3. SETUP

3.1. Unpacking

- Carefully remove the oven from its packaging.
- Remove all packing materials and protective films from the appliance.
- Check for any transport damage. If damaged, do not install and contact your supplier.

3.2. Installation

The Siemens HB778GNB1M is a built-in oven. Installation should only be performed by a qualified technician in accordance with local regulations and the provided installation instructions. Ensure proper ventilation and electrical connection.

3.3. First Use

- Before first use, clean the oven interior and accessories with a damp cloth.
- Heat the empty oven for approximately one hour at 200°C (400°F) to burn off any manufacturing residues. Ensure good ventilation during this process.
- Set the current time on the electronic clock.

4. OPERATING INSTRUCTIONS

4.1. Control Panel Overview

The oven features a digital control panel for easy operation. Refer to Figure 2 for a visual representation. The panel includes touch controls for function selection, temperature adjustment, time settings, and special features.

4.2. Cooking Functions

The oven offers 15 cooking functions. To select a function, navigate through the menu on the digital display. Common functions include:

- **4D HotAir:** For even heat distribution on all levels.
- **Top/Bottom Heating:** Traditional heating for baking and roasting.
- **Grill (Large/Small Area):** For grilling meats and browning dishes.
- **Hot Air Grilling:** Combines hot air with grilling for crispy results.
- **Pizza Setting:** Ideal for pizzas and dishes requiring intense bottom heat.
- **Low Temperature Cooking:** For gentle cooking of meat.
- **Defrost:** Gentle thawing of frozen foods.
- **Preheating:** Rapid heating of the oven.
- **Keep Warm:** Maintains food temperature after cooking.

4.3. Home Connect Feature

The Home Connect feature allows you to control and monitor your oven remotely using a smartphone or tablet. Download the Home Connect app, register your appliance, and follow the in-app instructions to connect. This enables you to:

- Start and stop cooking programs.
- Adjust temperature and cooking time.
- Receive notifications about cooking progress.
- Access recipes and cooking tips.

4.4. Automatic Programs (cookControl Pro)

The oven includes a range of preset automatic programs. Select the type of food and its weight, and the oven will automatically determine the optimal cooking settings (temperature, time, heating mode). This simplifies preparation for various dishes.

5. MAINTENANCE

5.1. Self-Cleaning (activeClean)

The activeClean pyrolytic self-cleaning function simplifies oven maintenance. To use:

1. Remove all accessories (racks, trays, etc.) from the oven cavity.
2. Wipe away any loose food remnants.
3. Select the activeClean program on the control panel.
4. The oven will heat to a very high temperature, turning food residues into ash.
5. Once the program is complete and the oven has cooled, simply wipe away the ash with a damp cloth.

5.2. General Cleaning

- Clean the oven regularly with a soft cloth and mild detergent.
- Do not use abrasive cleaners, scourers, or sharp objects, as these can damage surfaces.
- Clean the oven door glass with a glass cleaner.

6. TROUBLESHOOTING

If you encounter issues with your oven, refer to the table below for common problems and solutions. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
Oven does not heat up.	No power supply; oven settings incorrect.	Check power connection and circuit breaker. Verify selected cooking function and temperature.
Display shows an error code.	Technical fault.	Switch off the oven at the main power supply for a few minutes, then switch back on. If the error persists, contact customer service.
Food is not cooking evenly.	Incorrect shelf position; overloaded oven.	Use the recommended shelf position for the selected function. Avoid overcrowding the oven. Utilize 4D HotAir for optimal distribution.
Oven light is not working.	Light bulb needs replacement.	Refer to the full manual for instructions on replacing the oven light bulb.
