What's in the Box

Upon unboxing your i8 Pro Max Series 8 Smart Watch, please verify that all the following components are included:

- i8 Pro Max Series 8 Smart Watch
- Watch Band
- Magnetic Charger
- User Manual (this document)

Setup Guide

1. Charging the Device

Before initial use, fully charge your smart watch. Connect the magnetic charger to the charging points on the back of the watch. Plug the USB end of the charger into a standard USB power adapter (not included) or a computer's USB port. The watch display will indicate charging status.

2. Installing the Watch Band

Align the watch band with the slots on either side of the watch body. Slide the band into place until you hear a click, indicating it is securely fastened. Ensure both sides of the band are properly attached before wearing.

3. Pairing with Your Smartphone

1. **Download the App:** Scan the QR code provided in the watch's interface or manual, or search for the recommended companion app (e.g., "FitPro" or similar, as implied by common smartwatches) in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App:** Launch the companion app on your smartphone.
4. **Add Device:** Within the app, navigate to the "Add Device" or "Pair Device" section. The app will search for available devices.
5. **Select Your Watch:** Select "I8 Pro Max" or a similar identifier from the list of found devices.
6. **Confirm Pairing:** Follow any on-screen prompts on both your watch and smartphone to confirm the pairing. A successful connection will be indicated on both devices.

Note: For optimal functionality, ensure the app is running in the background and Bluetooth remains active on your smartphone.

Operating Instructions

Display and Navigation

The i8 Pro Max features a 1.73-inch full-touch HD display (320x240 pixels) for intuitive interaction. Swipe across the screen to navigate through menus and functions. The side button typically serves as a power button, back button, or to access the main menu.

Health Monitoring

The watch is equipped with sensors to monitor various health metrics:

- **Heart Rate Monitoring:** Tracks your heart rate throughout the day, providing insights into your cardiovascular health.
- **Sleep Tracking:** Automatically monitors your sleep patterns, including light, deep, and wake phases, to help you understand and improve your sleep quality.
- **Sedentary Reminders:** Alerts you when you've been inactive for too long, encouraging you to move and maintain an active lifestyle.

Maintenance

Cleaning Your Watch

Regularly clean your watch and band to prevent skin irritation and maintain appearance. Use a soft, lint-free cloth. If necessary, dampen the cloth slightly with water. Avoid using harsh chemicals, abrasive materials, or strong detergents, as these can damage the watch's finish and internal components.

Water Resistance

The i8 Pro Max Series 8 Smart Watch is**water-resistant for daily use (splash-proof only)**. It is suitable for activities like

hand washing or light rain. **It is NOT suitable for swimming, showering, or diving.**Exposure to hot water, steam, or submersion can damage the device and void the warranty.

Battery Care

To prolong battery life, avoid fully discharging the watch frequently. Charge it when the battery level is low. Store the watch in a cool, dry place when not in use for extended periods. The 150mAh battery offers 5-7 days of typical use and up to 15 days of standby time.

Troubleshooting

Problem	Possible Cause	Solution
Watch does not turn on	Low battery; device malfunction.	Charge the watch for at least 30 minutes. If it still doesn't turn on, contact customer support.
Cannot pair with smartphone	Bluetooth off; app not running; watch not discoverable; previous pairing issues.	Ensure Bluetooth is on. Restart both watch and phone. Forget previous pairings in phone's Bluetooth settings. Re-open the app and try pairing again.
Notifications not received	App permissions; app not running in background; watch not connected.	Check app notification permissions on your phone. Ensure the app is running and the watch is connected via Bluetooth. Verify notification settings within the watch app.
Inaccurate health data	Improper fit; sensor obstruction; movement during measurement.	Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor area on the back of the watch. Remain still during measurements.
Watch frequently disconnects from app	App issues; phone's power saving settings; Bluetooth interference.	Ensure the app is updated. Disable aggressive power-saving modes for the app on your phone. Keep the watch and phone within Bluetooth range. Try re-pairing the device.
