SAFETY INFORMATION

For your safety and to prevent damage to the product, please adhere to the following guidelines:

- Do not load the bed frame with more than 1000 pounds (453 kg). Exceeding this weight capacity may compromise the structural integrity and lead to collapse.
- Follow all assembly instructions carefully. Incorrect assembly can lead to instability and potential hazards.
- Ensure all screws and fasteners are securely tightened before use and periodically check for looseness.
- Keep electrical components (LED lights, charging station) away from water or excessive moisture.
- Do not attempt to modify the electrical wiring or components. Contact qualified personnel for any repairs.
- Keep small parts and packaging materials away from children to prevent choking hazards.

PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. All pieces are clearly marked for easy identification.

SETUP AND ASSEMBLY

Assembly of the Driftalia LED Queen Bed Frame typically takes approximately 50 minutes with two people. Illustrated instructions are included with your product to guide you through each step. Ensure you have adequate space and the necessary tools (an Allen wrench is usually provided, a drill with a T30 bit may expedite the process).

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Begin by assembling the headboard, connecting the main sections and installing the LED strip and charging station according to the detailed instructions.
3. Attach the side rails to the headboard and footboard, ensuring all connections are secure.
4. Install the central support beam and the metal support legs.
5. Lay the wooden slats across the frame. The bed frame is designed with 12 straight wood slats and 3 thickened metal slats for optimal support.
6. Assemble the two storage drawers and slide them into place at the foot of the bed. Note that these drawers are designed to be free-standing under the bed, not fixed to the frame.
7. Once assembled, ensure all connections are tight and the frame is stable before placing your mattress.

OPERATING INSTRUCTIONS

LED Lighting System

The integrated LED lighting system offers customizable ambiance for your bedroom. It supports 12 scene modes, 3 speed adjustments, and 3 brightness modes. Control the lights using the provided remote control.

- **Power On/Off:** Use the power button on the remote to turn the lights on or off.
- **Color Selection:** Choose from a variety of colors using the color palette or preset color buttons on the remote.
- **Brightness Adjustment:** Increase or decrease the light intensity using the brightness control buttons.
- **Mode Selection:** Cycle through 12 different scene modes to create various atmospheres.
- **Speed Adjustment:** For dynamic modes, adjust the speed of color changes or effects.

Charging Station

The headboard features a built-in charging station with 20W fast charging ports (3.0 Type-A & Type-C), providing up to 5V/4A max output for efficient charging. A 6.6ft long power supply cord is included.

- Connect the bed frame's power cord to a standard wall outlet.
- Use the USB-A, USB-C, or AC outlets to charge up to three electronic devices simultaneously.
- Ensure devices are compatible with the charging station's output specifications.

Storage Drawers

The bed frame includes two large storage drawers at the foot of the bed, each measuring 21.0"L x 15.4"W x 4.7"H. These drawers provide convenient space for bed sheets, clothing, or other items.

- Simply pull the drawers out from the foot of the bed to access storage.
- Push them back in to close. The drawers are designed for easy pull-out and closing.
- Avoid overloading the drawers to ensure smooth operation and prevent damage.

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your bed frame:

- **Cleaning:** For the upholstered fabric, gently spot clean with a damp cloth and mild detergent if necessary. Avoid harsh chemicals. For the frame, wipe with a dry or slightly damp cloth.
- **Fasteners:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if any looseness is detected.
- **Slats:** Inspect wooden slats for any signs of damage or wear. Replace if necessary to maintain proper mattress support.
- **Electrical Components:** Keep the charging station and LED lights free of dust. Do not attempt to clean with liquids while plugged in.

TROUBLESHOOTING

If you encounter any issues with your Driftalia LED Queen Bed Frame, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Bed frame is wobbly or squeaks.	Loose fasteners; uneven assembly.	Ensure all screws and bolts are securely tightened. Verify that the frame is assembled on a level surface.
LED lights are not working.	Power connection issue; remote control battery dead; LED strip disconnected.	Check if the power cord for the LED system is properly plugged in. Replace the remote control battery. Ensure the LED strip is securely connected to its power source.
Charging station is not providing power.	Bed frame not plugged in; device not compatible; faulty cable.	Verify the bed frame's main power cord is securely plugged into a working wall outlet. Ensure your device and charging cable are functional and compatible with the charging station's output.
Storage drawers are difficult to open/close.	Overloaded; obstruction; uneven floor.	Reduce the weight or volume of items in the drawers. Check for any objects obstructing the drawer path. Ensure the bed frame is on a level surface.
