PACKAGE CONTENTS

Please ensure all items are present in your package:

- Medical king Foot Spa Unit
- Remote Control (integrated into the control panel)
- Pumice Stone (integrated)
- Power Cord
- User Manual (this document)

SETUP INSTRUCTIONS

1. **Unpack the Unit:** Carefully remove the foot spa from its packaging.
2. **Expand the Spa:** Place the collapsed foot spa on a flat, stable surface. Gently pull up the sides to expand the basin to its full size. Ensure the fold-down post is securely in place to prevent accidental folding during use.
3. **Fill with Water:** Fill the foot spa with warm water up to the indicated maximum fill line. For faster heating, it is recommended to start with warm water. Do not overfill.
4. **Connect Power:** Plug the power cord into a standard electrical outlet.
5. **Prepare for Use:** Sit comfortably in a chair and place your feet into the foot spa.

CARE AND MAINTENANCE

- **Cleaning:** After each use, unplug the unit and empty the water. Rinse the basin with clean water. Wipe the interior and exterior with a soft, damp cloth. Do not use abrasive cleaners or brushes.
- **Drying:** Allow the unit to air dry completely before collapsing and storing.
- **Storage:** Collapse the foot spa by gently pushing down the sides until it is flat. Store in a cool, dry place, away from direct sunlight and moisture. The collapsible design allows for storage in slim spaces, such as under a bed or in a closet.
- **Roller Cleaning:** The massage rollers are removable for easier cleaning. Detach them, clean separately, and reattach once dry.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; power outlet issue; damaged cord/plug.	Ensure the power cord is securely plugged into a working outlet. Check the power outlet with another device. Inspect the cord and plug for damage.
Water is not heating up or not hot enough.	Temperature setting too low; starting with cold water; heating element malfunction.	Increase the temperature setting. Start with warm water for quicker heating. If the issue persists, contact customer support.

Problem	Possible Cause	Solution
Bubbles or vibration are weak/not working.	Water level too low/high; blockage in jets; malfunction.	Ensure water level is between min/max lines. Check for any debris blocking the bubble jets. If the issue persists, contact customer support.
Remote control is not responding.	Remote not pointed at unit; battery low/dead.	Ensure the remote is pointed directly at the foot spa's sensor. Replace the remote control battery if necessary.
