Thermacell Mini Halo Mosquito Repellent

USER MANUAL

Model: NFZ.ZBDP06.PSWE | Brand: Thermacell

Introduction

The Thermacell Mini Halo Mosquito Repellent provides reliable mosquito protection over a 21 m² area, ideal for patios, terraces, gardens, and swimming pools. This innovative device uses heat-activated technology to diffuse an odorless repellent, creating a mosquito-free zone without sprays, smoke, or flames. It is designed for outdoor use and offers effective defense for your family and pets.

Package Contents

Verify that all items are present in your package:

- 1 Thermacell Mini Halo Mosquito Repellent Device
- 1 Butane Gas Cartridge (provides up to 12 hours of operation)
- 3 Repellent Mats (each provides up to 4 hours of protection)

CONTENUTO CONFEZIONE

Setup Instructions

Follow these steps to set up your Thermacell Mini Halo device:

- 1. Insert Repellent Mat:** Slide one repellent mat into the slot located at the top of the device, beneath the grill.
- 2. Install Butane Cartridge:** Remove the cap from the butane gas cartridge. Insert the cartridge into the opening at the bottom of the device and screw it in clockwise until it is secure.
- 3. Activate Device:** Turn the base of the device from the 'OFF' position to 'START'. You may hear a slight hiss as the gas begins to flow.
- 4. Position Device:** Place the device in the center of the area you wish to protect. Maximum protection is typically achieved within 10-15 minutes.

SEMPLICE DA USARE

Image: A visual guide demonstrating the simple setup process: inserting the repellent mat, screwing in the butane gas cartridge, turning the base to 'START', and placing the device for optimal protection.

Operating Instructions

The Thermacell Mini Halo operates using a heat-activated system to create a mosquito-free zone.

- Once activated, the butane gas cartridge heats the repellent mat.
- The heated mat releases an odorless repellent into the air, creating a 21 m² zone of protection against mosquitoes.
- To turn off the device, simply turn the base back to the 'OFF' position.

COME FUNZIONA

Image: A diagram explaining the operational principle: the butane cartridge heats the repellent mat, which then activates and disperses the mosquito repellent, forming a protective barrier.

Maintenance

To ensure optimal performance of your Thermacell Mini Halo, regular maintenance is required:

- **Replace Repellent Mats:** Each mat provides approximately 4 hours of protection. Replace the mat when it turns white or after 4 hours of use, whichever comes first.
- **Replace Butane Cartridge:** Each butane cartridge lasts for approximately 12 hours. Replace the cartridge when the device no longer produces heat or when the fuel runs out.
- **Storage:** When not in use, store the device in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the device is turned off and any used mats or cartridges are removed before storage.

Troubleshooting

If you encounter issues with your Thermacell Mini Halo, refer to the following common solutions:

- **Device Not Starting/Heating:**
 - Ensure the butane cartridge is fully screwed in and not empty.

- Check that the device base is turned firmly to the 'START' position.
- Verify that a repellent mat is correctly inserted.
- **Reduced Protection/Mosquitoes Present:**
 - Confirm the repellent mat has not turned white and is not expired (after 4 hours of use).
 - Ensure the device is placed in an open area, not obstructed by wind or objects.
 - Check if the butane cartridge is empty or running low.
- **No Odor:** The Thermacell Mini Halo is designed to be odorless. The absence of smell is normal and indicates proper function.

If problems persist, please contact Thermacell customer support for further assistance.

Specifications

Brand	Thermacell
Model Number	NFZ.ZBDP06.PSWE
Approximate Dimensions (H)	16.5 cm (6.5 inches)
Weight	500 grams (1.1 lbs)
Power Source	Butane Gas Cartridge
Protection Area	21 m ² (225 sq ft)
Butane Cartridge Duration	Up to 12 hours
Repellent Mat Duration	Up to 4 hours per mat
Scent	Odorless
Material Feature	Non-toxic
Target Species	Mosquito

Safety Information

Please read and follow all safety precautions to prevent injury or damage:

- **Outdoor Use Only:** This device is intended for outdoor use in well-ventilated areas. Do not use indoors, in tents, or in enclosed spaces.
- **Keep Out of Reach:** Store and operate the device out of reach of children and pets.
- **Hot Surfaces:** The top grill and repellent mat can become hot during operation. Avoid touching them. Allow the device to cool before handling or replacing mats.
- **Flammable Materials:** Do not place the device near flammable materials or surfaces.
- **Ventilation:** Do not cover the device during operation. Ensure proper airflow around the unit.
- **Disposal:** Dispose of used mats and cartridges according to local regulations. Do not puncture or incinerate butane cartridges.
- **Read Labels:** Always read and follow all instructions and warnings on the product packaging and refill labels.
