SETUP

The patio cushions are shipped compressed to optimize packaging. Follow these steps for initial setup:

1. Carefully remove the cushions from their packaging.
2. Shake the cushions vigorously to help them expand and bounce back into their original shape. This process may take some time.
3. Place the seat cushions on your outdoor chairs or furniture.
4. Position the back cushions against the backrest of your outdoor chairs or furniture.

Allow up to 24-48 hours for the cushions to fully decompress and reach their intended plushness and dimensions.

USAGE

These deep seat cushions are designed for various outdoor furniture types, including chairs, sofas, and gliders. Ensure the dimensions of your furniture match the cushion sizes for a proper fit.

MAINTENANCE

Proper care will extend the life and appearance of your Outsunny cushions.

Cleaning Instructions

- **Spot Clean Only:** For minor spills or dirt, use a soft cloth with mild soap and water. Gently blot the affected area.
- Avoid harsh chemicals or abrasive cleaners, as these can damage the fabric and its water-repellent properties.
- Allow cushions to air dry completely before storing or reusing.

Storage

- While the cushions are fade-resistant and water-repellent, storing them in a dry, covered area during prolonged periods of non-use or extreme weather conditions (heavy rain, snow, intense sun) is recommended to maximize their lifespan.
- Ensure cushions are completely dry before storing to prevent mold or mildew.

TROUBLESHOOTING

Cushions Not Fully Expanded

If your cushions do not appear to have fully expanded after unpacking:

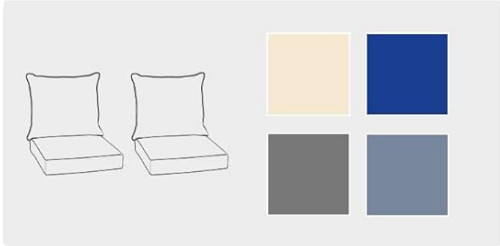

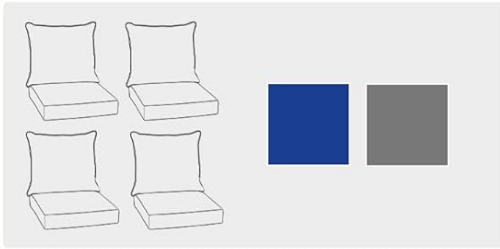

- Ensure sufficient time has passed (up to 48 hours) since unpacking.
- Vigorously shake and fluff the cushions to help distribute the foam filling and encourage expansion.
- Exposure to a warm environment can sometimes aid in the expansion process.
