CC KITS 0050

CC KITS Full-Size Conversion Kit Bed Rails

FOR DELTA CHILDREN CONVERTIBLE CRIBS - MODEL #0050

Instruction Manual

Introduction

This manual provides instructions for assembling and using your CC KITS Full-Size Conversion Kit Bed Rails. This kit is designed to convert compatible Delta Children convertible cribs into a full-size bed, utilizing the existing crib headboard and footboard.

Please read all instructions carefully before assembly and retain this manual for future reference.

Crib Compatibility

This conversion kit is compatible with a wide range of Delta Children convertible cribs. Please refer to the compatibility guides below to confirm your crib model and item number. If your crib or its finish is not listed, contact customer support for assistance.

COMPATIBILITY

COMPATIBLE WITH THE FOLLOWING DELTA CRIBS

Crib Name (Item Number)	Crib Name (Item Number)	Crib Name (Item Number)
Abby 4-In-1 (540360)	Aberdeen (702360 Serta)	Adelaide (702330 Serta)
Aden (W337550 Simmons)	Ainsworth (W337250 Simmons)	Archer 4-In-1 (540330)
Archer Deluxe (W100340)	Asher (W346150)	Ashland (704330 Serta)
Baker (540350)	Bakerton (540353)	Banbury (702350 Serta)
Barret (704320 Serta)	Bellante (319680)	Bennett (540320)

Parts List

Before beginning assembly, ensure all parts are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for replacement parts.

BED RAILS

FOR DELTA CHILDREN CONVERTIBLE CRIBS

MAKING IT SIMPLE TO TURN YOUR CRIB INTO A FULL-SIZE BED

This kit includes: 2 Bed Rails, 4 Support Slats, Hardware, Tools Needed, and Manual

Add-Ons: Additional Slats, Mattress, and Bed Safety Rail

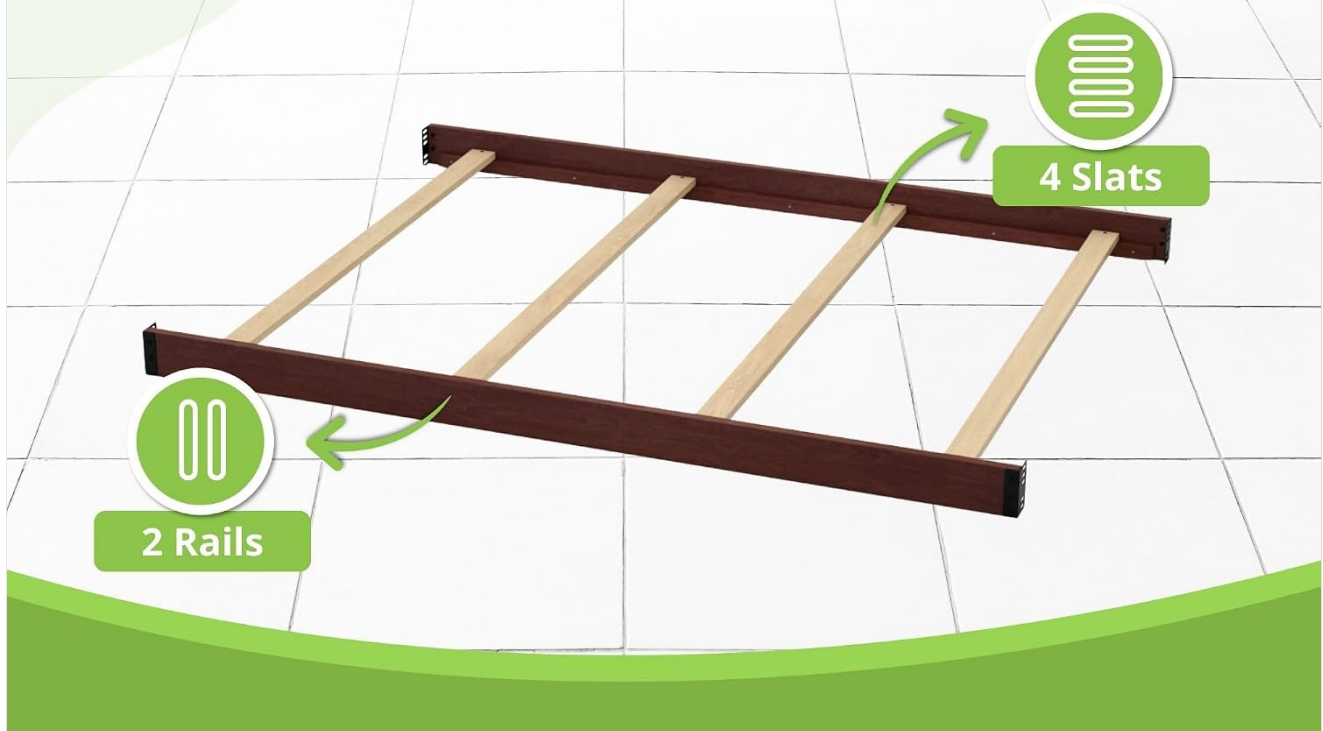

Image: Visual representation of the bed rails kit contents, showing two bed rails and four support slats.

