Claymore 3Face Pro Wing

Claymore 3Face Pro Wing Accessory Light Bar User Manual

Model: 3Face Pro Wing

1. PRODUCT OVERVIEW

The Claymore 3Face Pro Wing is an accessory light bar designed to enhance the illumination capabilities of Claymore 3Face Pro X or 3Face Pro L products. It provides additional brightness and versatile lighting modes for various outdoor and work environments. This unit does not contain a built-in battery and requires connection to a compatible Claymore 3Face product or power bank for operation.

2. WHAT'S IN THE BOX

Upon unpacking your Claymore 3Face Pro Wing, please ensure all items are present:

- Main unit x 2
- Hard shell case
- Carabiner x 2

- Hook x 2
- Extension cable
- User manual

LIGHT MODES

(When connected to 3Face Pro)

Cool White
(6,500K)

Warm White
(3,000K)

Natural White
(4,500K)

Breeze
(3,000-6,500K)

3. SETUP AND INSTALLATION

3.1 Connecting to a Claymore 3Face Pro Unit

The 3Face Pro Wing is designed to seamlessly integrate with Claymore 3Face Pro X or 3Face Pro L models. To connect:

1. Locate the side ports on your Claymore 3Face Pro main unit.
2. Align the connector of the 3Face Pro Wing with the port and gently push until it clicks into place.
3. Repeat for additional Wing units if desired.

Image 3: Connecting Claymore 3Face Pro Wing to a main unit. This diagram illustrates how to attach the left and right Wing units to a central 3Face Pro unit, extending the overall light bar length to 592 mm.

3.2 Alternative Power Options

The 3Face Pro Wing can also be powered directly via a power bank using the provided extension cable, or controlled remotely when connected with a CLAYMORE Multi Controller and power bank.

Image 4: Claymore 3Face Pro Wing power options and features. This graphic highlights key features including up to 9,800 lumens (when connected with 3Face Pro X), 4 light modes, no built-in battery, IP65 waterproof rating, and power options via Bluetooth, power bank direct, or remote control.

3.3 Mounting and Extension

The 3Face Pro Wing offers flexible mounting options:

- **Direct Attachment:** Connect directly to a 3Face Pro unit for an extended light bar.
- **Extension Cable:** Use the extension cable to position the light in different areas, such as inside a tent or under a canopy, while the main unit remains elsewhere.

- **Carabiner/Hook:** Utilize the included carabiners and hooks for hanging the light in various locations.

ILLUMINATE DIFFERENT SPACES

Use an extension cord to easily arrange lights
and illuminate different spaces.

*3Face Pro Wing Must be paired with 3Face Pro X or L for app control

4. OPERATING INSTRUCTIONS

4.1 Light Modes and Brightness

The 3Face Pro Wing offers four dynamic lighting modes and adjustable brightness when connected to a compatible Claymore 3Face Pro unit:

- **Cool White (6,500K):** Bright, clear light suitable for tasks requiring high visibility.
- **Warm White (3,000K):** Soft, ambient light for relaxation or creating a cozy atmosphere.
- **Natural White (4,500K):** A balanced light, ideal for general illumination.
- **Breeze (3,000-6,500K):** A dynamic mode that cycles between warm and cool tones.

PRODUCT FEATURES

Up to 9,800 Lumens
(When connected
with 3Face Pro X)

4 light Modes
(When connected
with 3Face Pro X or L)

No Built-In Battery

IP65 Waterproof

POWER OPTIONS

**Bluetooth
Connectivity**
(When connected
with 3Face Pro X or L)

OR

**Power Bank
Direct**
(When connected
with a power bank)

OR

Remote Control
(When connected
with CLAYMORE Multi
Controller and power bank)

5. MAINTENANCE

5.1 Cleaning

To maintain optimal performance and appearance, clean the light bar with a soft, damp cloth. Avoid using abrasive cleaners or solvents that may damage the surface or electronic components.

5.2 Water Resistance

The Claymore 3Face Pro Wing is rated as waterproof (IP65). While it is designed to withstand water splashes and rain, avoid submerging the unit in water for extended periods.

5.3 Storage

When not in use, store the light bar in its hard shell case in a cool, dry place away from direct sunlight and extreme temperatures. This helps protect the unit and prolong its lifespan.

6. TROUBLESHOOTING

If you encounter any issues with your Claymore 3Face Pro Wing, consider the following:

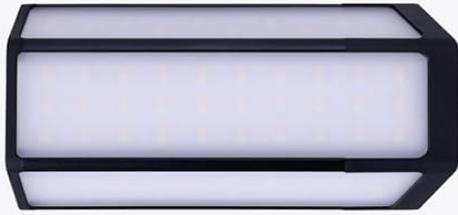

- **Light not turning on:** Ensure the unit is properly connected to a powered Claymore 3Face Pro unit or a charged power bank. Check all cable connections.
- **App connectivity issues:** Verify that Bluetooth is enabled on your mobile device and that the Claymore app is up to date. Ensure the 3Face Pro main unit is powered on and within range.
- **Dim or inconsistent light:** Check the power source. If using a power bank, ensure it has sufficient charge. Adjust brightness settings via the app or main unit controls.

For persistent issues, please refer to the official Claymore support resources.

7. SPECIFICATIONS

Feature	Specification
Model Number	3Face Pro Wing
Light Output (Max)	2300 Lumens
Dimensions	10"L x 5"W x 5"H (approx. 160.6 mm length)
Item Weight	595 Grams (1.31 pounds)
Water Resistance Level	Waterproof (IP65)
Light Source Type	Light Emitting Diode (LED)
Power Source	Battery Powered (requires external 3Face Pro unit or power bank)
Material	Acrylonitrile Butadiene Styrene (ABS)
Included Components	Carabiner, Extension Cable, Hard Shell Case, Hook
