1. INTRODUCTION

The Tissot T-Touch Connect Sport is a sophisticated timepiece that blends traditional Swiss watchmaking with advanced smart technology. Designed for an active lifestyle, it features an AMOLED touchscreen, comprehensive activity tracking, and smart notifications, all powered by solar energy and the innovative SwALPS system for extended battery life.

2. SETUP

2.1 Initial Charge and Activation

Your Tissot T-Touch Connect Sport is designed for extended usage thanks to its solar power capabilities and the SwALPS system. For initial setup, ensure the watch is exposed to light to begin charging. The watch can operate for several months in connected modes and almost perpetually in watch mode without frequent recharging.

2.2 Pairing with Mobile Application

To unlock the full potential of your watch, download the dedicated Tissot T-Touch Connect Sport application on your smartphone. Follow the in-app instructions to pair your watch. This application provides in-depth performance analysis, trend tracking, and well-being insights.

3. OPERATING YOUR T-TOUCH CONNECT SPORT

3.1 Key Features

- **Case Size:** 43.75 mm, **Band Width:** 21 mm, **Case Thickness:** 13.47 mm
- **Movement:** Quartz movement with antimagnetic properties.
- **Case Material:** Titanium.
- **Strap:** Silicone strap/bracelet, featuring an interchangeable quick-release mechanism and standard buckle closure.
- **Water Resistance:** Water-resistant up to a pressure of 5 bar (50 m / 165 ft).

3.2 Touchscreen Navigation

The watch features an AMOLED touchscreen for intuitive navigation. Swipe through menus, tap to select options, and use the physical buttons for additional controls and quick access to functions.

3.3 Activity Tracking

The T-Touch Connect Sport is equipped to track various aspects of your active lifestyle, including heart rate, distance covered, speed, and calories burned. These metrics are accessible directly on the watch and through the companion mobile application.

3.4 Notifications

Receive timely notifications from your connected smartphone directly on your watch, keeping you informed without needing to check your phone constantly.

4. CARE AND MAINTENANCE

4.1 Cleaning

To maintain the appearance and functionality of your watch, regularly clean the case and strap with a soft, damp cloth. For the silicone strap, mild soap and water can be used. Ensure the watch is completely dry before wearing it again.

4.2 Water Resistance

The watch is water-resistant up to 5 bar (50 meters / 165 feet). This means it is suitable for short periods of recreational swimming, but not for diving or prolonged submersion. Avoid operating the buttons or touchscreen when the watch is wet to prevent water ingress.

5. TROUBLESHOOTING

5.1 Common Issues and Solutions

- **Watch not responding:** Ensure the watch has sufficient charge. Expose it to light for solar charging. If unresponsive, try a soft reset by holding down the main button for 10-15 seconds.
- **Connectivity issues with app:** Check your phone's Bluetooth settings and ensure the watch is within range. Restart both the watch and the phone, then attempt to re-pair through the Tissot app.
- **Inaccurate activity tracking:** Ensure the watch is worn snugly on your wrist. Calibrate sensors through the mobile application if available.
- **Short battery life:** While designed for extended life, heavy usage of connected features or constant notifications can impact battery duration. Reduce background app activity or notification frequency if needed.

For persistent issues, refer to the official Tissot support website or contact customer service.

6. TECHNICAL SPECIFICATIONS

Feature	Detail
Package Dimensions	6.46 x 4.88 x 3.27 inches; 1.05 Pounds
Item Model Number	T1534204705102
Department	Unisex
Batteries	1 9V batteries required. (included)
Date First Available	February 12, 2024
Manufacturer	Tissot
ASIN	B0CVJ12MLG
