- **Removable Parts:** The support basket and steam lid can be washed with warm soapy water and rinsed thoroughly. They are generally dishwasher-safe (top rack only), but refer to specific product instructions for confirmation.
- **Descaling:** Over time, mineral deposits (limescale) may build up in the heating chamber. To descale, mix 50ml of white vinegar with 100ml of cold water and pour into the heating chamber. Let it stand for 30 minutes (do not heat). Pour out the solution and rinse the chamber thoroughly with clean water. Repeat if necessary. Descale regularly, especially in areas with hard water.
- **Storage:** When not in use, ensure the warmer is clean and dry. Store it in a cool, dry place.
