

## Maxview TVSL/22

# Maxview Alpatronics SL Line+ Smart TV with DVD Player User Manual

Model: TVSL/22 | Brand: Maxview

## 1. INTRODUCTION AND OVERVIEW

This manual provides comprehensive instructions for the setup, operation, and maintenance of your Maxview Alpatronics SL Line+ Smart TV. Designed for mobile use, this versatile television operates on both 12v and 240v power, making it ideal for motorhomes, caravans, trucks, and boats. It features a Full HD LED display, integrated DVD player, Wi-Fi, Bluetooth, and access to popular streaming services via WebOS.

Image: Front view of the Maxview Alpatronics SL Line+ Smart TV, highlighting its smart features and integrated DVD player.

Key features include:

- Full HD LED Smart TV with Freeview.
- WebOS for access to Netflix, Amazon Prime, Disney+, iPlayer, ITVX, Sky Store, YouTube, and more.
- Dual power compatibility (12v or 240v).

- Built-in DVD Player, Bluetooth, Wi-Fi, and Ethernet.
- Multiple connectivity options: 2 HDMI ports, USB Port, and AV connections.

## 2. WHAT'S IN THE BOX

Please check the contents of your package against the list below:

- Alphatronics TV (TVSL/22)
- Remote Control
- 240v Mains Lead
- 12v Power Adapter
- User Manual (this document)

## 3. SETUP

### 3.1. Placement and Mounting

Choose a stable and flat surface for your TV. Ensure adequate ventilation around the unit. If mounting, refer to your specific wall mount instructions and ensure the mount is compatible with VESA standards for your TV size.

Image: Example of the TV installed within a caravan interior.

### 3.2. Power Connection

The TV can be powered by either 12v DC or 240v AC.

