PawHut D51-113V00CG

PawHut 5-Tier Rolling Small Animal Cage Instruction Manual

Model: D51-113V00CG

1. INTRODUCTION AND PRODUCT OVERVIEW

This manual provides instructions for the assembly, operation, and maintenance of your PawHut 5-Tier Rolling Small Animal Cage. This cage is designed to provide a secure and comfortable living space for various small animals, including pet mink, chinchillas, guinea pigs, ferrets, and small cats. Please read these instructions carefully before assembly and use to ensure proper function and safety for your pet.

The cage features multiple levels, ramps, and a hammock to create an engaging environment. Its rolling design allows for easy relocation, and the removable bottom tray simplifies cleaning.

3. ASSEMBLY INSTRUCTIONS

Before beginning assembly, ensure all parts are present and undamaged. Refer to the included parts list. Assembly typically requires two people.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, flat surface.
2. **Assemble Base Frame:** Connect the side panels to the bottom frame using the provided connectors and screws. Ensure all connections are secure.
3. **Attach Wheels:** Insert the four universal wheels into the designated slots on the bottom frame. Ensure the two lockable wheels are positioned at the front for easy access.
4. **Install Main Cage Sections:** Attach the lower cage section to the base. Then, connect the upper cage section to the lower section. Secure all panels with the appropriate fasteners.
5. **Place Platforms and Ramps:** Position the plastic platforms at the desired levels within the cage. Attach the ramps to connect the platforms, ensuring they are securely hooked to prevent movement.
6. **Install Hammock:** Hang the hammock from the top of the cage using its clips.

7. **Insert Bottom Tray:** Slide the removable bottom tray into the designated slot at the base of the cage.
8. **Secure Doors:** Ensure all cage doors are properly aligned and the latches function correctly.

5 TIERS ACTIVITY CENTRE

4. OPERATING INSTRUCTIONS

4.1 Accessing the Cage

The cage features multiple doors for convenient access to different levels. To open a door, unlatch the security mechanism and swing the door open. Always ensure doors are securely latched after use to prevent pets from escaping.

MORE DETAILS

4.2 Moving the Cage

The cage is equipped with four universal wheels for easy movement. To move the cage, unlock the two lockable wheels by lifting their levers. Once the cage is in the desired position, press down the levers on the lockable wheels to secure the cage in place.

5. MAINTENANCE AND CLEANING

5.1 Daily Cleaning

- Remove any uneaten food and soiled bedding daily.
- Wipe down accessible surfaces with a pet-safe cleaner.

5.2 Weekly Deep Cleaning

- **Remove Bottom Tray:** Slide out the bottom tray for thorough cleaning. Wash with warm, soapy water and disinfect with a pet-safe solution. Ensure it is completely dry before returning it to the cage.
- **Clean Platforms and Ramps:** Remove platforms and ramps if necessary for easier cleaning. Wash and disinfect them thoroughly.
- **Wipe Down Cage Bars:** Use a damp cloth with pet-safe cleaner to wipe down all cage bars and surfaces.
- **Wash Hammock:** Remove and wash the hammock according to its care instructions.
- **Inspect Components:** While cleaning, inspect all parts for wear, damage, or loose connections.

The cage's steel frame is designed with a special textured paint for wear resistance and anti-rust performance, allowing for direct cleaning with water. Always ensure the cage is dry before returning your pet.

6. SAFETY INFORMATION

- Ensure all latches on doors are securely closed to prevent pets from escaping.
- Regularly check for any sharp edges or damaged parts that could harm your pet.
- The bar spacing of 2.5 cm (1 inch) is suitable for most small animals listed. However, for very young or exceptionally small pets, monitor closely to ensure they cannot pass through the bars.
- Do not overload the platforms with excessive weight.
- Keep the cage on a level surface to prevent tipping. Use the wheel locks when the cage is stationary.
- This cage is intended for indoor use only.

7. TROUBLESHOOTING

- **Loose Screws/Connections:** If you notice any parts becoming loose, such as the legs or frame connections, re-tighten all screws and fasteners immediately. Regular inspection can prevent this issue.
- **Difficulty Moving Cage:** Ensure the lockable wheels are disengaged (levers lifted) before attempting to move the cage. Clean any debris from the wheels if they are still stiff.
- **Doors Not Latching Properly:** Check for any obstructions or bent components around the door and latch mechanism. Ensure the cage frame is not warped, which could affect door alignment.
- **Pet Escaping:** Double-check all door latches and inspect the entire cage for any gaps or damaged bars that your pet might exploit. Verify the bar spacing is appropriate for your pet's size.

8. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the documentation provided at the time of purchase or contact PawHut customer service. Keep your purchase receipt as proof of purchase.
