1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your XTRONS IA72LESS Autoradio. This advanced car stereo system features Android 12, GPS navigation, Wi-Fi, 4G connectivity, Carplay compatibility, USB media playback, and a DVD drive, specifically designed for Seat Leon vehicles. Please read this manual thoroughly before using the product to ensure proper function and safety.

2. SAFETY INFORMATION

Observe the following safety precautions to prevent injury or damage to the unit:

- Do not attempt to disassemble or modify the unit. This may cause electric shock or other hazards.
- Ensure all wiring is correctly connected before powering on the unit. Incorrect wiring can cause damage or fire.
- Avoid operating the unit in a manner that distracts you from driving. Always prioritize road safety.
- Keep the unit away from water and excessive moisture.
- Consult a qualified professional for installation if you are unsure about any steps.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- XTRONS IA72LESS Head Unit
- Main Power Harness
- GPS Antenna
- USB Cables
- RCA Cables
- External Microphone (if included)
- User Manual
- Installation Tools (e.g., removal keys)

Included accessories for the XTRONS IA72LESS car stereo, including wiring harnesses, GPS antenna, USB cables, and user manual.

4. SETUP AND INSTALLATION

Installation of the XTRONS IA72LESS requires basic automotive electrical knowledge. Professional installation is

recommended.

4.1 Pre-Installation Checks

- Ensure the vehicle's ignition is off and the battery is disconnected.
- Confirm compatibility with your specific Seat Leon model and year.
- Review the wiring diagram provided with the unit.

4.2 Physical Installation

1. Carefully remove the existing car stereo or dashboard trim to access the stereo bay.
2. Connect the main power harness, speaker wires, and other necessary cables (e.g., GPS antenna, USB cables, RCA cables) to the corresponding ports on the XTRONS unit.
3. Mount the XTRONS IA72LESS into the dashboard opening, ensuring a secure fit.
4. Reconnect the vehicle battery and test the unit before reassembling the dashboard trim.

The XTRONS IA72LESS car stereo seamlessly integrated into a Seat Leon dashboard.

5. OPERATING INSTRUCTIONS

This section covers the basic operation of your XTRONS IA72LESS Autoradio.

5.1 Power On/Off and Volume

- Press the **PWR** knob to turn the unit on or off.
- Rotate the **PWR** knob to adjust the volume.

5.2 Navigation (GPS)

Access the navigation application from the main menu. The unit supports GPS, BDS, and GLONASS for accurate positioning.

User interface displaying the navigation map and current FM radio station.

5.3 Radio (FM/AM)

Select the 'Radio' icon from the main menu. Use the on-screen controls or physical buttons to tune stations, scan, and save presets. RDS (Radio Data System) is supported.

5.4 Media Playback (USB/DVD)

- **USB:** Insert a USB drive into the designated USB port. Select the 'USB' or 'Music'/'Video' icon to browse and play media files.
- **DVD:** Insert a DVD disc into the slot. The unit will automatically detect and begin playback.

5.5 Connectivity (Wi-Fi, 4G, Bluetooth, Carplay)

- **Wi-Fi:** Go to 'Settings' > 'Network & Internet' to connect to a Wi-Fi hotspot.
- **4G:** Insert a compatible 4G SIM card (if supported by your model) for mobile data access.
- **Bluetooth:** Pair your smartphone via Bluetooth for hands-free calling and audio streaming. Access Bluetooth settings from the main menu.
- **Carplay:** Connect your iPhone via USB to activate Apple Carplay for integrated smartphone features.

User interface showing various applications like Phone, Music, Maps, and Messages.

User interface displaying additional applications such as Calendar, GameSnacks, News, and Settings.

Main menu interface with icons for navigation, radio, video, music, Bluetooth, AV_IN, DTV, and F-CAM.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your XTRONS IA72LESS.

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. For stubborn marks, dampen the cloth slightly with water. Avoid harsh chemicals or abrasive materials.
- **Software Updates:** Periodically check for software updates via the system settings or XTRONS official website to ensure you have the latest features and bug fixes.
- **Disc Care:** Handle DVD discs by their edges to avoid fingerprints and scratches. Store discs in their cases when not in use.

7. TROUBLESHOOTING

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Unit does not power on.	Incorrect wiring; Blown fuse; No power supply.	Check wiring connections; Inspect vehicle fuse box; Verify power supply to the unit.
No sound.	Volume too low; Mute activated; Speaker wiring issue.	Increase volume; Deactivate mute function; Check speaker connections.

Problem	Possible Cause	Solution
GPS signal lost or inaccurate.	GPS antenna not properly connected or obstructed.	Ensure GPS antenna is securely connected and placed in an unobstructed location (e.g., dashboard).
Touchscreen unresponsive.	System freeze; Software issue.	Perform a soft reset (refer to manual for specific reset button location, often a small pinhole); If issue persists, consider a factory reset (data will be lost).
Bluetooth connection issues.	Device not in pairing mode; Interference; Software glitch.	Ensure both devices are in pairing mode; Move closer to the unit; Restart both devices.