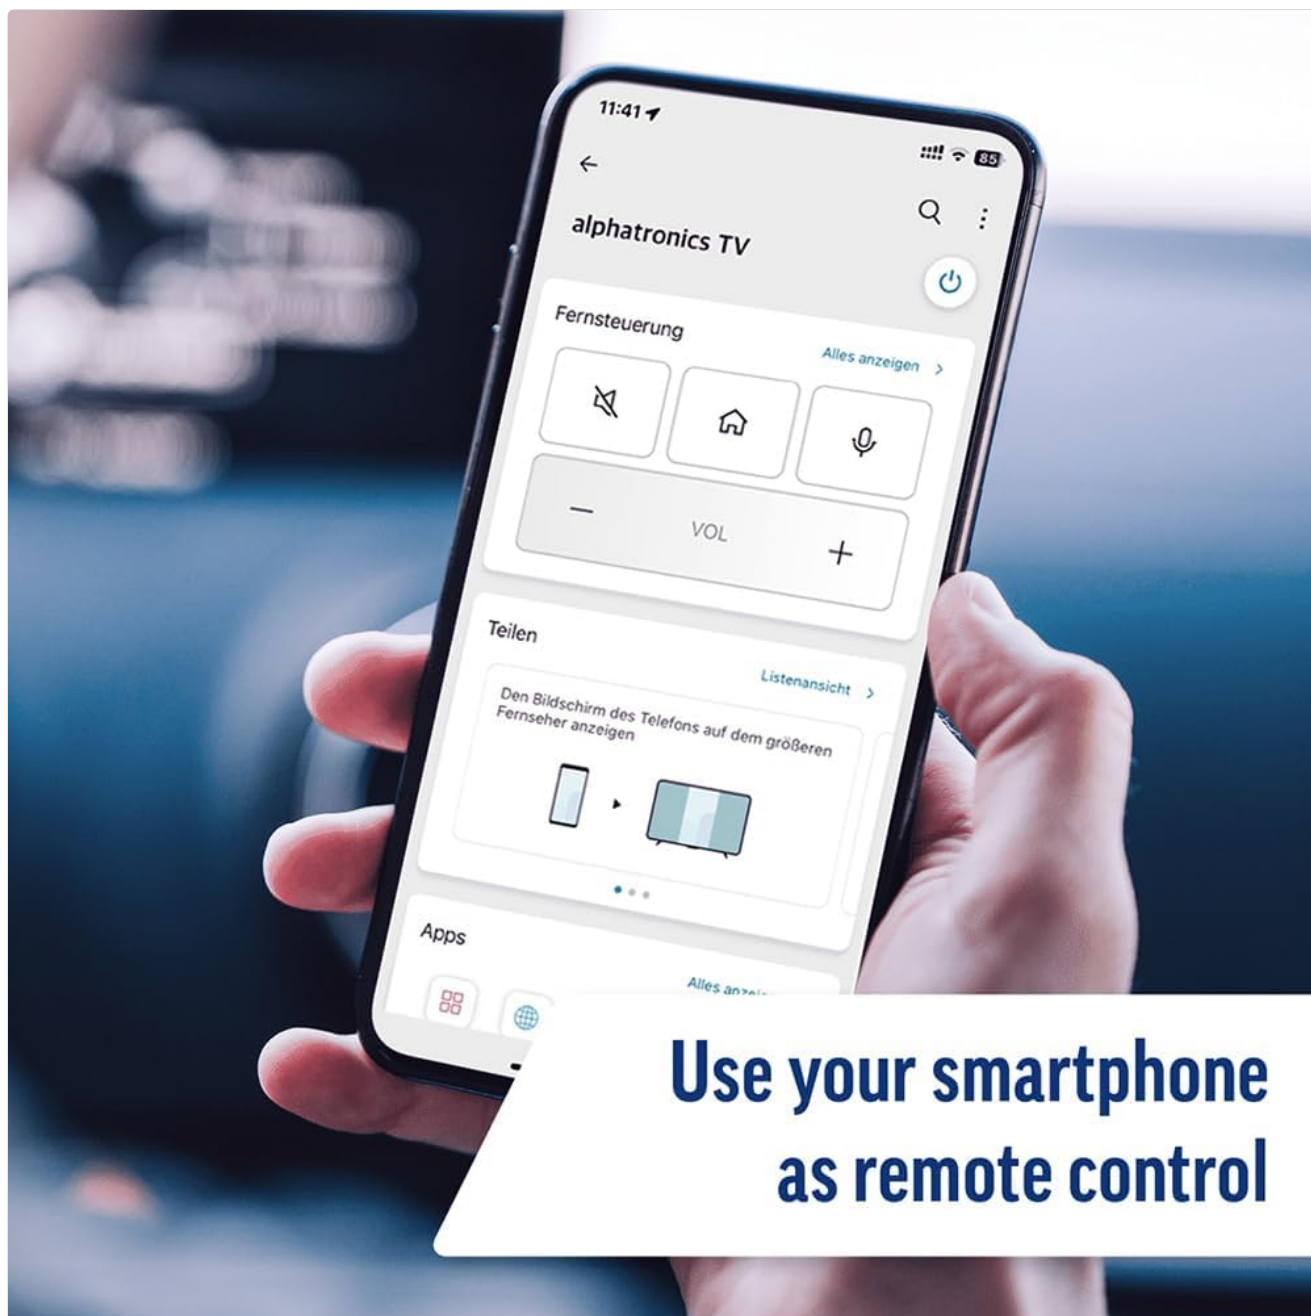

- **For 240v AC:** Connect the supplied 240v Mains Lead to the TV's AC input and then to a standard wall socket.
- **For 12v DC:** Connect the supplied 12v Power Adapter to the TV's DC input and then to a 12v power source (e.g., vehicle's 12v socket).

Ensure the correct power source is used to prevent damage.

