OPERATING INSTRUCTIONS

The Red Parakeet figure is designed for simple interaction:

- **Tilting Mechanism:** Gently tap the head of the Parakeet figure. The internal spring mechanism will allow the head to bob or tilt, simulating a nodding motion.
- **Display:** Position the figure as a decorative item on desks, shelves, or any suitable surface. Its movement is activated by slight vibrations or direct touch.

MAINTENANCE

- **Cleaning:** To clean the figure, gently wipe it with a soft, dry cloth. For more stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Storage:** If storing the figure, keep it in a cool, dry place away from direct sunlight and extreme

temperatures to preserve its condition.

TROUBLESHOOTING

- **Head Not Tilting:** Ensure there are no obstructions around the head or neck area. The mechanism is designed for light movement; excessive force is not required and may cause damage.
- **Figure Instability:** Verify that the figure is placed on a completely flat and stable surface. Uneven surfaces can cause the figure to wobble or fall.
