6.3 General Care

- Keep your phone clean using a soft, dry cloth. Avoid harsh chemicals.
- Protect the screen with a screen protector and use the provided phone case.
- Regularly update the software to ensure optimal performance and security.

7. Troubleshooting

If you encounter issues with your device, try the following common solutions:

- **Device Unresponsive:** Press and hold the Power button for about 10 seconds to force a restart.
- **App Crashing:** Close the app and reopen it. If the issue persists, clear the app's cache and data in Settings > Apps.
- **Network Issues:** Toggle Airplane Mode on and off. Check your SIM card insertion.
- **Battery Draining Quickly:** Check background app usage in Settings > Battery. Reduce screen brightness and disable unnecessary features.
- **Software Glitches:** Ensure your device software is up to date via Settings > About device > Software update.
- **Factory Reset:** As a last resort, you can perform a factory reset (Settings > System settings > Back up and reset > Reset phone). **Warning: This will erase all data on your phone. Back up important data before proceeding.**
