Ninja FB131BL

Ninja FrostVault 30qt Hard Cooler User Manual

Model: FB131BL

Brand: Ninja

Introduction

Welcome to your Ninja FrostVault 30qt Hard Cooler. This manual provides essential information for the proper setup, operation, and maintenance of your cooler. The Ninja FrostVault is designed for premium ice retention and features an integrated fridge-temp dry storage drawer, ensuring your food stays cool, dry, and separate at food-safe temperatures (under 40°F) for days.

Safety Information

- Always ensure the lid and drawer latch are securely closed during transport to prevent accidental opening.
- When using the cooler with ice, be aware of potential condensation on the exterior.
- Keep out of reach of small children to prevent entrapment. Inspect the interior before latching.
- For best performance, use a minimum of 15 lbs of ice.

Components and What's Included

Your Ninja FrostVault 30qt Hard Cooler includes the following:

- 30-quart cooler with FrostVault Dry Zone
- Integrated Fridge-Temp Dry Storage Drawer
- Heavy-Duty Handles
- Lockable Latch

Optional accessories like the divider/cutting board may be sold separately or included depending on the package.

Setup

1. **Initial Cleaning:** Before first use, clean the interior and exterior of the cooler with mild soap and water. Rinse thoroughly and dry.
2. **Pre-Chilling (Recommended):** For optimal ice retention, pre-chill the cooler by filling it with a small amount of ice or ice packs several hours before loading.
3. **Loading Ice:** Place ice directly into the main compartment. The 30-quart capacity fits up to 48 cans (no ice) or 26 cans with ice. For best performance, use a minimum of 15 lbs of ice.
4. **Loading Dry Zone:** Utilize the integrated FrostVault Dry Zone drawer for items you wish to keep cool and dry, such as sandwiches, fruits, or other moisture-sensitive foods.

Operating Instructions

Using the Main Compartment

The main compartment is designed for maximum ice retention, keeping beverages and other items cold for days.

