Operating the Glow-in-the-Dark Feature

The Fuggler Donatello plush includes a special 'butt-on' feature that glows in the dark. To activate this feature:

1. **Exposure to Light:** Expose the 'butt-on' located on the rear of the plush to a bright light source (e.g., sunlight, room light) for several minutes.

Maintenance

To ensure the longevity and cleanliness of your Fuggler plush figure:

- **Spot Cleaning:** For minor stains, use a soft cloth dampened with mild soap and water. Gently blot the affected area. Avoid harsh chemicals.
- **Air Drying:** Allow the plush to air dry completely. Do not machine wash or tumble dry, as this may damage the material and internal components.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading of colors.

Troubleshooting

- **Glow Feature Not Working:** Ensure the 'butt-on' has been exposed to sufficient light for an adequate period. The glow is temporary and requires re-exposure to light.
- **Loose Threads:** If loose threads appear, carefully trim them with scissors. Do not pull them.
