CARE AND MAINTENANCE

Proper care will help maintain the appearance and longevity of your Zinus Colton Sofa.

- **General Cleaning:** Regularly vacuum the upholstered fabric using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Avoid rubbing, which can spread the stain. For stubborn stains, use a mild fabric cleaner following the product instructions, testing on an inconspicuous area first.
- **Cushion Care:** Rotate and fluff cushions periodically to ensure even wear and maintain their shape.
- **Frame Care:** Wipe the wooden legs with a soft, damp cloth. Avoid harsh chemicals.

TROUBLESHOOTING

If you encounter any issues with your Zinus Colton Sofa, please refer to the following common solutions:

- **Cushions not fully expanded:** Allow up to 72 hours for vacuum-compressed cushions to fully decompress after unpacking. Gentle fluffing can assist the process.
- **Squeaking or instability:** Check all bolts and connections to ensure they are securely tightened. Loose hardware can cause movement and noise.
- **Fabric imperfections:** Minor wrinkles from packaging should dissipate over time with use. For persistent issues, contact customer support.
- **Missing parts:** If any parts are missing upon delivery, please contact Zinus customer support immediately with your product model number and purchase details.
