Braun CareStyle 5 IS5247VI Steam Iron System User Manual

Model: IS5247VI

Brand: Braun

INTRODUCTION

Welcome to the user manual for your new Braun CareStyle 5 IS5247VI Steam Iron System. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your appliance. Please read it thoroughly before first use and keep it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Read all instructions before use.
- Do not leave the iron unattended while it is connected or on an ironing board.
- Do not immerse the iron or base in water or other liquids.
- Keep out of reach of children.
- Use the iron only for its intended purpose.
- Unplug the iron from the electrical outlet when filling with water or emptying, and when not in use.
- Do not operate the iron with a damaged cord or if the iron has been dropped or damaged.
- Place the iron on a stable, level surface.
- The soleplate can become extremely hot and cause burns. Do not touch hot surfaces.

SETUP

Unpacking

Carefully remove all components from the packaging. Retain the packaging for storage or future transport.

Water Tank Filling

1. Ensure the appliance is unplugged from the power outlet.
2. Remove the 2-liter water tank from the base unit.
3. Fill the tank with tap water up to the "max" indicator. Distilled or demineralized water is recommended to prolong the life of the appliance, especially in areas with hard water. Do not use perfumed water or additives.
4. Reinsert the water tank securely into the base unit.

Initial Setup

1. Place the base unit on a stable, heat-resistant surface.
2. Connect the steam iron unit to the base unit via the steam hose.
3. Plug the power cord into a suitable grounded electrical outlet (240V).
4. Press the power button to turn on the appliance. The iron will begin to heat up.

OPERATING INSTRUCTIONS

Powering On and Heating

Once plugged in and powered on, the iron will heat up quickly. The indicator light will stop flashing when the iron is ready for use.

Selecting Ironing Mode (iCare Technology)

The Smart iCare mode automatically sets a safe temperature for all types of fabrics, eliminating the need for manual temperature adjustments.

- **iCare Mode:** Default setting, safe for all ironable fabrics.
- **Eco Mode:** For delicate fabrics or energy saving, reduces steam output.

- **Turbo Mode:** For maximum steam performance on stubborn creases.

Ironing Techniques

Dry Ironing

For dry ironing, ensure the steam button is not pressed. The iron will function as a traditional dry iron.

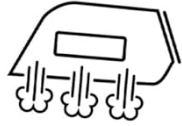

Steam Ironing

Press and hold the steam button on the iron handle to release continuous steam. For an extra burst of steam, press the steam shot button (if available on your model).

Vertical Steaming

The powerful continuous steam allows for vertical ironing of hanging garments or curtains. Hold the iron a few centimeters away from the fabric and press the steam button.

MAINTENANCE AND CLEANING

Descaling System

The appliance features a fast and efficient descaling system to ensure lasting performance. Refer to the indicator light for descaling alerts.

1. Ensure the iron is unplugged and cooled down.
2. Place a container under the descaling valve (usually located on the side or back of the base unit).
3. Open the descaling valve and allow the water and scale to drain out.
4. Close the valve securely.
5. For detailed descaling instructions, consult the full manual or Braun's official website.

Cleaning the Soleplate

To clean the soleplate, use a damp cloth and a non-abrasive liquid cleaner. Do not use abrasive pads or harsh chemicals as they can damage the soleplate.

Storing the Appliance

After use, allow the iron to cool completely. Empty any remaining water from the tank. Secure the iron to the base unit using the "easy-lock" system (if available). Store the appliance in a dry, safe place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No steam produced.	Water tank empty; iron not hot enough; steam button not pressed.	Fill water tank; wait for iron to heat up; press steam button.
Water leaking from soleplate.	Temperature too low for steam; overfilled water tank.	Increase temperature setting; do not overfill water tank.
Iron not heating up.	Not plugged in; power button not pressed; faulty outlet.	Check power connection; press power button; try a different outlet.
Scale residue on clothes.	Appliance needs descaling.	Perform descaling procedure as per maintenance section.

If the problem persists after attempting these solutions, please contact Braun customer support.
