SETUP INSTRUCTIONS

1. Assembling the Stand

1. Carefully remove the monitor and stand components from the packaging.
2. Attach the stand base to the stand neck, ensuring it clicks securely into place or is fastened with the provided screw.
3. Attach the assembled stand to the back of the monitor until it locks securely.

2. Connecting the Monitor

1. Connect the HDMI cable from your computer or device to one of the HDMI ports on the monitor. Alternatively, use a VGA cable if your device supports it.
2. Connect the power adapter to the monitor's power input, then plug the AC power cord into the adapter and a wall outlet.
3. Press the power button on the monitor to turn it on.

OPERATING INSTRUCTIONS

Power On/Off

Press the power button located on the bottom bezel of the monitor to turn it on or off. A small LED indicator will show the power status.

Your browser does not support the video tag.

Adjusting Display Settings

Use the on-screen display (OSD) menu to adjust various settings such as brightness, contrast, color temperature, and input source. The OSD menu buttons are typically located on the bottom or rear of the monitor.

- **Brightness:** Adjust to your preferred viewing level.
- **Contrast:** Fine-tune the difference between light and dark areas.
- **Color:** Select preset modes or customize RGB values.
- **Input Source:** Manually select between HDMI 1, HDMI 2, or VGA if auto-detection fails.

Tilt Adjustment

The monitor features a tilt-adjustable stand. Gently hold the top and bottom edges of the monitor and tilt it to your desired viewing angle for optimal comfort.

Maintenance

- **Cleaning the Screen:** Use a soft, lint-free cloth slightly dampened with water or a screen-cleaning solution. Do not spray liquid directly onto the screen.
- **Cleaning the Casing:** Wipe the monitor casing with a soft, dry cloth. Avoid abrasive cleaners.
- **Ventilation:** Ensure the monitor's ventilation openings are not blocked to prevent overheating.

Troubleshooting

Problem	Possible Cause	Solution
No image on screen	Power cable disconnected; Video cable disconnected; Incorrect input source selected.	Check power connections; Ensure video cable is securely connected; Select correct input source via OSD menu.
Image is blurry or distorted	Incorrect resolution setting; Faulty video cable.	Set display resolution to 1920 x 1080; Try a different video cable.
No sound from speakers	Volume too low; Audio output not selected; External speakers connected.	Increase monitor volume; Ensure monitor is selected as audio output device on your computer; Disconnect external speakers if using integrated ones.
