Globlazer F80

Globlazer Big Cat Tower F80 Instruction Manual

Model: F80 | Brand: Globlazer

INTRODUCTION

Thank you for choosing the Globlazer Big Cat Tower F80. This 80-inch multi-level cat tree is designed to provide a stimulating and comfortable environment for multiple adult cats, offering various platforms for play, rest, and exploration. Constructed from premium particle board and covered in soft plush material, it features multiple scratching posts, perches, condos, and hammocks to satisfy your feline companions' natural instincts. Please read this manual carefully before assembly and use to ensure proper setup and long-lasting enjoyment.

COMPONENTS OVERVIEW

The Globlazer F80 Cat Tower includes a variety of components designed for your cats' comfort and entertainment. Familiarize yourself with these parts before assembly.

Small Footprint, Large Activity Space

Image: An exploded view diagram of the F80 Cat Tower, highlighting its key components: three top perches, nine sisal scratching posts, two cat condos, two hanging baskets, and one hammock.

- **Three Top Perches:** Elevated platforms for observation and rest. These feature removable covers for easy cleaning.
- **Nine Sisal Scratching Posts:** Durable natural sisal rope wrapped posts for healthy claw maintenance.
- **Two Spacious Cat Condos:** Private, enclosed spaces for hiding, sleeping, or solitary play.
- **Two Hanging Baskets:** Cozy, suspended beds for lounging.
- **One Hammock:** A comfortable, suspended fabric bed.
- **Dangling Ball & Hanging Mouse Toy:** Interactive toys to encourage play.
- **Anti-tip Kit:** For securing the tower to a wall for enhanced stability.

SETUP AND ASSEMBLY

Assembly of the Globlazer F80 Cat Tower is straightforward. Please follow these steps carefully. It is recommended to have a clear, spacious area for assembly.

Before You Begin:

- Unpack all components and verify against the included parts list (refer to the physical instruction manual for detailed parts list).
- Ensure all screws and tools are present.
- Keep small parts away from children and pets during assembly.

Assembly Steps:

1. **Base Installation:** Begin by attaching the lowest scratching posts and platforms to the main baseboard. Ensure all connections are secure but do not overtighten.
2. **First Level Construction:** Assemble the first set of condos and platforms, connecting them to the base structure using the appropriate posts and hardware.
3. **Mid-Level Assembly:** Continue building upwards, adding the hanging baskets and additional platforms and scratching posts as indicated in the diagram.
4. **Upper Level and Perches:** Install the remaining condos, platforms, and the three top perches. Attach the dangling ball and hanging mouse toy to their designated points.
5. **Final Check:** Once fully assembled, gently shake the cat tower to ensure all connections are firm and stable.
6. **Anti-tip Kit Installation:** For maximum stability and safety, especially with active or multiple cats, install the included anti-tip kit to secure the tower to a wall. Follow the specific instructions provided with the kit.

OPERATING INSTRUCTIONS

The Globlazer F80 Cat Tower is designed for intuitive use by your cats. No complex operation is required.

- **Encouraging Use:** Place the cat tower in a location where your cats frequently spend time, such as near a window or in a common living area.
- **Scratching Posts:** Encourage your cats to use the sisal scratching posts to satisfy their natural urge to scratch, which helps protect your furniture.
- **Perches and Condos:** Cats will naturally gravitate to the elevated perches for observation and the enclosed condos for security and rest.
- **Interactive Toys:** The dangling ball and hanging mouse toy are designed to engage your cats in playful activity.

MAINTENANCE

Regular maintenance will extend the life of your Globlazer F80 Cat Tower and ensure a hygienic environment for your pets.

- **Cleaning:** The plush covering can be spot cleaned with a damp cloth and mild detergent. For deeper cleaning, the covers on the top perches are removable and can be hand washed. Allow to air dry completely before reattaching.
- **Screw Firmness:** **Check the firmness of all screws at least once a month.** Tighten any loose screws to maintain stability and safety.
- **Sisal Rope:** Inspect the sisal scratching posts periodically for wear and tear. While durable, heavily used posts may eventually fray.
- **Toy Replacement:** The dangling ball comes with an additional replacement. Replace toys if they become damaged or detached.

TROUBLESHOOTING

If you encounter any issues with your Globlazer F80 Cat Tower, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Tower feels wobbly or unstable.	Loose screws; uneven floor; anti-tip kit not installed.	Tighten all screws. Ensure the tower is on a flat, level surface. Install the anti-tip kit to secure it to a wall.
Cats are not using the scratching posts.	Preference for other surfaces; unfamiliarity.	Place catnip on the sisal posts. Gently guide your cat's paws to the posts. Ensure the tower is in an accessible and appealing location.
Plush material appears dirty.	Normal use and pet activity.	Spot clean with a damp cloth. Removable perch covers can be hand washed.
