## MAINTENANCE

- Cleaning the Screen:** Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a screen-specific cleaner. Avoid harsh chemicals.
- Cleaning the Cabinet:** Use a soft, dry cloth to wipe dust from the TV's cabinet.
- Software Updates:** The TV will automatically check for and install software updates when connected to the internet. Ensure your TV remains connected to receive the latest features and improvements.

## TROUBLESHOOTING

- No Power:** Ensure the power cable is securely connected to both the TV and a working power outlet. Try a different outlet.

- **No Picture/Sound:** Verify that the correct input source is selected. Check all cable connections (HDMI, etc.) for looseness or damage.
- **Remote Not Responding:** Ensure the remote is charged. If issues persist, try re-pairing the remote with the TV (refer to the Quick Start Guide for specific steps).
- **Network Connection Issues:** Restart your Wi-Fi router and the TV. Check your network settings on the TV to ensure the correct network is selected and the password is entered correctly.
- **Picture Quality Issues:** Adjust picture settings (brightness, contrast, color) in the TV menu. Ensure your content source is high quality (e.g., 4K content for 4K display).
