## HOMCOM 837-462V80GY

# HOMCOM Narrow Shoe Storage Cabinet

Model: 837-462V80GY

## 1. INTRODUCTION

---

Thank you for purchasing the HOMCOM Narrow Shoe Storage Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new shoe cabinet. Please read these instructions thoroughly before use and retain them for future reference.

Figure 1: The HOMCOM Narrow Shoe Storage Cabinet in a distressed gray finish, positioned in an entryway. It features a top drawer, two flip-down shoe compartments, and a lower open shelf, designed to organize shoes and small items.

## 2. SAFETY INFORMATION

---

- **Anti-Tipping Device:** It is highly recommended to anchor the cabinet to the wall using the provided anti-tipping hardware. This is crucial to prevent accidental tipping, especially in households with children and pets.
- **Weight Capacity:** Do not overload the shelves or the cabinet. The total weight capacity is 110 lbs, with each shelf supporting up to 22 lbs.
- **Shoe Size:** Avoid forcing shoes that are too large into the compartments, as this may cause damage to the cabinet or the shoes. The maximum shoe size accommodated is US Men's Size 10.5.
- **Assembly:** Ensure all parts are correctly assembled and fasteners are tightened securely before use.
- **Placement:** Place the cabinet on a flat, stable surface.

Figure 2: Illustration of the anti-tipping mechanism. Secure the cabinet to the wall with the provided hardware to enhance stability and prevent accidental tipping.

## 3. PACKAGE CONTENTS

---

Verify that all components listed in the assembly manual (included in the packaging) are present and undamaged. If any parts are missing or damaged, please contact customer support.

Typical components include:

- Cabinet panels (top, bottom, sides, back)
- Flip drawer mechanisms and fronts
- Top drawer components
- Adjustable shelves/dividers
- Handles
- Hardware pack (screws, dowels, anti-tipping kit)
- Assembly instructions manual

## **4. SETUP AND ASSEMBLY**

---

Assembly of the HOMCOM Narrow Shoe Storage Cabinet is required. Please follow the detailed step-by-step instructions provided in the separate assembly manual included in your package. Ensure you have all necessary tools (typically a screwdriver and hammer) before beginning.

### **Key Assembly Steps:**

1. Unpack all components and verify against the parts list.
2. Assemble the main cabinet frame.
3. Install the top drawer slides and assemble the top drawer.
4. Assemble and install the two flip drawer mechanisms.
5. Insert the adjustable shelves into the flip drawers as desired.
6. Attach the handles to the drawers.
7. Secure the anti-tipping device to the cabinet and wall.

Figure 3: This diagram illustrates the overall dimensions of the shoe cabinet: 31.5 inches wide, 9.4 inches deep, and 45.3 inches high, providing context for placement during setup.

## 5. OPERATING INSTRUCTIONS

### 5.1. Flip Drawers

The cabinet features two flip drawers for shoe storage. To open, gently pull the handle on the drawer front. The drawer will tilt forward, revealing the shoe compartments. To close, push the drawer back until it clicks securely into place.

Figure 4: This image highlights the storage capacity of the cabinet, featuring two flip drawers designed to hold multiple pairs of shoes.

## 5.2. Adjustable Shelves

Each flip drawer contains a 3-level adjustable shelf. To adjust the shelf height, remove the shoes, lift the shelf, and reposition it into the desired slots. This allows customization for different shoe sizes and types.

Figure 5: This image demonstrates the 3-level adjustable shelf within each flip drawer, allowing users to customize the space to fit various shoe sizes.

### 5.3. Removable Dividers

The interior dividers within the flip drawers are removable. For storing taller footwear such as ankle boots or high heels, the divider can be removed to create a larger compartment.

## ADJUSTABLE SHELF

3-level adjustable shelf fits shoes of different sizes and types

Figure 6: This diagram illustrates the removable divider feature, which allows for the storage of various shoe types, including ankle boots and high heels, by adjusting or removing the internal partition.

### 5.4. Top Drawer

The top drawer provides additional storage for smaller items such as keys, wallets, or other entryway essentials. Pull the handle to open and push to close.

Figure 7: This image displays the top storage drawer, suitable for organizing small items like keys, wallets, or other entryway essentials.

## 6. MAINTENANCE

---

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as they may damage the distressed gray finish.
- **Dusting:** Regularly dust the cabinet to prevent buildup.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary.
- **Spills:** Clean up any spills immediately to prevent staining or damage to the particle board.

## 7. TROUBLESHOOTING

---

- **Drawer not closing smoothly:** Check for any obstructions inside the drawer or along the tracks. Ensure the drawer mechanism is correctly aligned. Verify that all assembly screws are tight.
- **Cabinet feels unstable:** Confirm that the cabinet is placed on a level surface. Ensure the anti-tipping device is securely installed and anchored to the wall. Check all frame connections for tightness.

- **Shoes do not fit:** Adjust the internal shelves to a lower position or remove the dividers to accommodate taller shoes. Ensure shoes do not exceed US Men's Size 10.5.

## 8. SPECIFICATIONS

---
