

Wipro GD203

Wipro Elato GD203 Heavyweight Dry Iron User Manual

Model: GD203 | Brand: Wipro

1. INTRODUCTION

Thank you for choosing the Wipro Elato GD203 Heavyweight Dry Iron. This appliance is designed for efficient and effective ironing, featuring a 1200 Watt heating element for quick heat-up and an anti-bacterial German Weilburger dual-coated soleplate for smooth, wrinkle-free results. This manual provides essential information for the safe and proper use, maintenance, and care of your iron. Please read it thoroughly before first use and retain it for future reference.

2. SAFETY INSTRUCTIONS

To prevent injury or damage to the appliance, always observe the following safety precautions:

- Always ensure the iron is unplugged from the power outlet before cleaning or when not in use.
- Do not immerse the iron, its cord, or plug in water or any other liquid.
- Keep the iron out of reach of children under 8 years of age. Children should be supervised to ensure they do not play with the appliance.
- Do not leave a hot iron unattended. Always place it on a stable, heat-resistant surface.
- Do not iron over hard elements on clothing, such as zippers, buttons, or rivets, as this can damage the soleplate.
- Do not touch the plug with a wet hand.
- Regularly inspect the power cord for any damage. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- This appliance is intended for household use only. Do not use it outdoors.
- Ensure the voltage indicated on the rating label corresponds to your mains voltage.

6 Fabric Settings

Ace every outfit you wear with the adjustable 6 fabric setting of the iron.

360° Swivel Cord

Glides easily in every corner and gives you a crisp finish.

3. PRODUCT OVERVIEW

The Wipro Elato GD203 Dry Iron is designed for ease of use and effective performance. Key components include:

- **Soleplate:** Anti-bacterial German Weilburger dual-coated for smooth gliding.
- **Temperature Control Dial:** Allows selection of appropriate heat settings for various fabric types.
- **Indicator Lamp:** Illuminates when the iron is heating and turns off when the desired temperature is reached.
- **Handle:** Ergonomically designed for comfortable grip.
- **Power Cord:** Equipped with a 360-degree swivel for flexible movement.

Antibacterial Aluminum Soleplate

Remove germs and bacteria from your garments with the German technology-based antibacterial aluminum soleplate of the iron.

6 Fabric Settings

Adjustable 6 fabric settings for all your garments to get that perfect look. Now all your clothing moods are looked after.

Figure 3.2: Features: Antibacterial Soleplate and Fabric Settings.

Indicator Lamp

The status indicator will let you know when the soleplate has reached the desired temperature level.

360° Swivel Cord

Get the best iron handling experience with the cord that moves in 360° directions. Glides easily in every corner and gives you a crisp finish.

4. SETUP

Before using your Wipro Elato GD203 Dry Iron for the first time, follow these steps:

1. **Unpack:** Carefully remove the iron and all packaging materials. Retain the user manual and warranty card.
2. **Inspect:** Check the iron for any visible damage. Do not use if damaged.
3. **Clean Soleplate:** Wipe the soleplate with a slightly damp cloth to remove any manufacturing residues. Dry thoroughly.
4. **First Use Odor:** During the first few uses, a slight odor may be emitted. This is normal and will disappear after a short time. Ensure adequate ventilation.
5. **Placement:** Place the iron on a stable, heat-resistant ironing board or surface.

5. OPERATING INSTRUCTIONS

Follow these guidelines for effective ironing:

5.1. Preparing Garments

- Sort clothes according to fabric type (e.g., cotton, linen, silk, synthetics).
- Always check the garment's care label for ironing instructions.

5.2. Temperature Settings

The Wipro Elato GD203 features a five-mode temperature dial. Select the appropriate setting based on the fabric type:

Temperature Setting	Fabric Type	Description
Min / Low	Synthetics (Nylon, Acrylic, Polyester)	Use for delicate synthetic fabrics. Iron quickly to avoid scorching.
Medium	Silk, Wool	Iron silk on the reverse side. For wool, use a pressing cloth.
High	Cotton	Suitable for cotton garments.
Max	Linen	For heavy linen fabrics.

5.3. Ironing Procedure

1. Plug the iron into a suitable power outlet.
2. Set the temperature control dial to the desired fabric setting. The indicator lamp will light up.
3. Wait for the indicator lamp to turn off, indicating that the iron has reached the selected temperature.
4. Begin ironing, moving the iron smoothly over the fabric. The heavy soleplate assists in removing wrinkles effectively.
5. For best results, iron garments inside out, especially dark fabrics, to prevent shine.
6. When finished, unplug the iron and allow it to cool down completely before storing.

Wipro Elato Automatic Electric Dry Iron

DO'S	DONT'S
 <p>Do clean the soleplate regularly</p>	 <p>Don't leave the hot iron unattended</p>
 <p>Do store the iron in a safe and dry place.</p>	 <p>Don't iron over hard elements on clothing.</p>
 <p>keep it out of reach of children under 8 years</p>	 <p>Don't touch the plug with a wet hand.</p>

Figure 5.1: Proper ironing technique.

6. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and performance of your iron.

6.1. Cleaning the Soleplate

- Always ensure the iron is unplugged and completely cool before cleaning.
- Wipe the soleplate with a soft, damp cloth. For stubborn stains, a mild, non-abrasive cleaner specifically designed for iron soleplates can be used.
- Never use abrasive scouring pads, harsh chemicals, or metal objects to clean the soleplate, as this can damage the anti-bacterial coating.

6.2. Storage

- After use, allow the iron to cool down completely.

- Store the iron in an upright position to protect the soleplate.
- Keep the iron in a safe, dry place, away from moisture and direct sunlight.
- Ensure the power cord is neatly wrapped around the cord wrap area (if available) or loosely coiled to prevent damage.

7. TROUBLESHOOTING

If you encounter issues with your iron, refer to the table below for common problems and solutions:

Problem	Possible Cause	Solution
Iron does not heat up.	Not plugged in; power outlet fault; temperature dial set to 'OFF' or too low.	Ensure iron is securely plugged in. Check power outlet with another appliance. Turn temperature dial to a higher setting.
Indicator lamp does not light up.	Iron not receiving power; lamp malfunction.	Check power connection. If iron heats but lamp doesn't light, contact customer support.
Soleplate is sticky or leaves marks on clothes.	Residue build-up on soleplate; incorrect temperature setting.	Clean the soleplate as per maintenance instructions. Ensure correct temperature for fabric.
Iron is too hot for fabric, causing scorching.	Temperature setting too high for the fabric.	Refer to the temperature setting guide and adjust the dial to a lower setting. Allow iron to cool before re-ironing.

If the problem persists after attempting these solutions, please contact Wipro customer support.

8. SPECIFICATIONS

Feature	Detail
Brand	Wipro
Model Name	GD203
Item Model Number	EK123120
Type	Heavyweight Dry Iron
Power Consumption	1200 Watt
Soleplate Material	Aluminium with Anti-Bacterial German Weilburger Dual Coating
