SETUP AND ASSEMBLY

This bookshelf requires assembly. All necessary parts are labeled, and hardware is included for a straightforward setup process. It is recommended to assemble the unit on a soft, clean surface to prevent scratches.

Assembly Steps:

- 1. Unpack and Identify Parts:** Carefully unbox all components and verify against the included parts list. Ensure all metal frames, wooden shelves, and hardware (screws, bolts, adjustable feet) are present.
- 2. Assemble the Frame:** Begin by connecting the main metal frame sections according to the numerical labels. Use the provided Allen key to tighten screws securely, but do not overtighten until all sections are aligned.
- 3. Attach Shelves:** Once the frame is stable, attach the wooden shelves to their designated positions. The shelves are designed to fit precisely within the frame.

4. **Install Adjustable Feet:** Screw the adjustable feet into the bottom of the frame. These feet help maintain balance on uneven floors.
5. **Secure to Wall (Safety Kit):** For enhanced stability and safety, especially in households with children or pets, utilize the included wall attachment safety kit. Secure the bookshelf to a wall using the provided anchors and straps. This prevents accidental tipping.