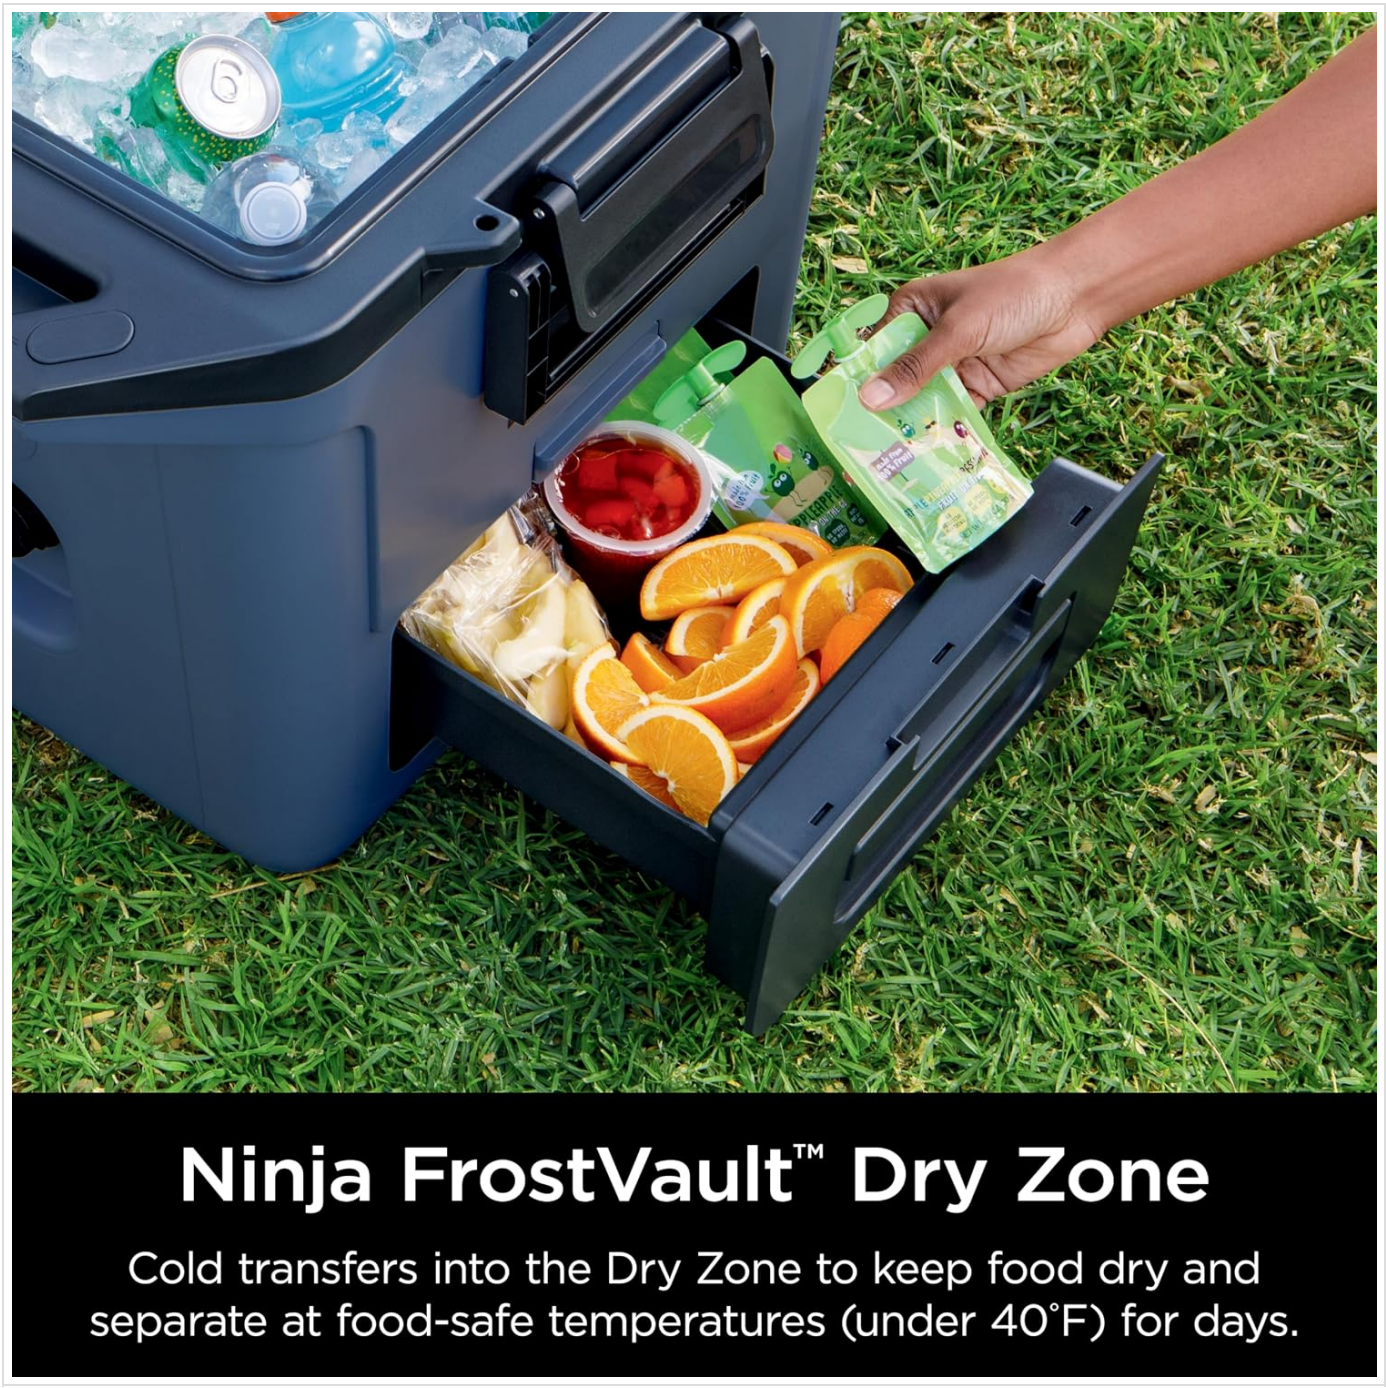

- Fill with ice and desired items.
- Ensure the lid is securely latched using the easy-close, one-handed latch.

