## 5. MAINTENANCE

Proper care and maintenance will extend the life and appearance of your outdoor convertible sofa.

### 5.1 Cleaning

- **Frame:** Wipe the rattan and metal frame with a dry cloth to remove dust and debris. For more stubborn dirt, use a damp cloth with mild soap and water, then dry thoroughly.
- **Cushions and Pillows:** The mattress and two included pillows feature removable covers for easy cleaning. Remove the covers and follow the care instructions on the label, typically machine wash cold on a gentle cycle and air dry. Ensure cushions are completely dry before reattaching or storing to prevent mildew.

## 5.2 Storage

During periods of inclement weather or extended non-use, it is recommended to store cushions and pillows indoors to prolong their life. The rattan frame is all-weather resistant, but covering it during harsh weather conditions can further protect it.

## 6. TROUBLESHOOTING

---

This section addresses common issues you might encounter.

- **Sofa feels unstable:** Ensure all screws are fully tightened. If instability persists, loosen all screws slightly, adjust the sofa on a flat surface, and then re-tighten all screws evenly. Refer to the safety information in Section 2.
- **Armrests are difficult to adjust:** Check for any obstructions or debris in the adjustment mechanism. Ensure the mechanism is clean and free of rust. Apply a silicone-based lubricant if necessary, avoiding oil-based products that can attract dirt.
- **Cushions appear flattened:** Fluff cushions regularly to maintain their shape and comfort. If covers are removable,

ensure they are correctly re-installed after cleaning.
