## 2. SAFETY INFORMATION

For your safety and to ensure proper use, carefully read the following safety information before installing and using the appliance. Keep these instructions with the appliance for future reference.

- Ensure the appliance is unplugged before performing any maintenance or cleaning.
- Do not damage the refrigerant circuit.
- Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.
- This appliance is intended for household use only.

- Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- The appliance must be positioned so that the plug is accessible.

## 3. SETUP

### 3.1 Unpacking

Carefully remove all packaging materials. Dispose of packaging responsibly, keeping plastic bags and other materials away from children.

### 3.2 Placement

Place the appliance on a firm, level surface. Ensure adequate ventilation around the unit. Do not place it in direct sunlight or near heat sources. The dimensions of the appliance are approximately 55 cm (D) x 54.5 cm (W) x 176 cm (H).

### 3.3 Door Reversibility

The door orientation of this appliance is reversible, allowing you to change the opening direction to suit your kitchen layout. Refer to the detailed instructions in the separate installation guide for the door reversal procedure.

### 3.4 Initial Power-On

After positioning the appliance, wait at least 4 hours before plugging it into the mains supply. This allows the refrigerant fluids to settle. Once plugged in, set the temperature control and allow the appliance to cool for several hours before loading with food.

## 4. OPERATING INSTRUCTIONS

### 4.1 Temperature Control

The refrigerator features a display on top, allowing intuitive temperature setting. You can adjust the temperature level by degree according to the food you wish to store. The display also allows you to activate the 'Super Cool' function for rapid cooling of newly added items.

### 4.2 Low Frost Technology

This appliance incorporates Low Frost technology, which significantly reduces the formation of frost within the freezer compartment. This makes cleaning the freezer drawers easier and quicker, reducing the frequency of manual defrosting.

### 4.3 hOn App Integration

Enhance your experience by downloading the hOn App. This application provides a complete set of connected functions designed to simplify your daily life. Get useful tips and hints via your smartphone and enjoy multiple features such as the Inventory Assistant, Smart Drink Assistant, and Smart Food Locator.

### 4.4 Door Alarm

The appliance is equipped with a door alarm that will sound if the refrigerator door is left open for an extended period. This feature helps to maintain optimal internal temperatures and conserve energy.

## 5. MAINTENANCE

### 5.1 Cleaning

Regularly clean the interior and exterior of your fridge freezer. Use a soft cloth and a mild, non-abrasive detergent. For the interior, a solution of baking soda and water is recommended. Ensure the appliance is unplugged before cleaning.

### 5.2 Defrosting

This appliance features a manual defrost system for the freezer. While Low Frost technology reduces ice build-up, occasional manual defrosting will be necessary to maintain efficiency. When the ice layer reaches approximately 3-5 mm thickness, defrost the freezer. Remove all food, unplug the appliance, and allow the ice to melt naturally. Clean and dry the interior before restarting.

## 6. TROUBLESHOOTING

Before contacting customer service, please check the following common issues and solutions:

Problem	Possible Cause	Solution
Appliance does not operate.	No power supply; plug not inserted correctly.	Check power plug and wall socket.
Temperature is not cold enough.	Door not closed properly; excessive food load; temperature setting too high.	Ensure door is sealed; reduce food load; adjust temperature setting lower.
Excessive noise.	Appliance not level; contact with wall/furniture.	Adjust leveling feet; ensure adequate clearance.
Door alarm sounds frequently.	Door left ajar; door seal damaged.	Ensure door is fully closed; inspect and clean door seal.