### 3.3. Connecting External Devices

The TV features various ports for connecting external devices:

- **HDMI Ports (x2):** For high-definition audio and video devices like satellite receivers, game consoles, or laptops.
- **USB Port:** For connecting USB storage devices to play media files.
- **AV Connections:** For older devices using composite video and stereo audio.
- **Antenna/Satellite Input:** Connect your terrestrial antenna or satellite dish cable for Freeview or satellite TV reception.

**Use your smartphone  
as remote control**

Image: Rear panel of the TV displaying available connection ports.

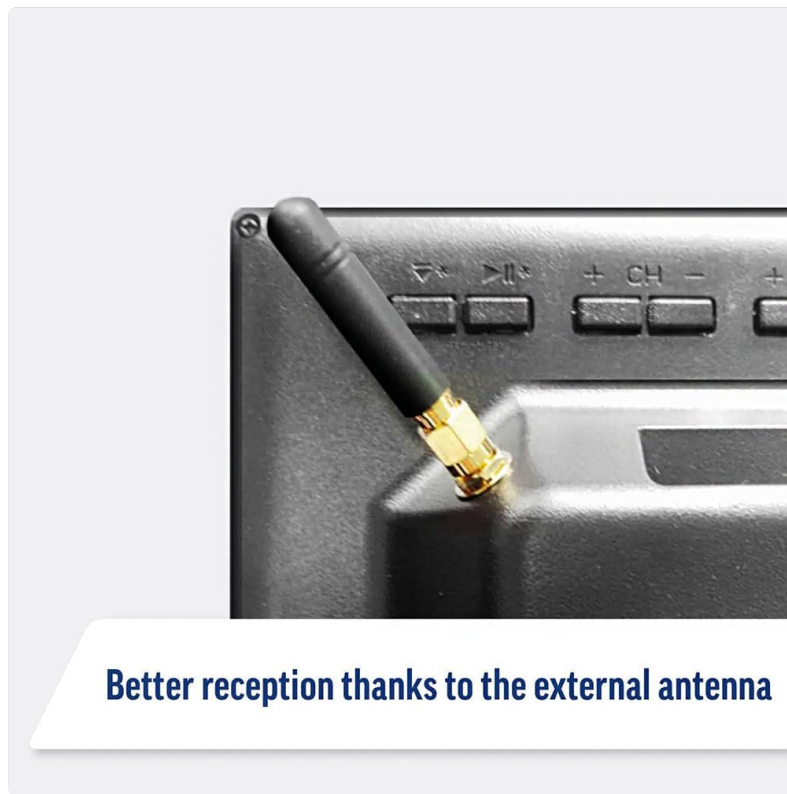

Image: Detail of the external antenna connection for improved signal reception.

### 3.4. Initial Setup Wizard

Upon first power-on, the TV will guide you through an initial setup wizard. This includes:

1. **Language Selection:** Choose your preferred language.
2. **Network Connection:** Connect to your Wi-Fi network or via Ethernet for internet access. This is crucial for Smart TV features.
3. **Channel Scan:** Scan for available Freeview or satellite channels.
4. **Time and Date Settings:** Set the correct time zone and date.

## 4. OPERATING THE TV

### 4.1. Basic Controls

Use the supplied remote control to navigate the TV. Common functions include:

- **Power Button:** Turns the TV on/off or to standby.
- **Volume Up/Down:** Adjusts the audio level.
- **Channel Up/Down:** Changes TV channels.
- **Source/Input:** Selects the input source (HDMI, AV, TV, DVD).
- **Navigation Buttons (Arrow Keys, OK):** Navigate menus and select options.
- **Home Button:** Accesses the WebOS Smart TV home screen.
- **Quick Access Buttons:** Dedicated buttons for Netflix and Amazon Prime Video for direct access.

### 4.2. Smart TV Features (WebOS)

Your Maxview Alpatronics TV runs on WebOS, providing a user-friendly interface for accessing a wide range of

applications and content.