The conversion kit includes:

- 2 Wooden Bed Rails
- 4 Support Slats
- Hardware (screws, bolts, and alternate hooks)
- Instruction Manual

Note: Additional slats, mattresses, and safety bed rail guards are sold separately and are not included in this kit.

Setup and Assembly

Assembly typically takes 20-30 minutes. Two adults are recommended for safe and efficient assembly.

Required Tools:

- Allen Key (included in hardware kit)

Assembly Steps:

1. **Prepare the Crib:** Disassemble your convertible crib by removing the side rails. Retain the headboard and footboard, as these will form the ends of your new full-size bed. Use an allen key to remove screws at the footboard and headboard.
2. **Attach Bed Rails to Headboard:** Take one bed rail from the kit. Align the pre-drilled holes on the bed rail with the corresponding attachment points on the headboard. If the pre-packaged hooks do not fit securely, test the alternate hooks provided in the kit to find the most secure fit. Replace the pre-packaged hooks with the new hooks if necessary, securing them in place with the allen key.
3. **Secure Bed Rails to Footboard:** Once the bed rails are securely attached to the headboard, move to the footboard. Align the other end of the bed rails with the attachment points on the footboard and secure them using the provided hardware.
4. **Install Support Slats:** Place the four wooden support slats evenly across the bed rails. Secure each slat to the bed rails using the provided screws. These slats provide foundational support for your mattress.
5. **Add Mattress:** Place your full-size mattress directly onto the secured support slats.

HOW-TO-USE

CRIB CONVERTED TO A FULL-SIZE BED

This conversion kit allows you to transform your crib into a full size bed using the crib's headboard and footboard.

Image: Diagram illustrating the conversion process from crib to full-size bed, showing the crib, conversion kit, optional add-ons, and the final bed setup.

Assembly Video Guide:

Your browser does not support the video tag.

Video: A step-by-step guide demonstrating the assembly process for converting a crib into a full-size bed using the CC KITS conversion kit.

Operating and Usage

Once assembled, your crib has been successfully converted into a full-size bed. This bed is designed to support a full-size mattress directly on the provided slats. The bed frame is designed to support up to 600 pounds when paired with additional slats (sold separately).

Mattress Support Options:

The kit includes four support slats. For optimal support and to keep the mattress lower, additional slats can be purchased. Using slats instead of a box spring can lower the mattress by up to 10 inches, making it easier and safer for children to get in and out of bed.

CHOOSE SLATS INSTEAD OF A BOX SPRING

SAFER. EASIER. MORE AFFORDABLE

SKIPPING THE BOX SPRING LOWERS THE MATTRESS BY UP TO 10 INCHES, MAKING IT EASIER AND SAFER TO GET IN AND OUT OF BED

✓ SLATS

✗ BOX SPRING

Image: Comparison showing a bed with slats (lower mattress height) versus a bed with a box spring (higher mattress height).

Ensure the mattress is properly centered on the slats to prevent shifting.

Care and Maintenance

To ensure the longevity and safety of your bed, follow these care instructions:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish. The product features water-based, non-toxic finishes.
- **Hardware Check:** Periodically check all screws and bolts to ensure they are tight. Loose hardware can compromise the stability and safety of the bed.
- **Environmental Conditions:** Avoid placing the bed in direct sunlight or near heat sources, which can cause

wood to dry out, crack, or warp. Maintain a stable room temperature and humidity.

- **Weight Limit:** Do not exceed the recommended weight limit of 600 lbs (when used with additional slats).

Troubleshooting

If you encounter any issues during or after assembly, refer to the following common solutions:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose hardware; incorrect hook selection; uneven floor.	Ensure all screws and bolts are tightened. Verify that the most secure hooks are used for attachment to the headboard/footboard. Check if the bed is on a level surface.
Bed rails do not align with crib headboard/footboard holes	Incorrect hook type used; crib model incompatibility.	Ensure you have selected the correct alternate hooks from the kit that best fit your crib's attachment points. Double-check your crib model against the compatibility guide. If issues persist, contact customer support.
Slats do not fit or are uneven	Improper placement; manufacturing variation.	Ensure slats are placed evenly and secured according to instructions. If a slat appears defective, contact customer support for a replacement.

If troubleshooting steps do not resolve the issue, please contact CC KITS customer support.

Product Specifications

- **Brand:** CC KITS
- **Model:** #0050
- **Size:** Full
- **Material:** 100% Solid Wood (no plywood or veneers)
- **Color:** Espresso Truffle - 208
