Navaris Glass Drink Dispenser with Tap - 4L Ripple Design User Manual

Model: NAV000011FD004C

1. INTRODUCTION

Thank you for choosing the Navaris Glass Drink Dispenser. This 4-liter (1 gallon) ripple design beverage dispenser is crafted from high-quality glass and features a stainless steel tap, an ice insert, and a fruit infuser. It is designed for serving a variety of cold beverages such as water, juice, iced tea, and cold brew coffee. This manual provides essential information for the safe and effective use of your dispenser.

Please read these instructions carefully before first use and retain them for future reference.

2. PACKAGE CONTENTS

- 1x Glass Drink Dispenser (4L capacity)
- 1x Stainless Steel Tap
- 1x Lid
- 1x Ice Insert
- 1x Fruit Infuser Insert

SERVE DRINKS IN STYLE

Share beverages together
with a 4L (1.1 Gallon) capacity

3. SETUP AND ASSEMBLY

Before first use, wash all components thoroughly with warm soapy water and rinse well. Ensure all parts are completely dry before assembly.

3.1 Assembling the Tap

1. Locate the tap, two silicone washers, and one nut.
2. Insert one silicone washer onto the threaded part of the tap.
3. From the outside of the dispenser, insert the threaded part of the tap into the hole.
4. From the inside of the dispenser, place the second silicone washer onto the threaded part of the tap.
5. Screw the nut onto the threaded part of the tap from the inside.
6. **Hand-tighten the nut firmly** to create a watertight seal. Avoid over-tightening with tools, as this may damage

the glass.

7. After assembly, fill the dispenser with water and check for leaks before adding your desired beverage. If a leak occurs, tighten the nut slightly more.

Stylish ribbed design

Includes filter screen to prevent clogging

High-quality stainless steel tap

BEAUTIFUL RIBBED GLASS DESIGN

4. OPERATING INSTRUCTIONS

4.1 Filling the Dispenser

1. Unscrew the metal lid from the top of the glass dispenser.
2. Pour your desired cold beverage into the dispenser. The wide mouth allows for easy filling.
3. If using the ice insert or fruit infuser, place them into the dispenser before or after filling, as desired.
4. Securely screw the lid back onto the dispenser.

4.2 Using the Ice Insert

The ice insert is designed to keep your drinks chilled without diluting them.

1. Fill the clear plastic ice insert with ice cubes.
2. Carefully lower the filled ice insert into the center of the dispenser. It will rest securely inside.

4.3 Using the Fruit Infuser Insert

The fruit infuser allows you to add natural flavors to your beverages with minimal pulp.

1. Cut fruits, vegetables, or herbs into small pieces suitable for the infuser.
2. Place the prepared ingredients into the clear plastic fruit infuser insert.
3. Carefully lower the filled fruit infuser into the center of the dispenser.
4. Allow sufficient time for the flavors to infuse into the beverage.

4.4 Dispensing Beverages

1. Place a glass or cup under the tap.
2. Push the tap handle upwards to open the flow.
3. Release the tap handle to close the flow.

5. MAINTENANCE AND CLEANING

Regular cleaning ensures hygiene and extends the life of your dispenser.

1. **Disassembly:** Unscrew the lid and remove any inserts. Carefully remove the tap by unscrewing the nut from the inside and pulling the tap out.
2. **Washing:** Wash all glass and plastic components with warm, soapy water. Use a bottle brush for the interior of the dispenser if needed. The wide mouth facilitates easy cleaning.
3. **Tap Cleaning:** Ensure the tap is thoroughly cleaned, especially the internal mechanism, to prevent residue buildup.
4. **Rinsing:** Rinse all parts thoroughly with clean water to remove all soap residue.
5. **Drying:** Allow all components to air dry completely before reassembly or storage. Pay special attention to drying the metal lid and tap components to prevent potential rusting.
6. **Storage:** Store the dispenser in a clean, dry place.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Tap is leaking or dripping.	<ul style="list-style-type: none">◦ Tap not assembled correctly.◦ Nut on the tap is not tightened sufficiently.◦ Silicone washers are misplaced or damaged.	<ul style="list-style-type: none">◦ Disassemble and reassemble the tap, ensuring both silicone washers are correctly positioned on either side of the glass.◦ Hand-tighten the nut firmly. Test for leaks.◦ Inspect silicone washers for damage. Replace if necessary.
Beverage flow is slow or clogged.	<ul style="list-style-type: none">◦ Pulp, seeds, or ice blocking the tap.◦ Tap mechanism is dirty.	<ul style="list-style-type: none">◦ Ensure the internal filter screen is in place.◦ Clean the tap thoroughly, especially the internal components.◦ Use the fruit infuser for pulpy ingredients.
Metal lid or tap components show signs of rust.	<ul style="list-style-type: none">◦ Improper drying after washing.◦ Exposure to harsh chemicals.	<ul style="list-style-type: none">◦ Always ensure all metal parts are completely dry before storage.◦ Avoid using abrasive cleaners or harsh chemicals on metal components.
