware pack (screws, bolts, Allen wrench, etc.)

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and hardware. Refer to the included parts list to ensure everything is accounted for.
2. **Assemble the Side and Back Panels:** Attach the side panels to the backrest panels using the provided hardware. Ensure all connections are secure.
3. **Attach the Front Panel:** Connect the front panel, which houses the drawer mechanism, to the assembled side panels.

4. **Install Center Support Beam and Legs:** Place the center support beam along the length of the frame and attach its support legs.
5. **Place Bed Slats:** Lay the wooden slats across the bed frame, securing them to the side rails and center beam as instructed. Ensure even spacing and secure attachment for proper mattress support.
6. **Assemble Storage Drawers:** Follow the separate instructions for assembling the two storage drawers. Attach the wheels to the bottom of each drawer.
7. **Insert Drawers:** Slide the assembled drawers into the designated spaces under the daybed frame.
8. **Final Check:** Verify that all bolts and screws are tightened. The frame should be stable and level.

5. OPERATING INSTRUCTIONS

Using the Daybed:

- **Mattress Placement:** Place a full-size mattress directly onto the wooden slats. A mattress thickness of 6-8 inches is recommended to ensure the upholstered backrest and side panels are visible and functional.
- **Weight Distribution:** Distribute weight evenly across the daybed to maintain its structural integrity.

Using the Storage Drawers:

- **Accessing Drawers:** The two storage drawers are designed to roll freely on wheels. Gently pull the drawer fronts to open and push to close.
- **Storage Capacity:** Use the drawers for storing items such as clothes, linens, toys, or other household goods. Avoid overloading the drawers to ensure smooth operation and prevent damage.
- **Drawer Movement:** The drawers are not on fixed tracks. Guide them carefully when opening and closing to keep them aligned.

6. MAINTENANCE AND CARE

- **Cleaning:** Wipe the upholstered linen fabric with a dry cloth to remove dust and light dirt. For spills, blot immediately with a clean, dry cloth. Avoid harsh chemical cleaners.
- **Frame Care:** For wooden parts, wipe with a dry cloth. Avoid excessive moisture.
- **Hardware Check:** Periodically inspect all screws, bolts, and connections to ensure they are tight. Re-tighten if necessary to maintain stability.
- **Drawer Maintenance:** Keep the area under the daybed clear to allow the storage drawers to roll smoothly. Clean any debris from the wheels as needed.

7. TROUBLESHOOTING

Common Issues and Solutions:

- **Issue:** Daybed feels unstable or wobbly.
Solution: Check all assembly hardware. Ensure all bolts and screws are fully tightened. Verify that the daybed is on a level surface.
- **Issue:** Drawers do not slide smoothly or get stuck.
Solution: Ensure the drawers are not overloaded. Check for any obstructions (e.g., carpet edges, debris) under the drawers or around the wheels. Verify that the drawer components were assembled correctly and the wheels are properly attached.
- **Issue:** Upholstered backrest is not visible or is too low with the mattress.

Solution: This daybed is designed for a mattress thickness of 6-8 inches. If using a thicker mattress (e.g., 12 inches or more), the mattress may cover a significant portion of the backrest. Consider using a thinner mattress for optimal aesthetic and functional balance.

- **Issue:** Missing parts or damaged components.

Solution: Do not attempt to assemble with missing or damaged parts. Contact Merax customer support immediately for assistance and replacement parts.
