## PawHut D51-131GY

# PawHut 2-Tier Wood Rabbit Hutch D51-131GY Instruction Manual

## 1. INTRODUCTION

This manual provides essential information for the safe and effective use of your PawHut 2-Tier Wood Rabbit Hutch, Model D51-131GY. Please read all instructions carefully before assembly and use. Retain this manual for future reference.

The PawHut 2-Tier Wood Rabbit Hutch is designed to provide a secure and comfortable living space for small animals such as rabbits. It features a multi-level design with a sheltered sleeping area and an integrated outdoor run, constructed from durable fir wood and steel wire.

## 2. SAFETY GUIDELINES

- Ensure all parts are securely fastened before placing animals inside.
- Regularly inspect the hutch for any damage or loose components that could pose a risk to your pets.
- Place the hutch on a flat, stable surface to prevent tipping.
- Provide adequate ventilation and protection from extreme weather conditions.
- This hutch is intended for small animals. Do not overcrowd the hutch.

## 3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. Refer to the included parts list (typically found in the packaging) to ensure you have everything required.

## 4. SETUP AND ASSEMBLY

Assembly typically involves connecting pre-fabricated panels and securing them with the provided hardware. Follow the step-by-step instructions provided in your product packaging for detailed guidance.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out.

2. **Identify Parts:** Match each component to the corresponding diagram in your assembly guide.
3. **Assemble Main Structure:** Begin by constructing the main two-tier hutch section.
4. **Attach Outdoor Run:** Connect the outdoor run securely to the main hutch.
5. **Install Ramp:** Position the anti-slip ramp to allow easy access between the hutch's levels.
6. **Secure Doors and Trays:** Ensure all doors are properly installed and latches function correctly. Insert the slide-out trays.
7. **Placement:** Choose a suitable outdoor location that offers protection from direct sunlight and harsh weather.

## MORE DETAILS

### A RAMP

Enter the main room easily

### ASPHALT ROOF

Keep home dry and warm

**Figure 4.2:** Close-up views of the anti-slip ramp and the asphalt roof. The ramp facilitates safe movement between levels, and the asphalt roof provides weather protection.

## 5. OPERATING INSTRUCTIONS

The PawHut Rabbit Hutch is designed for ease of use and animal comfort.

- **Access Doors:** The hutch features multiple lockable doors for convenient access to your pets and for cleaning. Ensure all latches are securely closed to prevent escapes and protect against predators.
- **Ramp Usage:** The internal ramp allows your rabbit to move freely between the enclosed sleeping area on the upper tier and the spacious outdoor run on the lower tier.
- **Sheltered Area:** The upper tier provides a private, sheltered space for resting and sleeping.
- **Outdoor Run:** The lower tier offers an open, wire-enclosed area for exercise and fresh air.

**Video 5.1:** This video showcases the PawHut Rabbit Hutch in an outdoor setting, highlighting its features and design, including the multi-level structure and access points.

## 6. MAINTENANCE AND CLEANING

Regular maintenance and cleaning are crucial for the health and well-being of your pets and the longevity of the hutch.

- **Slide-Out Trays:** The hutch is equipped with three slide-out trays (middle and bottom) for easy waste removal. Pull out the trays, dispose of waste, clean the trays with pet-safe disinfectant, and replace them.
- **Wood Care:** The fir wood construction is sealed with paint for safety and durability. Periodically wipe down wooden surfaces with a damp cloth. Avoid harsh chemicals that could harm your pets.
- **Roof Maintenance:** The composite asphalt roof provides weather protection. Inspect the roof periodically for any damage or leaks and repair as necessary to keep the interior dry.
- **Wire Mesh:** Check the steel wire mesh regularly for any signs of damage or rust. Repair or replace damaged sections to ensure pet safety and predator protection.

## NO-LEAK PLASTIC TRAY

Make cleaning work so much easier

**Figure 6.1:** A detailed image of the pull-out, no-leak plastic tray designed for easy cleaning and waste collection.

**Video 6.1:** This short video highlights the features of a PawHut Rabbit Hutch, including aspects relevant to its design and functionality, which may include cleaning access.

## 7. TROUBLESHOOTING

- **Loose Components:** If any parts become loose, tighten screws or re-secure latches immediately.
- **Animal Not Using Ramp:** Ensure the ramp is stable and free of obstructions. Some animals may need time to adjust or gentle encouragement.
- **Wood Damage:** If wood shows signs of chewing, consider adding chew toys or protective elements to deter further damage.
- **Weather Protection:** In severe weather, consider additional coverings or moving the hutch to a more sheltered area to protect your pets.
