BIO IONIC Z-FGTST-CL-0.75-AZ

BIO IONIC Long Barrel Curling Iron 0.75 Inch

Model: Z-FGTST-CL-0.75-AZ

INTRODUCTION

Thank you for choosing the BIO IONIC Long Barrel Curling Iron. This advanced styling tool is designed to create beautiful, long-lasting curls while maintaining hair health through its unique Moisture Heat Technology and Nanolonic MX. The extended barrel is ideal for styling longer hair or reaching back sections with ease.

The BIO IONIC Long Barrel Curling Iron, 0.75 Inch model.

SAFETY INFORMATION

- Always unplug the appliance immediately after use.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- Keep away from water.
- Always check the voltage indicated on the appliance to ensure it corresponds to your local voltage.
- Do not use with a voltage converter.
- This appliance has an automatic 1-hour shut-off feature for added safety.

SETUP

1. **Unpack:** Carefully remove the curling iron from its packaging.

2. **Inspect:** Check the appliance for any signs of damage. Ensure the cord is intact and free from kinks.
3. **Power Connection:** Plug the 9-foot swivel cord into a suitable electrical outlet. The appliance is designed for corded electric use.
4. **Placement:** Place the curling iron on a heat-resistant surface, ensuring the hot barrel does not come into contact with any flammable materials.

OPERATING INSTRUCTIONS

Powering On and Temperature Selection

- Press and hold the power button () until the light turns on.
- Use the '+' and '-' buttons to adjust the temperature. The curling iron offers variable heat settings up to 430°F. Select an optimal temperature based on your hair type.
- To lock the selected temperature, press and hold the '+' and '-' buttons simultaneously until the light indicates the lock is active. This prevents accidental temperature changes during styling.

Key features of the BIO IONIC Long Barrel Curling Iron.

Curling Your Hair

1. Ensure your hair is dry and detangled.
2. Section your hair into manageable portions. The 0.75-inch barrel is designed for creating tight curls and spirals.
3. Open the clamp and place a section of hair between the clamp and the barrel, starting near the roots or mid-shaft depending on your desired style.
4. Wrap the hair around the barrel, away from your face, ensuring the entire strand is evenly distributed. The extended barrel is particularly beneficial for longer hair.
5. Hold for a few seconds (typically 5-10 seconds, adjust based on hair type and desired curl intensity).
6. Release the clamp and gently slide the curling iron out, allowing the curl to set.
7. Repeat for all sections of hair. For a softer look, gently run your fingers through the curls once they have cooled.

The extended barrel allows for wrapping more hair per section, reducing styling time.

Moisture Heat Technology & Nanolonic MX

This curling iron incorporates Nanolonic MX and Moisturizing Heat Technology. Nanolonic MX helps micronize water molecules, allowing them to penetrate the hair for enhanced hydration and conditioning. This technology, combined with moisturizing heat, locks in moisture and seals the cuticle, resulting in long-lasting, hydrated, and bouncy curls that are visibly smoother, softer, and shinier.

Understanding the technology behind healthier curls.

Product Versatility

The BIO IONIC Long Barrel Curling Iron is suitable for all hair types, including straight, wavy, curly, and coily hair. Its adjustable heat settings allow you to customize the temperature for fine, medium, and coarse textures.

Versatility for All Hair Types

PERFORMS ACROSS STRAIGHT, WAVY, CURLY, AND COILY HAIR.

Adjustable heat settings make it suitable for fine, medium, and coarse textures.

The curling iron performs across various hair textures.

Visual Guide: Curl Types

The 0.75-inch barrel is specifically designed for creating tight curls and spirals. Other barrel sizes are available for different curl outcomes:

- **0.75" (Tight Curls):** For small spirals and defined tight curls.
- **1" (Classic Curls):** For medium-sized defined curls.
- **1.25" (Loose Curls):** For soft curls and waves.
- **1.5" (Soft Curls):** For voluminous, 'lived-in' curls.

Tailored to suit various curl types

Small
spirals, tight curls

Medium
defined curls

Large
soft curls & waves

Voluminous
"lived-in" curls

Different barrel sizes create various curl styles.

Product Demonstration Video

*This short video from BIO IONIC demonstrates the different long barrel sizes and their resulting curl types.

MAINTENANCE

- **Cleaning:** Ensure the curling iron is unplugged and completely cool before cleaning. Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
- **Storage:** Store the curling iron in a cool, dry place, away from moisture and direct sunlight. Ensure the cord is not wrapped tightly around the appliance, as this can cause damage.

TROUBLESHOOTING

- **Appliance not heating:** Ensure the curling iron is properly plugged into a functioning electrical outlet and the power button is pressed. Check if the power outlet is working by plugging in another device.
- **Curls not holding:** Ensure the correct temperature setting is selected for your hair type. Allow curls to cool completely before brushing or styling. Consider using a heat protectant and a light-hold hairspray.

- **Hair snagging:** Ensure hair is completely detangled before curling. Do not wrap too much hair around the barrel at once.

SPECIFICATIONS

Brand	BIO IONIC
Model Number	Z-FGTST-CL-0.75-AZ
