- **Storage:** When not in use for extended periods, store the table in a dry environment, ideally folded to save space.

Troubleshooting

- **Wobbling Table:** If the table wobbles, check that it is on a flat surface. Adjust the leveling feet on each leg until stability is achieved. Ensure all assembly screws are tightened.
- **Difficulty Folding/Extending:** Check for any obstructions in the hinge mechanism. Ensure the support brackets are moving freely. Apply a small amount of silicone lubricant to hinges if movement is stiff.