- **Home Dashboard:** Press the **Home** button to access the main dashboard, where you can find installed apps, input sources, and settings.
- **App Store:** Download and install additional applications from the integrated app store.
- **Streaming Services:** Easily access popular services like Netflix, Amazon Prime Video, Disney+, BBC iPlayer, ITVX, and YouTube.
- **Screen Sharing:** Share content from your smartphone or tablet to the TV screen.

## Why do you need a mobile television for your leisure vehicle

### Shock and vibration tested

All alphatronics TVs are shock and vibration tested. In this way, we ensure a high degree of operational reliability and consistent quality for our customers.

### Corrosion-resistant electronics

Every single electronic component in an alphatronics TV is treated with an anti-oxidant coating. This protects the TV from corrosion and makes it resistant to salt water when used on boats.

### Special climate test

TVs are tested under extreme conditions in a special climate chamber. This ensures that all electronic components work perfectly even in extreme heat or sub-zero temperatures (-10 degrees to +45 degrees).

### Integrated overvoltage protection

The integrated overvoltage protection protects the electronics of the device from damage during short-term peak loads (motor start, solar system switch-on torque, etc.)

Image: Using a smartphone as a remote control for the TV.

## 4.3. DVD Player Operation

The integrated DVD player allows you to enjoy your movie collection on the go.

1. Insert a DVD disc into the slot on the side of the TV.
2. The TV should automatically switch to the DVD input. If not, press the **Source/Input** button on your remote and select "DVD".
3. Use the remote control's playback buttons (Play, Pause, Stop, Fast Forward, Rewind) to control the DVD.
4. To eject the disc, press the Eject button on the remote or the TV.

## DVD-Player

## 5. MAINTENANCE

### 5.1. Cleaning

To clean the TV screen, gently wipe it with a soft, lint-free cloth. For stubborn marks, dampen the cloth slightly with water or a screen-cleaning solution. Do not spray liquid directly onto the screen. Clean the TV casing with a dry, soft cloth.

**Caution:** Always unplug the TV from the power source before cleaning.

### 5.2. Software Updates

Your Maxview Alpatronics Smart TV supports automatic software updates via the internet. Ensure your TV is connected to a stable Wi-Fi or Ethernet network to receive the latest firmware and feature enhancements.

- To check for updates manually, navigate to the **Settings** menu on your TV, then look for **Software Update** or **System Information**.
- Follow the on-screen prompts to download and install any available updates. Do not power off the TV during an update process.

## Automotized Update over the Internet

Image: The TV screen indicating a software update in progress.

### 6. TROUBLESHOOTING

If you encounter issues with your TV, please refer to the following common problems and solutions before contacting support.

Problem	Possible Cause	Solution
No Power	Power cable disconnected; no power from outlet/source.	Check power connections. Ensure outlet/source is active. Try a different outlet.
No Signal	Incorrect input selected; antenna/cable disconnected or faulty.	Press <b>Source/Input</b> to select correct input. Check antenna/cable connections. Perform a channel scan.

Problem	Possible Cause	Solution
No Internet Connection	Wi-Fi password incorrect; router issue; TV too far from router.	Re-enter Wi-Fi password. Restart your router. Move TV closer to router or use Ethernet.
DVD Not Playing	Disc dirty or scratched; incorrect input selected; region code mismatch.	Clean the disc. Ensure "DVD" input is selected. Check disc region compatibility.
Remote Control Not Working	Batteries low/dead; obstruction between remote and TV; remote not paired (if Bluetooth).	Replace batteries. Remove obstructions. Re-pair remote if necessary (refer to TV settings).

If the problem persists after trying these solutions, please contact Maxview customer support.

## 7. SPECIFICATIONS

Feature	Detail
Model Number	TVSL/22
Screen Size	22 Inches (56 cm visible diagonal)
Display Technology	LED
Resolution	1080p (Full HD)
Product Dimensions (D x W x H)	12D x 58W x 38H centimetres
