

Nu Skin LumiSpa iO System

Nu Skin ageLOC LumiSpa iO System Instruction Manual

Model: LumiSpa iO System

Brand: Nu Skin

INTRODUCTION

Reveal smoother, refreshed-looking skin with Nu Skin ageLOC LumiSpa iO—a smart skincare device that connects with the Nu Skin Vera App to deliver a personalized cleansing experience. Using advanced IoT technology and specially formulated ageLOC treatment cleansers, the LumiSpa iO helps remove impurities and supports a soft, smooth, and radiant appearance. The device's intelligent coaching and customized regimens adapt to your unique skincare needs for consistent, targeted results. With a quick two-minute routine, it fits easily into your morning or evening regimen and is suitable for all skin types. Whether you're preparing for the day or unwinding at night, the LumiSpa iO is designed to provide a consistent, comfortable cleanse with each use. This ergonomic, user-friendly device is a high-tech addition to your daily routine, helping support the look of healthier, more vibrant skin over time.

- **Deep Cleansing:** This advanced device penetrates beyond the surface, purifying your skin and removing impurities for a refreshed and revitalized appearance. Immerse your skin in a revitalizing experience with LumiSpa iO's deep cleansing capabilities.
- **IoT Technology:** Elevate your skincare routine with state-of-the-art IoT (Internet of Things) technology seamlessly integrated into the LumiSpa iO. This intelligent system brings personalized regimens to your fingertips, adapting to your unique skin care needs.
- **Instant Softness:** Our skincare product delivers instant softness with immediate skin transformation. The device's gentle yet effective approach leaves your skin feeling irresistibly smooth and supple after just one use.
- **Suitable for all Skin:** The iO device offers a sophisticated solution suitable for all skin types. This intelligent device seamlessly caters to the diverse needs of your skin. It offers a deep cleansing with a thorough and gentle effect.
- **Easy Application:** Our skin care device comes in a user-friendly design. It ensures a hassle-free experience for morning or night. It helps in achieving radiant, refreshed skin.

PRODUCT OVERVIEW

Image: The Nu Skin ageLOC LumiSpa iO System in Rose Gold, showcasing its sleek design and treatment head.

SETUP

Charging the Device

Your browser does not support the video tag.

Video: A user demonstrating the charging process of the LumiSpa iO device, showing how it connects to its base.

Connect the charging cable to the base and plug it into a power source. Place the LumiSpa iO device onto the charging base. The device will indicate charging status. A full charge takes approximately 2 hours and provides up to 25 days of use.

Attaching the Treatment Head

Your browser does not support the video tag.

Video: A user demonstrating how to attach and detach the treatment head from the LumiSpa iO device.

Align the treatment head with the device and gently push until it clicks into place. Ensure it is securely attached.

Bluetooth Pairing with Nu Skin Vera App

Connecting to Nu Skin Vera App

The LumiSpa iO connects with the Nu Skin Vera App via Bluetooth. Download the app and follow the on-screen instructions to pair your device for personalized routines and intelligent coaching.

OPERATING INSTRUCTIONS

Daily Routine

Use the LumiSpa iO device for two minutes, once or twice a day, as part of your morning or night skincare regimen.

Powering On/Off and Selecting Modes

Your browser does not support the video tag.

Video: A user demonstrating the operation of the LumiSpa iO, including powering it on and showing the rotating heads.

Press the power button to turn the device on. The device features different modes and intensity levels. The outer and inner brush heads rotate in opposite directions for effective cleansing. Press the power button to cycle through modes. The intensity can be adjusted (low or high) using the dedicated intensity button/slider.

Application

Image: A person using the Nu Skin ageLOC LumiSpa iO System to cleanse their face with a gentle, circular motion, demonstrating proper application.

Wet your face and apply a small amount of ageLOC treatment cleanser to the treatment head. Gently glide the device across your face in circular motions. The device will guide you through different zones of your face, indicating when to move to the next area.

MAINTENANCE

Cleaning the Device

Your browser does not support the video tag.

Video: A user demonstrating how to clean the detachable silicone head of the LumiSpa iO device under running water.

After each use, remove the silicone treatment head by gently pulling it off. Rinse the head thoroughly with water. No soap is needed as the medical-grade silicone is antimicrobial and self-cleaning. Allow it to air dry before reattaching.

Replacing Treatment Heads

Treatment heads should be replaced periodically for optimal performance and hygiene. Refer to the Nu Skin Vera

App or product packaging for recommended replacement intervals.

TROUBLESHOOTING

Device Not Turning On/Charging

Ensure the device is properly seated on the charging base and the cable is securely connected to a power source. Allow sufficient time for charging (up to 2 hours for a full charge). If the device flashes yellow, it indicates a low battery. If issues persist, try a different power outlet or contact customer support.

Ineffective Cleansing

Ensure the treatment head is clean and securely attached. Use the recommended ageLOC treatment cleanser. Adjust the intensity setting to suit your skin type and needs. Make sure to move the device slowly and evenly across your face.

Skin Irritation

If irritation occurs, reduce the frequency of use or switch to a softer treatment head if available. Ensure you are using the correct ageLOC treatment cleanser for your skin type. Consult a dermatologist if irritation persists.

SPECIFICATIONS

Feature	Detail
