

## Brookstone BK15-QC1-WT

# Brookstone Desk LED Alarm Clock with 15W Wireless Charger User Manual

Model: BK15-QC1-WT

## INTRODUCTION

---

Thank you for purchasing the Brookstone Desk LED Alarm Clock with 15W Wireless Charger. This device combines a clear LED digital alarm clock with a powerful 15W wireless charging pad, designed for convenience and efficiency. Please read this manual carefully to ensure proper use and to maximize the features of your new device.

## PACKAGE CONTENTS

---

- Brookstone Desk LED Alarm Clock with 15W Wireless Charger
- USB-C Charging Cable
- User Manual (this document)

*Note: A power adapter is not included and must be purchased separately. For optimal performance, use a Quick Charge (QC) 3.0 or Power Delivery (PD) compatible adapter.*

## PRODUCT OVERVIEW

---

# INFINITE FUNCTIONS ONE STYLISH DESIGN

Brookstone®

Figure 1: Top view of the Brookstone Desk LED Alarm Clock, highlighting the function adjustment (M), long press to sleep (clock icon), increase brightness (+), decrease brightness (-), time display, and wireless charging area.

The Brookstone Desk LED Alarm Clock features a sleek design with an integrated 15W wireless charging pad. The clear LED display shows the time, and the device is equipped with intuitive buttons for easy control of its various functions.

- **M Button:** Function adjustment.
- **Clock Button:** Long press to activate sleep mode or set time/alarm.
- **+ Button:** Increase brightness or adjust settings upwards.
- **- Button:** Decrease brightness or adjust settings downwards.
- **Wireless Charging Area:** Located on the base, for charging compatible devices.

## SETUP

### 1. Power Connection

1. Connect the provided USB-C charging cable to the input port on the back of the alarm clock.

2. Plug the other end of the USB-C cable into a compatible USB power adapter (not included).
3. Once connected, the LED display will light up, and the clock will be ready for initial setup.

## 2. Setting Time and Alarm

1. **To Set Time:** Press and hold the **Clock Button** until the hour digits flash. Use the **+** and **-** buttons to adjust the hour. Press the **Clock Button** again to switch to minute adjustment, then use **+** and **-** buttons. Press the **Clock Button** one more time to confirm and exit time setting mode.
2. **To Set Alarm:** Press the **M Button** to enter alarm setting mode. The alarm icon will appear. Follow the same steps as setting the time to adjust the alarm hour and minute. Press the **M Button** again to confirm.
3. **To Activate/Deactivate Alarm:** In normal time display mode, short press the **M Button** to toggle the alarm on or off. The alarm icon on the display indicates if the alarm is active.

## OPERATING INSTRUCTIONS

---

### 1. Wireless Charging

Figure 2: A smartphone placed on the wireless charging area of the Brookstone clock, indicating active charging.

The wireless charging area supports 15W fast charging for compatible devices such as iPhone 15 Pro Max/14/13/12 series, Samsung S23/S22/S21, and AirPods Pro/3/2. Ensure your device is Qi-compatible.

- Place your Qi-compatible device directly onto the wireless charging area on the base of the clock.
- A light indicator below the charging area will signal the charging status:
  - Flashes twice: Power connected.
  - Off: Standby mode.
  - Solid light: Device is charging.
  - Off (after solid light): Device is fully charged.

## 2. Display Brightness Adjustment

Figure 3: Illustration of the adjustable brightness feature, demonstrating different display intensities.

You can adjust the brightness of the LED display to your preference:

- Short press the **+ Button** to increase the display brightness.

- Short press the **- Button** to decrease the display brightness.
- The display has multiple brightness levels, including an option to turn the display off completely.

### 3. Snooze Function

When the alarm sounds, short press the **Clock Button** to activate the snooze function. The alarm will temporarily stop and sound again after a few minutes (default snooze duration). To turn off the alarm completely, press any other button.

### 4. Official Product Video

Your browser does not support the video tag.

## MAINTENANCE

- Keep the device dry. Do not expose it to water or excessive humidity.
- Clean the surface with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Do not disassemble the device. Any repairs should be performed by qualified personnel.
- Avoid placing the device in direct sunlight or near heat sources.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not powering on.	Not properly connected to power source; faulty adapter/cable.	Ensure the USB-C cable is securely connected to both the clock and the power adapter. Try a different USB power adapter and cable.
Wireless charging not working or intermittent.	Device not placed correctly; phone case too thick; foreign objects on charging pad; incompatible device.	<ul style="list-style-type: none"><li>◦ Ensure your device is centered on the wireless charging area.</li><li>◦ Remove any thick phone cases or metallic objects from your device.</li><li>◦ Verify your device is Qi-compatible.</li><li>◦ Ensure the power adapter provides sufficient output (e.g., QC3.0 or PD).</li></ul>
Alarm is difficult to turn off.	Incorrect button press for deactivation.	When the alarm sounds, press any button other than the <b>Clock Button</b> (snooze) to turn it off completely. To deactivate the alarm for the next day, short press the <b>M Button</b> in normal time display mode until the alarm icon disappears.
Display brightness changes unexpectedly or is too bright.	Automatic brightness adjustment; accidental button press.	Use the <b>+</b> and <b>-</b> buttons to manually adjust the brightness to your desired level. Ensure no objects are pressing the buttons.

## SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