Utilizing the FrostVault Dry Zone

The FrostVault Dry Zone is a unique feature that transfers cold from the main compartment to keep contents cool, dry, and separate at food-safe temperatures (under 40°F).

- To access, pull the handle on the front drawer.

- Place items like sandwiches, snacks, or other dry goods into the drawer.
- Push the drawer back in until it latches securely.

Transporting the Cooler

The heavy-duty, integrated handles make the cooler easy to carry. For secure transport in vehicles or boats, the cooler features points for tie-downs. The lid and drawer can also be locked for added security (padlocks not included).

Maintenance

Cleaning

Regularly clean the interior and exterior of your cooler.

- Use warm water and mild dish soap.
- For stubborn stains, a baking soda paste can be used.
- Rinse thoroughly and dry completely before storing to prevent mold or mildew.

Draining Water

The cooler is equipped with a drain plug for easy removal of melted ice water.

- Simply unscrew the drain plug to empty the water.
- Ensure the plug is securely tightened after draining to maintain insulation.

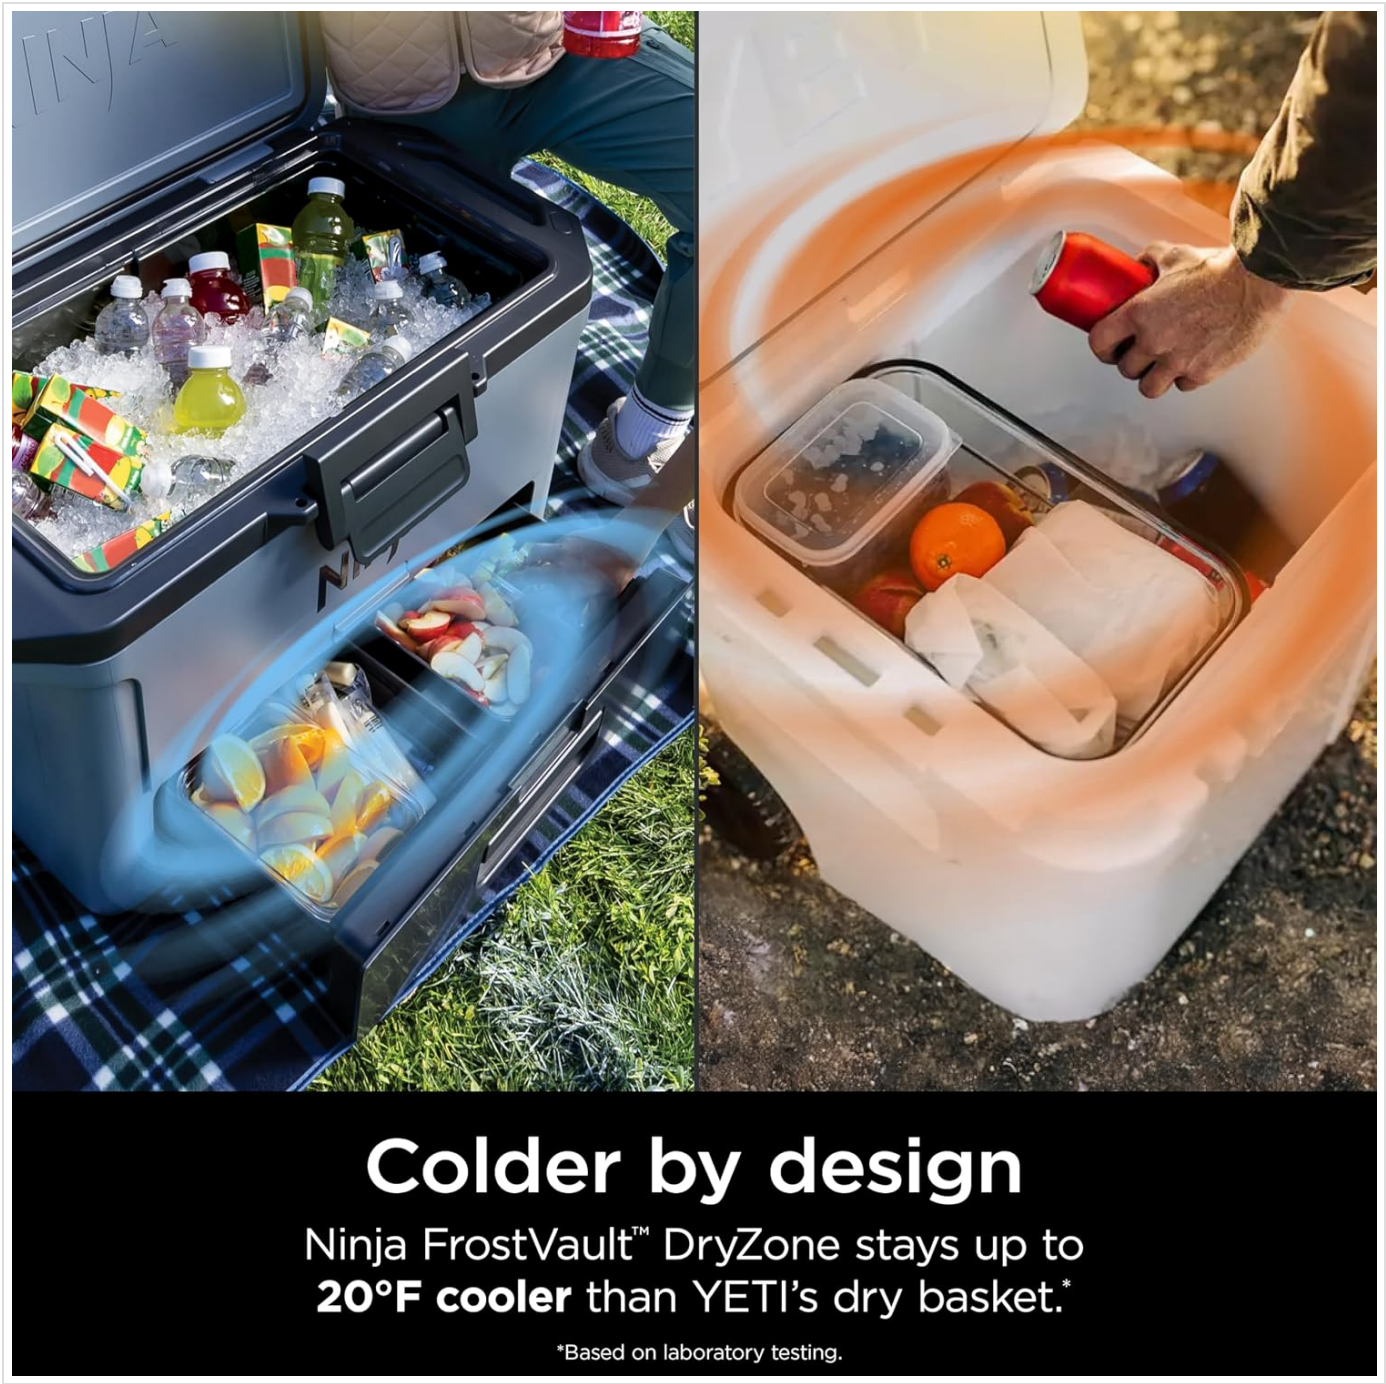

Troubleshooting

Reduced Ice Retention

- **Issue:** Ice melts faster than expected.
- **Solution:** Ensure the lid and dry zone drawer are fully closed and latched. Pre-chill the cooler before use. Avoid frequent opening of the lid.
- **Issue:** Food in Dry Zone is not cold enough.
- **Solution:** Ensure there is sufficient ice in the main compartment. The Dry Zone relies on the cold transfer from the ice above.
