Haotian FSR100

Haotian FSR100-GR 4-Drawer Shoe Cabinet Instruction Manual

Model: FSR100 | Brand: Haotian

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Haotian FSR100-GR 4-Drawer Shoe Cabinet. Please read this manual thoroughly before assembly and use to ensure safe and efficient operation.

Image: The Haotian FSR100-GR 4-Drawer Shoe Cabinet in green, featuring four closed flip-drawers and a flat top surface, suitable for entryway organization.

SAFETY INFORMATION

- Always assemble the cabinet according to the provided instructions to ensure stability.
- Do not overload the cabinet as it may topple over. The maximum weight limit is 53 pounds.
- Keep the area around the cabinet clear to prevent accidents.
- Utilize the included anti-tipping devices to secure the cabinet to a wall, especially in households with children or pets, to prevent accidental tipping.

PACKAGE CONTENTS

Before beginning assembly, verify that all components listed in the detailed instructions are present and undamaged. The package typically includes:

- All necessary wooden panels (Engineered Wood)
- 4 Flip-Drawers with associated mechanisms

- Hardware kit (screws, dowels, anti-tipping devices)
- Assembly instructions manual

SETUP AND ASSEMBLY

The Haotian FSR100-GR shoe cabinet requires self-assembly. Detailed, numbered instructions are included with the product to guide you through the process. Please follow these steps carefully:

1. **Unpack and Identify:** Carefully unpack all components and lay them out. Match each part to the numbered diagrams in the instruction manual.
2. **Assemble the Frame:** Begin by assembling the main frame of the cabinet using the designated screws and dowels. Ensure all connections are secure.
3. **Install Flip-Drawer Mechanisms:** Attach the flip-drawer mechanisms to the cabinet frame as shown in the diagrams. Pay close attention to the orientation of these parts.
4. **Attach Drawers:** Secure the 4 flip-drawers to their respective mechanisms. Test each drawer to ensure smooth operation.
5. **Install Legs:** Attach the base legs to the bottom of the cabinet.
6. **Secure to Wall (Recommended):** For enhanced stability and safety, especially in homes with children or pets, use the provided anti-tipping devices to secure the cabinet to a sturdy wall.

OPERATING INSTRUCTIONS

Your Haotian FSR100-GR shoe cabinet is designed for convenient shoe storage and entryway organization.

- Using the Flip-Drawers:** Each of the four flip-drawers opens downwards to reveal storage compartments for shoes. Gently pull the top edge of the drawer outwards to open. Place shoes inside, typically with the toe pointing towards the back of the cabinet, to maximize space. Close the drawer by pushing it upwards until it clicks securely into place.
- Top Surface:** The spacious top surface can be used for placing small items such as keys, wallets, decorative items, or small plants. Ensure items placed on top do not exceed the cabinet's weight limit.

MAINTENANCE

To ensure the longevity and appearance of your shoe cabinet, follow these maintenance guidelines:

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Dusting:** Regularly dust the cabinet with a dry, soft cloth to prevent dust buildup.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Avoid Moisture:** Protect the cabinet from excessive moisture and direct sunlight to prevent warping or fading.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Drawers do not close smoothly.	Obstruction, misaligned mechanism, loose screws.	Check for items blocking the drawer. Ensure the mechanism is correctly installed and screws are tight.
Cabinet feels unstable.	Uneven floor, loose assembly, anti-tipping device not installed.	Adjust cabinet placement on a level surface. Re-tighten all assembly screws. Install or re-check the anti-tipping device.
Shoes do not fit in drawers.	Shoes are too large or incorrectly placed.	Ensure shoes are placed with toes pointing inwards. Larger shoes (e.g., boots) may not fit. Consider storing them elsewhere or using the top surface.

SPECIFICATIONS

Brand:	Haotian
Model Name:	FSR100
Item Model Number:	FSR100-GR
Color:	Green
Product Dimensions:	7.5"D x 39.4"W x 35.8"H
Item Weight:	50 Pounds
Weight Limit:	53 Pounds
Material:	Engineered Wood
Number of Shelves:	4 (referring to flip-drawers)
Mounting Type:	Floor Mount
Installation Type:	Freestanding (with wall-mount option for safety)
Assembly Required:	Yes
